Everyones Of Dogs:

People Training for Good Dogs Melissa Berryman, 2011-11 As a former animal officer Melissa Berryman witnessed every failure imaginable among dogs their owners and her community Drawing from these experiences and her knowledge of both human and canine behaviors Berryman created the People Training for Good Dogs program to help owners incorporate the canine point of view into dog owners handling skills Current understanding leads owners to believe that they must accept a passive role in the complex relationships they have with their dogs and their communities Berryman draws important contrasts between how we train horses and how we train dogs and she brings to light the consequences of expecting dogs to act and react as people do By offering insight into the importance of acknowledging and working with core canine social and behavioral drives Berryman provides owners with sound handling techniques Staying true to dogs instincts she offers a training method of positive and negative feedback that can dramatically improve any owner's level of control By speaking frankly about aggression and the very real potential for injury when dealing with a dog you can't communicate with she shares an accessible approach that anyone can use to defuse a potentially disastrous situation Written with humor and compassion People Training for Good Dogs will quickly show you how to use clear feedback in order to achieve off leash vocal control

The Art of Urban People With Adopted and Rescued Dogs Methodology Billie Groom, 2019-07-09 The Art of UPWARD Methodology is a reaction to the insanity that has taken over the dog world The Art of UPWARD Methodology clears our minds allowing us to see our urban world through the eyes of rescued dogs Billie Groom shares her knowledge acquired through hands on experience working and volunteering with dogs rescuers fosters and adopters spanning over three decades to change our perspective and increase our understanding of dogs over the age of six months We learn why the inherent limitations of positive training and the perceived need for dominance and alpha status has created a society saturated with gimmicks void of logic and struggling to meet the needs of rescued dogs The journey we take while reading this book introduces us to the fundamentals of UPWARD Methodology an approach to working with dogs that has changed the lives of thousands of rescued and adopted dogs and the people who are so desperately trying to help them The challenges faced as the rescue world explodes on a global level has been met with increased conformity and rules stifling our ability to address the individual needs of dogs To effectively help them we must first change our mind set and approach and in turn rediscover the simplicity and beauty in these acts of kindness

The Health Benefits of Dog Walking for Pets and People Rebecca A. Johnson, Alan M. Beck, 2011-06-30 Obesity is at epidemic levels worldwide In the U S alone it is estimated that by 2018 the cost of treating weight related illnesses will double to almost 350 billion a year A 2010 report by the U S Surgeon General estimates that two thirds of American adults and almost one in three children are now overweight or obese Similar statistics emphasize the staggering problem in other industrialized countries This volume originated in a special 2009 symposium funded in part by a grant from the Eunice Kennedy Shriver National Institute of Child Health and

Development NICHD and sponsorship from Mars WalthamTM on how human animal interaction may help fight obesity across the lifespan It provides systematic presentation of the scientific evidence for this powerful expression of the benefits of the human animal bond The volume will be especially valuable as a sourcebook of evidence based studies for public health professionals treating overweight humans and veterinarians treating obese dogs
