connection between political structures and Panhellenic sanctuaries and the network of relationships between various ancient sanctuaries throughout the Greek speaking world The volume which makes available in English for the first time much of the debate about the city provides a valuable resource for students and academics studying the city of Elis the Peloponnese and the relationships within it and pre Hellenistic Greece as a whole      **Landscape Archaeology and the Medieval Countryside** Effie F. Athanassopoulos,2017-02-28 This volume presents the results of the medieval component of the Nemea Valley Archaeological Project NVAP survey conducted from 1985 1990 The archaeological evidence points to a proliferation of sites dating to the 12th 13th century A D There are two large sites and a substantial number of small sites on the lower slopes of the hills surrounding the Nemea Valley and in smaller valleys in the southern part of the survey area Archaeological evidence of settlements from the late 13th 15th century is scarce providing a contrast to the patterns documented for the 12th late 13th century This study is thus also concerned with general trends and important sociopolitical changes that affected such developments in the Nemea region in the medieval period      **The Complete Archaeology of Greece** John Bintliff,2012-05-21 The Complete Archaeology of Greece covers the incredible richness and variety of Greek culture and its central role in our understanding of European civilization from the Palaeolithic era of 400 000 years ago to the early modern period In a single volume the field s traditional focus on art and architecture has been combined with a rigorous overview of the latest archaeological evidence forming a truly comprehensive work on Greek civilization Extensive notes on the text are freely available online at Wiley Online Library and include additional details and references for both the serious researcher and amateur A unique single volume exploration of the extraordinary development of human society in Greece from the earliest human traces up till the early 20th century AD Provides 22 chapters and an introduction chronologically surveying the phases of Greek culture with over 200 illustrations Features over 200 images of art architecture and ancient texts and integrates new archaeological discoveries for a more detailed picture of the Greece past its landscape and its people Explains how scientific advances in archaeology have provided a broader perspective on Greek prehistory and history Selected by Choice as a 2013 Outstanding Academic Title      *Rural Lives and Landscapes in Late Byzantium* Sharon E. **Village** Brice L. Erickson, 2018-10-22 This volume presents the Protogeometric through Hellenistic material ca 970-175 B.C. from ASCSA excavations conducted in the 1950s at Lerna in the Argolid, one of the most important prehistoric sites in Greece. The material derives from two main sources: burials from a Geometric cemetery near the settlement and Late Archaic Classical and Hellenistic wells from the mound proper. Although the material consists primarily of pottery and other ceramic finds, it also includes human remains, animal bones and shells, coins, inscriptions, and bronze and stone objects. Heather Graybehl provides a petrographic analysis. Mark L. Lawall discusses the transport amphorae and import patterns. David S. Reese presents the faunal material, and David Scallan presents and catalogues two Doric capitals. This study not only gives scholars greater insight into ceramic developments in the Argolid, it brings much needed focus to the material culture of a historic settlement not known for strategic trading, politics, or military prowess. Lerna VIII will greatly facilitate comparative studies with other modestly sized communities in ancient Greece. *Red-figure Pottery in its Ancient Setting* Bodil

Bundsgaard Rasmussen, Stine Schierup, 2012-05-22 What happened when Athenian pottery reached other cultural contexts and was absorbed into indigenous communities around or outside Greece? How did the various contexts influence the adaptation of Athenian iconography, and does the setting add to an understanding of how Athenian iconographic themes were altered or absorbed as they entered into new cultural contexts? To highlight these interpretative challenges, the National Museum of Denmark in 2009 staged the colloquium *Red-figure Pottery in its Ancient Setting* and invited a group of specialists to present cases from within their areas of research, which would serve to enhance our understanding of the great range of the character and value of red-figure pottery and its imagery, whether in local Greek, a colonial Greek, or Etruscan or any other indigenous community. The various cases presented in these proceedings of the colloquium clearly demonstrate that this approach to the study of Greek pottery and its imagery has much to offer. **The Chrysokamino Metallurgy**

**Workshop and Its Territory** Philip P. Betancourt, 2006 This detailed report describes archaeological fieldwork conducted between 1995 and 1997 in rural northeast Crete. Excavations were made in two locations: a metallurgy workshop abandoned in EM III and a nearby rural habitation site, perhaps a farmhouse, used until LM III. An intensive survey of the vicinity revealed other activities in the area from the Early Neolithic onwards and placed the sites in a micro-regional context. A publication of the Minoan farmhouse will appear subsequently, but this volume stands on its own as both an overview of the project and as a detailed study of the copper smelting workshop. *A Companion to the Archaeology of Early Greece and the Mediterranean, 2 Volume Set* Irene S. Lemos, Antonis Kotsonas, 2020-01-09 A Companion that examines together two pivotal periods of Greek archaeology and offers a rich analysis of early Greek culture. *A Companion to the Archaeology of Early Greece and the Mediterranean* offers an original and inclusive review of two key periods of Greek archaeology, which are typically treated separately: the Late Bronze Age and the Early Iron Age. It presents an in-depth exploration of the society and material culture of Greece and the Mediterranean from the 14th to the early 7th centuries BC. The two-volume companion sets Aegean

**Human Development in Sacred Landscapes** Lutz Käppel, Vassiliki Pothou, 2015-06-17

Holy Landscape is a term frequently used to describe a multidimensional phenomenon What this actually comprises is hard to define Precisely this question is addressed in this volume The holy landscape depends on people's Weltanschauung and is influenced by their respective culture and ethos It is not just a question of religious buildings and rituals nor is a mere matter of explicating terms such as pure and impure magic and myths it is about an expressive space in which the ceremony and mood of rites and cults take place The contributions also deal with the emergence and continuing development of the term holy landscape and the changing expressions of religious mood
