Eve's New Rib: Twenty-faces of Sex, Marriage, and Family Robert T. Francoeur, 1972 Eve's New Rib: Twenty-faces of Sex, Marriage, and Family Robert T. Francoeur, 1972 *The Publishers Weekly*, 1972 **Border Sexualities, Border Families in Schools** Maria Pallotta-Chiarolli, 2010-05-16 The first book of its kind internationally Border Sexualities Border Families in Schools explores the experiences of bisexual students mixed sexual orientation families and polyamorous families in schools For the first time a book foregrounds the voices and experiences of these students and families who are falling into the gaps or on the borders of a school's gay straight divide in anti homophobia policies and programs and schools recognizing families as meaning either heterosexual couples or increasingly homosexual couples Drawing from interviews and online research with students parents and teachers as well as providing a comprehensive overview and analysis of international educational and health research and media popular cultural texts this book addresses the following what are the problematic and or empowering experiences and strategies of bisexual students multisexual and polyamorous families in educational systems what could schools be doing to promote healthy sexual emotional and social relationships for bisexual students and multisexual polyamorous families in school communities what recommendations implementations do bisexual students and multisexual polyamorous families suggest in regard to school curriculum school policies and student welfare in order to acknowledge and support family diversity in school communities In particular the research findings which are reported in this book show that border sexualities and border families use three types of strategies passing or normalization and assimilation in school settings bordering or negotiation and navigation between the private world of home and public world of school and polluting or non compliance and resistance thereby outing their sexualities and families within the school world Within a social deconstructionist multicultural post colonial feminist queer theoretical framework this book spans health education sociology psychology gender family sexuality and cultural studies

Sexuality in America Robert T. Francoeur, Patricia Koch, David Weis, 1999-08-01 Now available in a new paperback edition this survey is different in both breadth and scope from all other reports on sexuality in the United States It covers every topic imaginable from a multicultural point of view in order to reflect fully the complex society in which we live the biological psychological social and spiritual aspects of our sexual lives **The Single Parent**, 1973 **Writers Directory** NA, 2016-03-05 *Health Care Ethics* Benedict M. Ashley, Kevin D. O'Rourke, 1982 Modern medicine has unprecedented power to heal human beings of physical and mental disease to keep them health and even to improve the human race This power can be used to humanize life or to dehumanize and destroy it It can be used justly to benefit all or it can be used to benefit the few at the expense of the many How to use such power is a question of values and therefore of individual and group decisions which are not merely technical but ethical Two reasons have induced us to add to the already extensive literature on medical ethical and bioethical topics First too much of this literature focuses on a few controversial but

sometimes minor topics while neglecting the broader and major issues affecting human health and the health care professions Second we want to assist Christian and especially Catholic health care professionals and health care facilities faced with the difficult and often puzzling responsibility of giving witness to a long tradition of humanistic health care while working with other professionals and government agencies committed to diverse value systems from Introduction
