Roche, 2023-04-21 This book interrogates the significance of the revival and reformulation of the romance genre in the postmillennial period Emma Roche examines how six popular novels published between 2005 and 2015 *Twilight* *Fifty Shades of Grey* *Gone Girl* *Sharp Objects* and *The Girl on the Train* reanimate and modify recognisable tropes from the romance genre to reflect a neoliberal and postfeminist cultural climate As such Roche argues these novels function as crucial spaces for interrogating and challenging those contemporary gender ideologies Throughout the book Roche addresses and critiques several key attributes of neoliberal postfeminism including a pervasive emphasis on individualism and personal responsibility an insistent requirement for self monitoring self surveillance and bodywork the celebration of consumerism and its associated pleasures the prescription of mandatory optimism and suppressing one's negative emotions and the endorsement of choice as a primary marker of women's empowerment While much critical attention has been devoted to those attributes and their pernicious effects Roche argues that one crucial repercussion has been largely overlooked in contemporary cultural criticism how these ideologies function together to effectively sanction gender based violence Thus Roche exploits textual analysis to demonstrate the subtle ways in which neoliberal postfeminism can augment women's vulnerability to male violence **Enter Helen** Brooke Hauser, 2016-04-19 Engaging Nimble footed Amusing Throughout Hauser weaves in

Library of the World's Best Literature: Synopses of noted books (contin.) General index ,1898 **Hollywood's Last Golden Age** Jonathan Kirshner,2012-11-15 Between 1967 and 1976 a number of extraordinary factors converged to produce an uncommonly adventurous era in the history of American film The end of censorship the decline of the studio system economic changes in the industry and demographic shifts among audiences filmmakers and critics created an unprecedented opportunity for a new type of Hollywood movie one that Jonathan Kirshner identifies as the seventies film In Hollywood s Last Golden Age Kirshner shows the ways in which key films from this period including Chinatown Five Easy Pieces The Graduate and

Nashville as well as underappreciated films such as *The Friends of Eddie Coyle*, *Klute* and *Night Moves* were important works of art in continuous dialogue with the political, social, personal and philosophical issues of their times. These seventies films reflected the era's social and political upheavals, the civil rights movement, the domestic consequences of the Vietnam war, the sexual revolution, women's liberation, the end of the long postwar economic boom, the Shakespearean saga of the Nixon Administration and Watergate. Hollywood films in this brief exceptional moment embraced a new aesthetic and a new approach to storytelling, creating self-consciously gritty, character-driven explorations of moral and narrative ambiguity. Although the rise of the blockbuster in the second half of the 1970s largely ended Hollywood's embrace of more challenging films, Kirshner argues that seventies filmmakers showed that it was possible to combine commercial entertainment with serious explorations of politics, society and characters' interior lives.

Whodunit? Rosemary Herbert, 2003-05-08 Who populates the pages of crime and mystery writing? Who are the characters we willingly follow into the mystery genre's uneasy imaginative territory? And who created those characters in the first place? What life experience and expertise informs their work? What are the sources of their themes, regional accents and even the axes that some grind? Why do some wish to give us a good laugh while others seem hell-bent on making us shudder? *Whodunit* answers these questions and more. Here, mystery expert Rosemary Herbert brings together enlightening and entertaining information on hundreds of classic and contemporary characters and authors. Some, such as P. D. James, Ian Rankin, Sherlock Holmes and Kinsey Millhone, appear in individual entries. Still more keep company in articles about characters we admire, such as the Clerical Sleuth, and in pieces about those we love to hate, including the Femme Fatale and Con Artist. There is even an article on a figure that haunts so many great works of mystery: The Corpse Drawing on the Edgar Award-nominated volume *The Oxford Companion to Crime Mystery Writing*. Herbert adds 101 new entries on the hottest new names in works ranging from puzzling whodunits to chilling crime novels.

Godey's Lady's Book and Magazine, 1843 **The American Child** Caroline Field Levander, Carol J. Singley, 2003 From the time that the infant colonies broke away from the parent country to the present-day narratives of U.S. national identity, are persistently configured in the language of childhood and family. In *The American Child: A Cultural Studies Reader*, contributors address matters of race, gender and family to chart the ways that representations of the child typify historical periods and conflicting ideas. They build on the recent critical renaissance in childhood studies by bringing to their essays a wide range of critical practices and methodologies. Although the volume is grounded heavily in the literary, it draws on other disciplines, revealing that representations of children and childhood are not isolated artifacts but cultural productions that in turn affect the social climates around them. Essayists look at games, pets, adolescent sexuality, death, family relations and key texts such as *The Adventures of Huckleberry Finn* and the movie *Pocahontas*; they reveal the ways in which the figure of the child operates as a rich vehicle for writers to consider evolving ideas of nation and the diverse role of citizens within it.
