Analysis of the Evolution of Musical Form (Classic Reprint) Margaret H. Glyn, 2016-09-30 Excerpt from *Analysis of the Evolution of Musical Form* The general drift of this theory of music has already been indicated in *The Rhythmic Conception of Music* The object of the present volume may be briefly stated to be the application of the evolutionary principle to practical music the essential motive power of which is to be found in rhythm By this means it is possible to produce an analysis which as promised in the former volume shall weld all the various parts of musical education into one consistent and logical Whole The theory has arisen not from abstract ideas but out of the study of music It is not so much a theory about music as an endeavour to translate into the terms of the intellect the form of the impressions made upon the musical imagination in short to hold the mirror up to Music It is hoped that those who have themselves the intuitive knowledge will recognise the likeness About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Evolution of Musical Form Margaret H. Glyn, 1910 *Musical Form in the Age of Beethoven* Adolf Bernhard Marx, 1997-12-04 A B Marx was one of the most important German music theorists of his time Drawing on idealist aesthetics and the ideology of Bildung he developed a holistic pedagogical method as well as a theory of musical form that gives pride of place to Beethoven This volume offers a generous selection of the most salient of his writings the majority presented here in English for the first time It features Marx's oft cited but little understood material on sonata form his progressive program for compositional pedagogy and his detailed critical analysis of Beethoven's Eroica Symphony These writings thus deal with issues that fall directly among the concerns of mainstream theory and analysis in the last two centuries the relation of form and content the analysis of instrumental music the role of pedagogy in music theory and the nature of musical understanding
