IV Higher Order Workshop, Banff 1990 Graham Birtwistle,2012-12-06 It is many years since Landin Burge and others showed us how to apply higher order techniques and thus laid some foundations for modern functional programming The advantage of higher order descriptions that they can be very succinct and clear has been percolating through ever since Current research topics range from the design implementation and use of higher order proof assistants and theorem provers through program specification and verification and programming language design to its applications in hardware description and verification The papers in this book represent the presentations made at a workshop held at Banff Canada September 10 14 1990 and organised by the Computer Science Department of the University of Calgary The workshop gathered together researchers interested in applying higher order techniques to a range of problems The workshop format had a few but fairly long presentations per day This left ample time for healthy discussion and argument many of which continued on into the small hours With so much to choose from the program had to be selective This year s workshop was divided into five parts 1 Expressing and reasoning about concurrency Warren Burton and Ken Jackson John

Hughes and Faron Moller 2 Reasoning about synchronous circuits Geraint Jones and Mary Sheeran with a bonus on the fast Fourier transform from Geraint 3 Reasoning about asynchronous circuits Albert Camilleri Jo Ebergen and Martin Rem 4

Categorical concepts for programming languages Robin Cockett Barry Jay and Andy Pitts **Women of Spirit** Rosemary Radford Ruether, Eleanor McLaughlin, 1998-04-29 A compilation of essays on the role of women in the institutional and ordained leadership of Western religion The authors discuss religious women as charismatic leaders holy women martyrs dissenters renewers and reformers as well as theological images of the feminine in God the Christ Church relationship and the self The studies are historical and descriptive both from the early church to the present day **Annual Report of the Pennsylvania Board of Agriculture for the Year ...** Pennsylvania. State Board of Agriculture, 1889 **Agriculture of Pennsylvania** Pennsylvania. State Board of Agriculture, 1889 **Representations of Eve in Antiquity and the English Middle Ages** John Flood, 2010-12-14 As the first woman Eve was the pattern for all her daughters The importance of readings of Eve for understanding how women were viewed at various times is a critical commonplace but one which has been only narrowly investigated This book systematically explores the different ways in which Eve was understood by Christians in antiquity and in the English Middle Ages and it relates these understandings to female social roles The result is an Eve more various than she is often depicted by scholars Beginning with material from the bible the Church Fathers and Jewish sources the book goes on to look at a broad selection of medieval writing including theological works and literary texts in Old and Middle English In addition to dealing with famous authors such as Augustine Aquinas Dante and Chaucer the writings of authors who are now less well known but who were influential in their time are explored The book allows readers to trace the continuities and discontinuities in the way Eve was portrayed over a millennium and a half and as such it is of interest to those interested in women or the bible in the Middle Ages **Creatively Expanding the Premodern** Carole Levin, Marguerite A. Tassi, Christine Stewart-Nuñez, Julia Griffin, 2025-10-27 This book highlights the stories of women from premodern history and literature through models of adaptations retellings and criticism such as poems plays and essays Reviving these voices from the background widens the appeal and accessibility of scholarship in the humanities Creative composing processes draw research through the imagination and experience of the writer This act can help explore qualities of historical events and literary figures that are still relevant today The four authors of this book demonstrate these approaches through creative adaptations and responses to Biblical and Classical writings Greek mythological figures medieval narratives powerful historical women plays by Shakespeare and works by other early modern English writers What distinguishes this book from other scholarship on the premodern is its collaborative and interdisciplinary foundation as well as its emphasis on literary and hybrid genres Offering interdisciplinary ways of reading thinking about and reconceiving literature and scholarship in a way that invites dialogue and further creative responses this volume provides humanities teachers with effective pedagogical tools to inspire deeper engagement and understanding in their students *Three*
