Evil In Modern Myth And Ritual:

Evil in Modern Myth and Ritual Richard Stivers, 2020-04-28 Richard Stivers concern is with the social construction of evil that is with how modern societies in a partly unconscious way create evil as a category of the sacred and how symbols myths and rituals of evil are related to this He is interested moreover in how modern societies provoke individuals to commit evil actions This fascinating and stimulating book is the first attempt to work out in detail how the concepts of the sacred symbol myth and ritual form a cultural configuration in modern technological societies and not just in traditional societies

The Dark Side of Modernity Jeffrey C. Alexander, 2013-04-25 In this book one of the world's leading social theorists presents a critical alarmed but also nuanced understanding of the post traditional world we inhabit today Jeffrey Alexander writes about modernity as historical time and social condition but also as ideology and utopia The idea of modernity embodies the Enlightenment's noble hopes for progress and rationality but its reality brings great suffering and exposes the destructive impulses that continue to motivate humankind Alexander examines how twentieth century theorists struggled to comprehend the Janus faced character of modernity which looks backward and forward at the same time Weber linked the triumph of worldly asceticism to liberating autonomy but also ruthless domination describing flights from rationalization as systemic and dangerous Simmel pointed to the otherness haunting modernity even as he normalized the stranger Eisenstadt celebrated Axial Age transcendence but acknowledged its increasing capacity for barbarity Parsons heralded American community but ignored modernity's fragmentations Rather than seeking to resolve modernity's contradictions Alexander argues that social theory should accept its Janus faced character It is a dangerous delusion to think that modernity can eliminate evil Civil inclusion and anti civil exclusion are intertwined Alexander enumerates dangerous frictions endemic to modernity but he also suggests new lines of social amelioration and emotional repair

The Sacred in the Modern World Gordon Lynch, 2012-02-17 It is often claimed that we live in a secular age But we do not live in a desacralized one Sacred forms whether in religious or secular guise continue to shape social life in the modern world giving rise to powerful emotions polarized group identities and even the very concept of moral society Analyzing contemporary sacred forms is essential if we are to be able to make sense of the societies we live in and think critically about the effects of the sacred on our lives for good or ill The Sacred in the Modern World is a major contribution to this task Re interpreting Durkheim's theory of the sacred and drawing on the strong program in cultural sociology Gordon Lynch sets out a theory of the sacred that can be used by researchers across a range of humanities and social science disciplines Using vividly drawn contemporary case material including the abuse and neglect of children in Irish residential schools and the controversy over the BBC's decision not to air an appeal for aid for Gaza the book demonstrates the value of this theoretical approach for social and cultural analysis The key role of public media for the circulation and contestation of the sacred comes under close scrutiny Adopting a critical stance towards sacred forms Lynch reflects upon the ways in which sacred commitments can both serve as a moral

resource for social life and legitimate horrifying acts of collective evil He concludes by reflecting on how we might live thoughtfully and responsibly under the light and shadow that the sacred casts asking whether society without the sacred is possible or desirable

Religion , The Culture of Cynicism Richard Stivers,2023-06-22 Richard Stivers received an Earhart Foundation research fellowship to write this wide ranging and thought provoking book on American morality The book places American morality in its historical and cultural context His research uncovered an ersatz morality that has supplanted traditional Judaic Christian and humanistic moralities which placed some limitations on the exercises of power It consists of technical and bureaucratic rules public opinion and peer group norms and visual images in the media Technical and bureaucratic rules are technology s power to organize society Public opinion and peer group norms work to transform the normal into the moral and visual images in the media make tangible what is normal and what is possible both of which follow the lead of technology This technological morality is exclusively about unleashing power and has no moral purposes it is solely about efficiency and effectiveness Finally he discusses the social and psychological costs of living without a common morality

The Sacred Monstrous Wendy C. Hamblet,2004-01-01 In The Sacred Monstrous author Wendy Hamblet traces the historical and social fact of violence through the work of Girard Bloch Lorenz and Burket She takes up the charge advanced by social theorists anthropologists and others that violence is steeped in our being it pervades our generations and is imbedded in the ethos of our modern institutions Hamblet s discussion of human history re frames our understanding of how violence works in history and society The Sacred Monstrous is a salient work of continentally informed philosophy that contributes significantly to any discussion of violence and conflict in the social sciences

Rescuing Humanity Willem H. Vanderburg,2023-05-26 In Rescuing Humanity Willem H Vanderburg reminds us that we have relied on discipline based approaches for human knowing doing and organizing for less than a century During this brief period these approaches have become responsible for both our spectacular successes and most of our social and environmental crises At their roots is a cultural mutation that includes secular religious attitudes that veil the limits of these approaches leading to their overvaluation Because their use especially in science and technology is primarily built up with mathematics living entities and systems can be dealt with only as if their architecture or design is based on the principle of non contradiction which is true only for non living entities This distortion explains our many crises Vanderburg begins to explore the limits of discipline based approaches which guides the way toward developing complementary ones capable of transcending these limits It is no different from a carpenter going beyond the limits of his hammer by reaching for other tools As we grapple with everything from the impacts of social media the ongoing climate crisis and divisive political ideologies Rescuing Humanity reveals that our civilization must learn to do the equivalent if humans and other living things are to continue making earth a home

Global Perspectives on Villains and Villainy Today ,2020-05-18 This e book presents the findings of the 2nd global interdisciplinary conference on Villains and Villainy which was held at Oriel College Oxford in September 2010 as part of the

research network Inter Disciplinary Net Legendary Creatures and Monsters Dean Miller,2014-01-01 This comprehensive atlas provides information on supernatural beings from around the world presented in alphabetical order and including such creatures as changelings the hydra and werewolves Sidebars and boxes highlight interesting facts glossary an index and resources for further study conclude this meticulously illustrated book *The Media Creates Us in Its Image and Other Essays on Technology and Culture* Richard Stivers,2020-03-31 The Media Creates Us in Its Image and Other Essays on Technology and Culture proposes that modern technology seriously influences every aspect of culture and personality Technology shapes our beliefs and values and even how we think of ourselves It affects religion morality education language communication and sexual identity Every institution every organization is brought under its purview This book attempts to awaken the reader to the destructive side of modern technology that exists side by side with its constructive side What modern technology is destroying however is the very meaning of being human The essay The Media Creates Us in Its Image makes this case most dramatically The book asks the reader the following question Is what you have gained from the use of modern technology more important than what you have lost How do we once again bring technology under our control in the face of its inexorable progress **Secular Nations under New Gods** Willem H. Vanderburg,2018-12-21 The ongoing political muscle flexing of diverse Christian communities in North America raises some deeply troubling questions regarding their roles among us Earlier analyses including Herberg s Protestant Catholic Jew showed that these three branches of the Judaeo Christian tradition correspond to three forms of the American way of life while Kruse s One Nation Under God showed how Christian America was shaped by corporate America Willem H Vanderburg s Secular Nations under New Gods proceeds based on a dialogue between Jacques Ellul s interpretation of the task of Christians in the world and Ellul s interpretation of the roles of technique and the nation state in individual and collective human life He then adds new insight into our being a symbolic species dealing with our finitude by living through the myths of our society and building new secular forms of moralities and religions If everything is political and if everything is amenable to discipline based scientific and technical approaches we are perhaps treating these human creations the way earlier societies did their gods as being omnipotent without limits Vanderburg argues that until organized Christianity becomes critically aware of sharing these commitments with their societies it will remain entrapped in the service of false gods and thereby will continue to turn a message of freedom and love into one of morality and religion **Democratic Theory and Technological Society** Richard B. Day,Ronald Beiner,Joseph Masciulli,2017-07-05 What are the chief challenges posed to contemporary democracy by modern technology and how can democratic theory best respond to or at least reflect on those challenges Inhabiting the kind of technologically advanced era in which we live what sources are available within political theory for theoretical insight concerning the problem of democratic engagement with technology The purpose of this volume is to canvas a broad range of theorists and theoretical traditions in order to address these questions including Hegel and Marx Rousseau and John Dewey

Heidegger and Simone Weil Habermas and Walter Benjamin Hannah Arendt and Hans Jonas Commentaries on all these important thinkers focused on the issue of contemporary technology as posing unique social and political challenges for democratic political life yields rich and ambitious resources for theoretical reflection *The ^AMeanings of Social Life* Jeffrey C. Alexander,2003-09-18 In *The Meanings of Social Life* Jeffrey Alexander presents a new approach to how culture works in contemporary societies Exposing our everyday myths and narratives in a series of empirical studies that range from Watergate to the Holocaust he shows how these unseen yet potent cultural structures translate into concrete actions and institutions Only when these deep patterns of meaning are revealed Alexander argues can we understand the stubborn staying power of violence and degradation but also the steady persistence of hope By understanding the darker structures that restrict our imagination we can seek to transform them By recognizing the culture structures that sustain hope we can allow our idealistic imaginations to gain more traction in the world A work that will transform the way that sociologists think about culture and the social world this book confirms Jeffrey Alexander s reputation as one of the major social theorists of our day **Transforming the Powers** Ray C. Gingerich,Ted Grimsrud, Walter Wink s widely acclaimed trilogy from Fortress Press Naming the Powers 0 8006 1786 X 1984 Unmasking the Powers 0 8006 1902 1 1993 and Engaging the Powers 0 8006 2646 X 1992 has sold over 80 000 copies The Powers are good the Powers are fallen the Powers must be redeemed says Wink and the illustrious theologians and ethicists in this volume apply this suggestive analysis to economics politics and government war and peace personal ethics and ecological and social justice Contributors include Ray Gingerich Eastern Mennonite University Ted Grimsrud Eastern Mennonite University Nancey Murphy Fuller Theological Seminary Daniel Liechty Illinois State University Walter Wink Auburn Theological Seminary Willard M Swartley Associated Mennonite Biblical Seminary Glen Stassen Fuller Theological Seminary **Bad Habits** John C. Burnham,1993 Seeks to discover why so many good people engage in activities that many including themselves consider bad finding a coalition of economic and social interest in which the singleminded quest for profit is allied to the values of the Victorian saloon underworld and bohemian rebelliousness **Technology and Responsibility** P.T. Durbin,2013-03-09 Since it may seem strange for a new series to begin with volume 3 a word of explanation is in order The series Philosophy and Technology inaugurated in this form with this volume is the official publication of the Society for Philosophy the one requirement is that the scholarship be sound and all contributions to the series are subject to rigorous blind refereeing Technology the other half of the philos ophy and technology pairing is also construed broadly Introducing Religion Robert Ellwood,2016-10-14 *Introducing Religion* 4 e explores the different ways of looking at religion in the twenty first century A broad overview to religious studies as a discipline introduces students to the various subjects of religion *Introducing Religion* teaches readers how to think in academic religious studies and its main areas including sociology of religion psychology of religion history of religion religion and art ethics and more The fourth edition has been expanded with new chapters exploring topics of contemporary interest

myth spiritual paths religion and popular culture religion in the computer age religion and war Contemporary topics engage today's students relating the topics to the changing world around them *The Coincidence of Opposites* Kevin McCarron, 1995 The principal assertion of *The Coincidence of Opposites* is that all of William Golding's later fiction from *Darkness Visible* to *Fire Down Below* moves towards a state of synthesis a denial of distinctions which the author achieves through the reconciliation of ostensibly antithetical positions Throughout this sequence of novels it is consistently implied that apparently intractable polarities have no genuine a priori existence McCarron's study is both theoretically inflected and heavily interdisciplinary incorporating philosophy sociology anthropology and theology in addition to literary theory

Myths and Rituals Vengesai Chiminingo, 2019-08-09 *Myths and rituals in Zion Christian Church ZCC of Samuel Mutendi in Zimbabwe* is a book that comes as a result of my thesis from the University of South Africa UNISA The two religious phenomena myths and rituals are presented in the light of the Zionists' own testimonies It is argued in this book that a lot of beliefs and practices in the ZCC are adapted and adopted from Karanga religiosity and lifestyle The book explained the critical role played by myths and rituals in the origins and development of the ZCC of Samuel Mutendi in Zimbabwe As we read throughout this book we are going to see that myths and rituals are treated as two sides of the same coin in the ZCC worldview The relationship between the two is thus inseparable Among the members of ZCC myths and rituals grow *pari passu* that is at the same time In this case we can see that in the ZCC ecclesiastical worldview myths and rituals are of equal importance not only in theory but also in practice Indeed they act as nectar that attracts a lot of people to join the ZCC since the two have a therapeutic value *Proceedings of the Seventh International Conference on the Study of Shamanism and Alternate Modes of Healing, Held at the St. Sabina Center, San Rafael, California, September 1 to 3, 1990* Ruth-Inge Heinze, 1990
