Everything Japanese:

All-Japan : the Catalogue of Everything Japanese Dalby, Liza Crihfield, 1984 Intercultural Communication in Japan Satoshi Toyosaki, Shinsuke Eguchi, 2017-02-24 Japan is heterogeneous and culturally diverse both historically through ancient waves of immigration and in recent years due to its foreign relations and internationalization However Japan has socially culturally politically and intellectually constructed a distinct and homogeneous identity More recently this identity construction has been rightfully questioned and challenged by Japan's culturally diverse groups This book explores the discursive systems of cultural identities that regenerate the illusion of Japan as a homogeneous nation Contributors from a variety of disciplines and methodological approaches investigate the ways in which Japan's homogenizing discourses are challenged and modified by counter homogeneous message systems They examine the discursive push and pull between homogenizing and heterogenizing vectors found in domestic and transnational contexts and mobilized by various identity politics such as gender sexuality ethnicity foreign status nationality multiculturalism and internationalization After offering a careful and critical analysis the book calls for a complicating of Japan's homogenizing discourses in nuanced and contextual ways with an explicit goal of working towards a culturally diverse Japan Taking a critical intercultural communication perspective this book will be of interest to students and scholars of Japanese Studies Japanese Culture and Japanese Society

Hip-Hop Japan Ian Condry, 2006-11 An ethnographic study of Japanese hip hop *Japanese Style* Sunamita Lim, 2007 Illustrates how to connect with and incorporate Japanese design traditions into western homes Adept at compact living and masters of elegant simplicity the Japanese embody the principle of doing more with less Handbook of Asian Management Kwok Leung, Steven White, 2007-05-08 Our understanding of management in Asia has not kept pace with the demands of managers and students The Handbook of Asian Management provides in depth critical reviews of central topics in strategy and organizational behavior research in Asian contexts Leading scholars take stock of what has been learned and give clear directions towards greater rigor and relevance for research in this region **Constructing Japan** Beate

Loeffler, 2025-09-25 The influence of Japanese art and culture on art in late 19th century Europe and America through collections of objects and knowledge transfer is already recognised However the research in this field often neglects architecture This study takes a new approach placing architecture at the centre Through in depth analysis of contemporary textual and visual sources Beate Loeffler shows how western actors from different backgrounds interpreted Japanese architecture as they experienced it either face to face or via texts and images It unveils a complex process of appropriation and rejection of claim to interpretive sovereignty and fascination with the foreign that led to both new knowledge and cultural clichés Romancing the East Jerry Hopkins, 2013-03-26 Profiling individual legendary authors best selling author Jerry Hopkins combines his research and his own experiences as a longtime expatriate with an intimate knowledge of Asia and offers us a unique perspective on the impact of Eastern culture in Western literature From the time of Marco Polo's trek

across the Central Asian desert to the empire of the mighty Kahn no other place on earth not the languid South Pacific or even deepest darkest Africa has so challenged and enchanted the Western imagination as have the fabled lands of the East However soaked in blood its history and no matter how unsettling its social conditions and poverty Asia has never lost its irresistible attraction or mystic It has long been an inspiration for Western novelists so much so that more than 5000 novels have been set in Asia in the English language alone Storied names like Rudyard Kipling Joseph Conrad Pearl S Buck George Orwell Graham Greene E M Forster and many more have used their experiences in Asia as a vibrant backdrop for some of the world s most famous works of literature

The Growing Power of Japan, 1967-1972 Hugh Cortazzi,2025-10-01 John Pilcher s appointment as HM Ambassador to Japan in 1967 three years after the widely acclaimed Tokyo Olympics was both judicious and enlightened His role was to be that of a bridge builder between Japan and Britain following the early post war years of disenchantment distrust and detachment that had earlier marked the relationship between the two countries He brought to his role a particular understanding of Japanese civilization and a critical analysis of Japanese attitudes and way of life Before the war he had had the good fortune to spend time as a language student in Kyoto There he came to appreciate Japanese culture at its best but as a junior consular official he also came to see other less attractive aspects of Japan In this volume Sir Hugh Cortazzi who was to follow in John Pilcher s footsteps has compiled the defining reports to Whitehall from Pilcher s time and as such they offer a valuable record of Japan s progress at this important point in her post war history as well as providing unique insights into the activities hopes and expectations of the British government in her dealings with Japan The collection including essays and writings from his private papers which has hitherto remained largely unknown or inaccessible to most researchers provides a platform for John Pilcher as a writer and distinguished scholar diplomat

We the People Benjamin Railton,2019-07-31 We the People The Constitution begins with those deceptively simple words but how do Americans define that We In We the People Ben Railton argues that throughout our history two competing yet interconnected concepts have battled to define our national identity and community exclusionary and inclusive visions of who gets to be an American From the earliest moments of European contact with indigenous peoples through the Revolutionary period s debates on African American slavery 19th century conflicts over Indian Removal Mexican landowners and Chinese immigrants 20th century controversies around Filipino Americans and Japanese internment and 21st century fears of Muslim Americans time and again this defining battle has shaped our society and culture Carefully exploring and critically examining those histories and the key stories and figures they feature is vital to understanding America and to making sense of the Trump era when the battle over who is an American can be found in every significant debate and moment

Shocking Representation Adam Lowenstein,2005-12-22 In this imaginative new work Adam Lowenstein explores the ways in which a group of groundbreaking horror films engaged the haunting social conflicts left in the wake of World War II Hiroshima and the Vietnam War Lowenstein centers Shocking Representation around readings of films by Georges Franju Michael Powell

Shindo Kaneto Wes Craven and David Cronenberg He shows that through allegorical representations these directors films confronted and challenged comforting historical narratives and notions of national identity intended to soothe public anxieties in the aftermath of national traumas Borrowing elements from art cinema and the horror genre these directors disrupted the boundaries between high and low cinema Lowenstein contrasts their works often dismissed by contemporary critics with the films of acclaimed New Wave directors in France England Japan and the United States He argues that these New Wave films which were embraced as both art and national cinema often upheld conventional ideas of nation history gender and class questioned by the horror films By fusing film studies with the emerging field of trauma studies and drawing on the work of Walter Benjamin Adam Lowenstein offers a bold reassessment of the modern horror film and the idea of national cinema

are one and the same for the key lies in one's knowledge of people and life. In art one is trying to express it in the simplest imaginative way as in the art of past civilizations for beauty and truth are the only two things which live timeless and ageless.

Min Okubo This is the first book length critical examination of the life and work of Min Okubo 1912-2001 a pioneering Nisei artist, writer and social activist who repeatedly defied conventional role expectations for women and for Japanese Americans over her seventy year career. Okubo's landmark *Citizen 13660* first published in 1946 is the first and arguably best known autobiographical narrative of the wartime Japanese American relocation and confinement experience. Born in Riverside California Okubo was incarcerated by the U.S. government during World War II first at the Tanforan Assembly Center in California and later at the Topaz War Relocation Center in Utah. There she taught art and directed the production of a literary and art magazine. While in camp Okubo documented her confinement experience by making hundreds of paintings and pen and ink sketches. These provided the material for *Citizen 13660*. Word of her talent spread to *Fortune* magazine which hired her as an illustrator. Under the magazine's auspices she was able to leave the camp and relocate to New York City where she pursued her art over the next half century. This lovely and inviting book lavishly illustrated with both color and halftone images many of which have never before been reproduced introduces readers to Okubo's oeuvre through a selection of her paintings, drawings, illustrations and writings from different periods of her life. In addition it contains tributes and essays on Okubo's career and legacy by specialists in the fields of art history, education, women's studies, literature, American political history and ethnic studies, essays that illuminate the importance of her contributions to American arts and letters. Min Okubo expands the sparse critical literature on Asian American women as well as that on the Asian American experience in the eastern United States. It also serves as an excellent companion to *Citizen 13660* providing critical tools and background to place Okubo's work in its historical and literary contexts.

Yogaku Luciana Galliano, 2002-11-19 This book introduces us to the world of contemporary Japanese music and it guides us towards a better understanding of their world. Luciano Berio's *Yogaku* discusses over a century of musical activity in Japan detailing in particular the music that was inspired by Western music after the Meiji Restoration in the 19th century and its development through the end of the 20th century. The book not only examines the infiltration of Western music into Japan but also provides insight into the aesthetic and theoretical aspects of Japanese musical thought. The word *yogaku* (Western music) is made up of two characters *yo* which means ocean that is over the ocean meaning Western or foreign and *gaku* which means music. Divided into two parts the text covers the period preceding World War I as well as the post war period. The introduction provides a history of music's role in Japanese society touching upon the differences in the functions of Japanese and Western music. Part One describes the complex process of a new musical world and the European musical ideas that penetrated Japan. Modernization through westernization is explored. The author details the differences between the traditional Japanese music and that composed under Western influence as well as the French and German impact on Japanese musical compositions. Galliano looks at the appearance of music in schools and

the first Japanese musical compositions as well as nationalism's effect on music through propaganda and censorship Part Two explores topics such as the post war avant garde the 1960s boom in traditional music and the closing decades of the 20th century The next generation of Japanese composers are also considered Japanese history and music scholars as well as those interested in Japanese music will want to include *Yogaku* in their collection *Korean Film and History* Hyunseon Lee, 2023-09-15 Cinema has become a battleground upon which history is made a major mass medium of the twentieth century dealing with history The re enactments of historical events in film straddle reality and fantasy documentary and fiction representation and performance entertainment and education This interdisciplinary book examines the relationship between film and history and the links between historical research and filmic representations of history with special reference to South Korean cinema As with all national film industries Korean cinema functions as a medium of inventing national history and identity and also establishing their legitimacy in both forgetting the past and remembering history Korean films also play a part in forging cultural collective memory Korea as a colonised and divided nation clearly adopted different approaches to the filmic depiction of history compared to colonial powers such as Western or Japanese cinema The Colonial Period 1910 1945 and Korean War 1950 1953 draw particular attention as they have been major topics shaping the narrative of nation in North and South Korean films Exploring the changing modes impacts and functions of screen images dealing with history in Korean cinema this book will be of huge interest to students and scholars of Korean history film media and cultural studies
