**Collaborative Knowledge Management Through Product Lifecycle** Hongwei Wang, Gongzhuang Peng, 2023-03-01 This book not only presents the state of the art research on knowledge modelling knowledge retrieval and knowledge reuse but also elaborates the Collaborative Knowledge Management CKM paradigm and the architecture for the next generation of knowledge management systems Although knowledge management has been extensively studied particularly in the fields of business management and engineering design there is a lack of systematic methodologies for addressing the integrated and collaborative dimension of knowledge management during the collaborative process of designing and developing complex systems products processes and services The rapid development of information technologies together with their applications in engineering and management has laid the foundation for a Collaborative Knowledge Management CKM paradigm The book specifically discusses this paradigm from a computational perspective By exploring specific research findings underpinning further CKM research and applications and describing methods related to hot research topics and new research areas the book appeals to professionals researchers and graduate students who are interested in knowledge management and related topics and who have a basic understanding of information technologies computational methods and knowledge management

**The Metaphysics of Evolution** David L. Hull, 1989-01-01 This critical collection of essays represents the best of the best when it comes to philosophy of biology Many chapters treat evolution as a biological phenomenon but the author is more generally concerned with science itself Present day science particularly current views on systematics and biological evolution are investigated The aspects of these sciences that are relevant to the general analysis of selection processes are presented and they also serve to exemplify the general characteristics exhibited by science since its inception

**Product Modelling for Computer Integrated Design and Manufacture** Michael Pratt, R.D. Sriram, Michael J. Wozny, 2016-01-09 This state of the art text explores developments in geometric modeling product modeling and their applications In particular it looks at the means by which product geometry emerges from the conceptual stages of design and the use of geometric reasoning for applications downstream of design including manufacture and assembly Much existing design research is either totally geometry based or totally non geometric and the interface between the two areas is of intense interest to industry as well as being crucial for the successful development of integrated systems for design and manufacture This interface is currently not well understood and the book makes a significant contribution towards its understanding This book is essential reading for technical managers and research and development engineers

**Current Issues in Databases and Information Systems** Julius

Stuller, Jaroslav Pokorný, Bernhard Thalheim, Yoshifumi Masunaga, 2003-06-29 The East European Conference on Advances in Databases and Information Systems ADBIS is the successor of the annual International Workshops with the same title that during 1993-1996 were organized in Russia by the Moscow ACM SIGMOD Chapter. Initiated in St. Petersburg, Russia, in 1997 it continued in Poznań, Poland, in 1998 and in Maribor, Slovenia, in 1999. The ADBIS Conference became the premier database and information systems conference in Eastern Europe. It intended to increase interaction and collaboration between researchers from the East and the West and to provide an internationally recognized tribune for the presentation of research results. The International Conference on Database Systems for Advanced Applications DASFAA was first held in Seoul, Korea, in 1989 to promote database research and development activities in Asian and Australasian countries. The Special Interest Group of Database Systems SIGDBS of the Information Processing Society of Japan IPSJ and the Special Interest Group of Database SIGDB of Korea Information Science Society KISS had important roles in the organization of DASFAA. Since that time the DASFAA has been held every two years: Tokyo in 1991, Daejeon in 1993, Singapore in 1995, Melbourne in 1997, and Taiwan in 1999. The DASFAA became one of the most prestigious international conferences ever held in Asia or Australasia. On the Origin of Products Arthur O.
