The Evolution of the U.S. Navy's Maritime Strategy, 1977-1986 John B. Hattendorf, 2004 this is a case study of the process by which a strategy was developed and applied within the present American defense establishment bearing in mind the broad aspects involved in the rational development of a strategy through an understanding of national aims technological and geographical constraints and relative military abilities The Evolution of Strategy Beatrice Heuser, 2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over the past two millennia **Conceptualizing Maritime & Naval**

than 10 years of anti piracy patrols in the far reaches of the Indian Ocean has acted as a learning curve accelerator to blue water status McDevitt then explores the PLA Navy s role in the South China Sea and the Indian Ocean He provides a detailed assessment of what the PLAN will be expected to do if Beijing chooses to attack Taiwan potentially triggering combat with America s first responders in East Asia especially the U S Seventh Fleet and U S Fifth Air Force He conducts a close exploration of how the PLA Navy fits into China s campaign plan aimed at keeping reinforcing U S forces at arm s length what the Pentagon calls anti access and area denial A2 AD if war has broken out over Taiwan or because of attacks on U S allies and friends that live in the shadow of China McDevitt does not know how Xi defines world class but the evidence from the past 15 years of building a blue water force has already made the PLA Navy the second largest globally capable navy in the world This book concludes with a forecast of what Xi s vision of a world class navy might look like in the next fifteen years when the 2035 deadline is reached
