## **Everyman Revived The Common Sense Of Michael Polanyi:**

**Everyman Revived** Lady Drusilla Scott,1995 This book has been done in a way and in a style that makes for very easy reading and understanding even by those who have not been familiar with the deep changes going on in science This is a fine piece of communication to the wider public and will be widely received The Reverend Professor T F Torrance      **Everyman revived** ,1987      **Michael Polanyi** Mark T. Mitchell,2023-10-10 The polymath Michael Polanyi first made his mark as a physical chemist but his interests gradually shifted to economics politics and philosophy in which field he would ultimately propose a revolutionary theory of knowledge that grew out of his firsthand experience with both the scientific method and political totalitarianism In this sixth entry in ISI Books Library of Modern Thinkers series Mark T Mitchell reveals how Polanyi came to recognize that the roots of the modern political and spiritual crisis lay in an errant conception of knowledge that served to foreclose any possibility of making meaningful statements about truth goodness or beauty Polanyi s theory of knowledge as ineluctably personal but also grounded in reality is not merely of historical interest writes Mitchell for it proposes an attractive alternative for anyone who would reject both the hubris of modern rationalism and the ultimately nihilistic implications of academic postmodernism      Crossroads of the Eternal M. Brett Callaway,2018-11-07 Not so long ago it was taken for granted that God exists Today there is a blindness to him even though he makes his presence known to all The book begins by showing how better to recognize his presence and understand how he reveals himself to us The next three chapters discuss how we move from an awareness of his presence to beginning to know him and through a knowledge of him begin to know what his purpose is for us and how our lives are shaped by that knowledge Having seen how he reveals himself to us and how we know the world and see the world through different eyes we then look at how to apply our new view in the face of a society that remains blind to this knowledge Chapters 5 7 explore truth first from the standpoint of its existence then in how to recognize its counterfeits and finally to understand the consequences of its loss Chapters 8 10 look at how and why being able to see God s hand in all aspects of life and to center life on him by faith in his son Jesus Christ completely changes life for the better Non Christians often hear this claim made by evangelists If they ask why too often the answer is in Christian speak that is foreign to them The intent is to bridge from the place where they are and explain how Christians have found peace in times of suffering even joy in the most horrific circumstances enabling them to give thanks in all things In a sense the book finishes where it started by looking at who we truly are what kind of world this is and how God has made all into his glorious plan      *Personal Being* Andrew T. Grosso,2007 *Personal Being* Polanyi Ontology and Christian Theology contributes to Michael Polanyi studies to the conversation between philosophy and theology and to the contemporary renaissance in trinitarian theology The author begins by elaborating the ontology implied by Polanyi s theory of personal knowledge and argues that personhood is a fundamental category for understanding reality He then explores the reception of Polanyi s philosophy in theological studies and outlines a method responsive to interdisciplinary dialogue Finally

he employs a Polanyian model of personhood to examine the doctrine of the Trinity and suggests that this effort anticipates the development of a personalistic Christian cosmology      Research Methodology in Strategy and Management David J. Ketchen Jr., Donald D. Bergh, 2005-06-10 Research methods present the strategic management field with opportunities and challenges This second volume describes challenges and opportunities inherent in particular content areas examines key ontological and epistemological issues in the strategic management context and also describes how strategy researchers can use particular methods      Western Culture in Gospel Context David J. Kettle, 2011-04-18 Approaching us in sovereign freedom God comes alive to us we come alive to God and all creation comes alive as a sign pointing to God In the gospel of Jesus Christ God gives and discloses himself in this immediate way as our ultimate context and host within the provisional medium of creation This life giving gospel is met by blindness however among those who live today in a collapsing Western culture This is because their imaginative world is shaped by habitual assumptions and practices that lie largely unacknowledged deep within that culture and that preclude openness to the gospel Moreover Western Christians themselves widely share these assumptions betraying the gospel into cultural captivity God calls for the conversion of Western culture to the living gospel Crucially this must include as Lesslie Newbigin recognized a repentance from modern Western assumptions about knowledge Part One explores seeking knowing and serving God as providing a true paradigm for understanding all human enquiry knowledge and action Part Two examines ten resulting hot spots where conversion from prevailing cultural assumptions is vital for authentic mission to Western culture      **Justified Faith without Reasons?** Valentin Teodorescu, 2023-11-06 This study intends to show that the answer to the question whether faith can be justified without proofs can be resolved by importing ideas from Søren Kierkegaard's and Alvin Plantinga's affirmative take on the matter There is a deep similarity between the way they understand belief in God and belief in Christianity The authors share the modern idea that there is an objective truth combining it with the postmodern stance that no method exists which would guarantee access to it One can see at both authors not only a deep commonality of ideas but also a remarkable way in which their understandings augment each other Whereas Kierkegaard comes to the provocative conclusion that if a person wants to live authentically she will meet Christ on her life's journey without needing any proof Plantinga's inquiry contributes to the rational plausibility of this Justified Faith without Reasons project      **Confessing and Believing** Trevor Hart, 2022-08-02 In *Confessing and Believing* Trevor Hart takes readers on a guided tour of the Apostles Creed one of the most ancient universally recognized and important statements of faith ever penned by the Christian Church The Creeds lasting value is not owed simply to its age it has identifiable roots in the earliest baptismal ceremonies of the earliest Christians but because as Hart's careful interpretation demonstrates the Creed is as comprehensive in its scope as it is concise in its testimony While the Creeds intrinsic values make it ideal for regular use in worship Hart capitalizes on the Creed's structure and highly concentrated nature to provide a framework for teaching the essentials of Christian belief Hart reveals that there is far more

to the Creed than ancient statements about God Jesus the Holy Spirit or the Church Hart employs the Creeds twelve clauses to reveal the vibrant theology behind in and in front of the Creed His interpretation of the Creed is not just an historical exercise i e to discover what Christians once believed but to understand what has been believed everywhere always and by all and to do so in a way that addresses the intellectual and cultural contexts of the 21st Century Hart s perceptive analysis reveals why the Creed has been is and will continue to be both confessed and believed Grasping Truth and Reality Donald Le Roy Stults,2009-02-26 When Lesslie Newbigin returned to Britain in 1974 after years of missionary service he observed that his homeland was as much a mission field as India where he had spent the majority of his missionary career He concluded that the Western world needed a missionary confrontation Instead of the traditional approach to missions however Newbigin realized that the Western world needed to be confronted theologically From his earliest days at Cambridge University Newbigin developed the theological convictions that shaped his understanding of the Christian faith and he used these theological convictions as criteria to evaluate the belief system of Western culture and to provide an answer to its dilemma The Enlightenment reintroduced humanism and dualism into Western culture which resulted on the loss of purpose and the rise of scepticism This book discusses Newbigin s theological convictions and how they factored into both his critique of and his solution to Western culture s spiritual and worldview problems Donald Le Roy cleverly explains Newbigin s solution to reintroduce the Christian belief system into Western culture in order to restore purpose and truth to Westerners and put them back in contact with true reality through Jesus Christ The Christian Frame of Mind Thomas F. Torrance,2015-08-25 The Christian Frame of Mind Reason Order and Openness in Theology and Natural Science is an exhilarating exploration by one of this century s premier theologians of the relationship between science and theology This collection of essays which focuses on themes central to Thomas F Torrance s lifelong work of integrating Judea Christian theology and natural science illuminates the distinctive contribution of the Christian frame of mind to human life and thought particularly in the rise of modern science Arguing to close the gap between theological and natural science erroneously opened by the narrow minded rationalism of the Enlightenment Dr Torrance builds upon the work of scientists such as James Clerk Maxwell Albert Einstein and Michael Polanyi in promoting dialogue between the two disciplines The resultant conversation is a brilliant and stirring analysis of common ground in scientific and theological inquiry Torrance discards a dualist separation for a unitary understanding of reality in which the invisible guides the interpretation of the visible as scientist and theologian alike adopt self critical openness and the auditive mode of inquiry in response to the pressing questions of their task Dr Torrance urges this unitary understanding of the intelligibility of the universe as a shared goal of science and theology His vision of a foundational convergence between them where the boundary points of contingent reality find their reference in the transcendent uncreated reality of the Word of God is breathtaking in beauty and scope The introduction by Dr W Jim Neidhardt physics professor at the New Jersey Institute of Technology provides a lucid summary of

key themes in Torrance's lifelong integrative work

**Mission & Culture: The Louis J. Luzbetak Lectures** Stephen B. Bevens, 2012

**Joining God in the Great Unraveling** Alan J. Roxburgh, 2021-05-06 The awareness that the churches shaped out of the European Reformations are in an advanced process of unraveling is becoming increasingly sensed by many This book proposes a way of addressing this unraveling based on the experiences and knowledge of people who have always had to struggle with the unraveling of their own communities and worlds It takes us outside the circular conversations of the Euro tribal churches into dialogue with people who have been marginalized to see how they have learned to reenter their formative stories to discover ways of remaking themselves in the unraveling The book then turns these discoveries into ways the churches can engage their own massive unraveling

**Loving to Know** Esther Lightcap Meek, 2011-06-01 Knowing is less about information and more about transformation less about comprehension and more about being apprehended This radical book develops the notion of covenant epistemology an innovative biblically compatible holistic embodied life shaping epistemological vision in which all knowing takes the shape of interpersonal covenantal relationship Rather than knowing in order to love we love in order to know Meek argues that all knowing is best understood as transformative encounter Creatively blending insights from a diverse range of conversation partners including Michael Polanyi Michael D Williams Lesslie Newbigin Parker Palmer John Macmurray Martin Buber and James Loder Meek offers critically needed epistemological therapy in response to the pervasive and damaging presumptions that those in Western culture continue to bring to efforts to know The book's innovative approach an unfolding journey of discovery through dialogue itself subverts standard epistemological presumptions of timeless linearity While it offers a sustained and sophisticated philosophical argument *Loving to Know's* texts and textures interweave loosely to effect therapeutic epistemic transformation in the reader

**Kant's Conception of Pedagogy** G. Felicitas Munzel, 2012-08-31 Although Kant was involved in the education debates of his time it is widely held that in his mature philosophical writings he remained silent on the subject In her groundbreaking *Kant's Conception of Pedagogy* G Felicitas Munzel finds extant in Kant's writings the so called missing critical treatise on education It appears in the *Doctrines of Method* with which he concludes each of his major works In it Kant identifies the fundamental principles for the cultivation of reason's judgment when it comes to cognition beauty nature and the exercise of morality while subject to the passions and inclinations that characterize the human

experience From her analysis Munzel extrapolates principles for a cosmopolitan education that parallels the structure of Kant's republican constitution for perpetual peace With the formal principles in place the argument concludes with a query of the material principles that would fulfill the formal conditions required for an education for freedom *Tacit Knowledge* Neil Gascoigne, Tim Thornton, 2014-09-03 Tacit knowledge is the form of implicit knowledge that we rely on for learning It is invoked in a wide range of intellectual inquiries from traditional academic subjects to more pragmatically orientated investigations into the nature and transmission of skills and expertise Notwithstanding its apparent pervasiveness the notion of tacit knowledge is a complex and puzzling one What is its status as knowledge What is its relation to explicit knowledge What does it mean to say that knowledge is tacit Can it be measured Recent years have seen a growing interest from philosophers in understanding the nature of tacit knowledge Philosophers of science have discussed its role in scientific problem solving philosophers of language have been concerned with the speaker's relation to grammatical theories and phenomenologists have attempted to describe the relation of explicit theoretical knowledge to a background understanding of matters that are taken for granted This book seeks to bring a unity to these diverse philosophical discussions by clarifying their conceptual underpinnings In addition the book advances a specific account of tacit knowledge that elucidates the importance of the concept for understanding the character of human cognition and demonstrates the relevance of the recommended account to those concerned with the communication of expertise The book will be of interest to philosophers of language epistemologists cognitive psychologists and students of theoretical linguistics *The Emergence of Globalism* Or Rosenboim, 2017-03-28 How competing visions of world order in the 1940s gave rise to the modern concept of globalism During and after the Second World War public intellectuals in Britain and the United States grappled with concerns about the future of democracy the prospects of liberty and the decline of the imperial system Without using the term globalization they identified a shift toward technological economic cultural and political interconnectedness and developed a globalist ideology to reflect this new postwar reality *The Emergence of Globalism* examines the competing visions of world order that shaped these debates and led to the development of globalism as a modern political concept Shedding critical light on this neglected chapter in the history of political thought Or Rosenboim describes how a transnational network of globalist thinkers emerged from the traumas of war and expatriation in the 1940s and how their ideas drew widely from political philosophy geopolitics economics imperial thought constitutional law theology and philosophy of science She presents compelling portraits of Raymond Aron Owen Lattimore Lionel Robbins Barbara Wootton Friedrich Hayek Lionel Curtis Richard McKeon Michael Polanyi Lewis Mumford Jacques Maritain Reinhold Niebuhr H G Wells and others Rosenboim shows how the globalist debate they embarked on sought to balance the tensions between a growing recognition of pluralism on the one hand and an appreciation of the unity of humankind on the other An engaging look at the ideas that have shaped today's world *The Emergence of Globalism* is a major work of intellectual history that is certain to fundamentally transform our

understanding of the globalist ideal and its origins

### **The Art of God and the Religions of Art** David

Thistlethwaite, 2008-04-01 The Art of God traces the progressive loss in the West of contact with or faith in a real created order and discusses the manifestations of this loss in fine art Making detailed reference to specific artists and works

Thistlethwaite shows how the diversity of our responses to modern art as well as that of previous centuries inescapably raises the question of truth This readable and thought provoking book breaks new ground as it links the pleasures of art to the dynamic character of God and asks what happens to creativity and to artists when the appreciation of God is absent It thus offers readers a fresh perspective from which to appreciate art FROM THE AUTHOR June 23 2009 All art historians must find a way of explaining the gap between the traditional art and modern Older art answered questions such as what was Henry VIII like The new is not so much about the world as about the breakdown in perceiving the world But some histories are still written as if art has followed a path of inevitable progress Others as if all beliefs that produce genuine art however weird are equally valid In my book I argue that modernism has produced a genuine art that grapples with perceived reality but that its real lack of content is disastrous When we see objects that are essentially blank or empty and start to find them significant and powerful we ought to be getting worried To explain this I have developed an account of art which sees it as a given and delightful form of knowing that equips us for living in God's world But when the art area becomes part of the human agenda for unbelief independence and defining ourselves in the cosmos it ceases to be a window on reality It starts to function as a totem replacing thought a sub human icon for humanity However towards the end of the book I focus on the dynamism of the living God and the transformative power of his grace that can turn any modern form however desolate into a vehicle of truth and meaning When modernism plunges into the depths of not knowing it can seldom go so far that real humanity and truth are not discovered in the unlikeliest places Forming Communities of Hope in the Great Unraveling

Alan J. Roxburgh, Roy Searle, 2025-05-08 In the midst of a massive unraveling where the churches find themselves disoriented and paralyzed this book invites leaders to embrace three practices formed out of God's engagements with God's people in Scripture and our traditions that direct us toward forming communities of hope
