Against Ambience and Other Essays Seth Kim-Cohen, 2016-03-10 Against Ambience diagnoses in order to cure the art world's recent turn toward ambience Over the course of three short months June to September 2013 the four most prestigious museums in New York indulged the ambience of sound and light James Turrell at the Guggenheim Soundings at MoMA Robert Irwin at the Whitney and Janet Cardiff at the Met In addition two notable shows at smaller galleries indicate that this is not simply a major donor movement Collectively these shows constitute a proposal about what we wanted from art in 2013 While we're in the soft embrace of light the NSA

and Facebook are still collecting our data the money in our bank accounts is still being used to fund who knows what without our knowledge or consent the government we elected is still imprisoning and targeting people with whom we have no beef We deserve an art that is the equal of our information age Not one that parrots the age s self assertions or modes of dissemination but an art that is hyper aware vigilant active engaged and informed We are now one hundred years clear of Duchamp s first readymades So why should we find ourselves so thoroughly in thrall to ambience Against Ambience argues for an art that acknowledges its own methods and intentions its own position in the structures of cultural power and persuasion Rather than the warm glow of light or the soothing wash of sound Against Ambience proposes an art that cracks the surface of our prevailing patterns of encounter initiating productive disruptions and deconstructions *Marketing and Sales Automation* Uwe Hannig,Uwe Seebacher,2023-05-02 This book clarifies based on latest findings and research what one needs to know about marketing and sales automation how to manage projects to implement them select and implement tools and what results can be achieved It also outlines what can be expected in the future such as the automation of corporate communication and Human Resources The range of topics spans from the creation of a valid data base in the context of applied AI for realizing predictive intelligence and the effects of data regulations such as the European General Data Protection Regulation GDPR when addressing customers and prospects to recommendations for selecting and implementing the necessary IT systems Experts also report on their experiences in regard to Conversion rate optimization CRO and provide tips and assistance on how to optimize and ensure the highest RoI for marketing and sales automation A special focus will be placed on the dovetailing of marketing and sales and the management of the customer journey as well as the improvement of the customer experience
