If You Can Count to Four - How to Get Everything You Want Out of Life! James Breckenridge Jones, 2016-02-20

How To Get Everything You Want Out Of Life There are basic laws in this universe that will work for you if you know how to apply them They work for anyone who knows they exist and how to use them The law of electricity works for all of us We can burn your house down with electricity or you can light your home with it You don t have to be a genius to do it A child three years old can push a button and turn the lights on Millions of people have been taught to believe that the rules of success are indeed so very difficult and complicated that surely they could never learn them I found out that anyone can be genuinely successful if he will learn the exact same rules that the successful people learned and use them Scroll up to get your copy now *The Iconic Works of U.
