Louis MacNeice and the Irish Poetry of his Time Tom Walker, 2015-09-17 This study focuses on Louis MacNeice's creative and critical engagement with other Irish poets during his lifetime It draws on extensive archival research to uncover the previously unrecognised extent of the poet's contact with Irish literary mores and networks Poetic dialogues with contemporaries including F R Higgins John Hewitt W R Rodgers Austin Clarke Patrick Kavanagh John Montague and Richard Murphy are traced against the persistent rhetoric of cultural and geographical attachment at large in Irish poetry and criticism during the period These comparative readings are framed by accounts of MacNeice's complex relationship with the oeuvre of W B Yeats which forms a meta narrative to MacNeice's broader engagement with Irish poetry Yeats is shown to

have been MacNeice's contemporary in the 1930s reading and reacting to the younger poet's work just as MacNeice read and reacted to the older poet's work. But the ongoing challenge of the intellectual and formal complexity of Yeats's poetry also provided a means through which MacNeice across his whole career dialectically developed various modes through which to confront modernity's cultural, political and philosophical challenges. This book offers new and revisionary perspectives on MacNeice's work and its relationship to Ireland's literary traditions as well as making an innovative contribution to the history of Irish literature and anglophone poetry in the twentieth century. **Poetry Kaleidoscope** Nicolae

Sfetcu, 2014-05-12 Introduction in poetry nature of poetry tools history terms periods styles and movements technical means tropes measures of verse verse forms national poetry Poetry ancient Greek poieo I create is traditionally a written art form although there is also an ancient and modern poetry which relies mainly upon oral or pictorial representations in which human language is used for its aesthetic qualities in addition to or instead of its notional and semantic content. The increased emphasis on the aesthetics of language and the deliberate use of features such as repetition, meter and rhyme are what are commonly used to distinguish poetry from prose but debates over such distinctions still persist while the issue is confounded by such forms as prose poetry and poetic prose. Some modernists such as the Surrealists approach this problem of definition by defining poetry not as a literary genre within a set of genres but as the very manifestation of human imagination, the substance which all creative acts derive from. *The Poets and Poetry of Ireland, with Historical and Critical Essays and Notes* Alfred Mason Williams, 2024-04-25 Reprint of the original first published in 1881 *International Who's Who in Poetry 2005* Europa Publications, 2004 Provides up to date profiles on the careers of leading and emerging poets

Selected Poems Seán Ó Ríordáin, 2019-02-12 The first bilingual volume of poems by leading Irish twentieth century poet Seán Ó Ríordáin. In the mid twentieth century a new generation of poets writing in Irish emerged led by the young Seán Ó Ríordáin. Among others Ó Ríordáin's work has stood the test of time well and he continues to engage today's Irish readers and writers. This well rounded selection of poems brings most of Ó Ríordáin's works to English language readers for the first time. The poems appear in their original Irish alongside English translations by some of Ireland's leading poets. Also included for the first time in English is Ó Ríordáin's essay 'What Is Poetry' considered an extraordinary touchstone of critical insight for poets and literary commentators. The volume reflects Ó Ríordáin's seven main concerns: poetry and its place in the artist's life, the plural self, the relationship between the individual and society, gender relations, the nature of animals, Ireland, its language and culture, and mortality. *International Who's Who in Poetry 2004* Europa Publications, 2003 Provides up to date profiles on the careers of leading and emerging poets.
