**Evidence Law Adrift** Mirjan Damaska, 2013-09-01 In this important book a distinguished legal scholar examines how the legal culture and institutions in Anglo American countries affect the way in which evidence is gathered sifted and presented to the courts Mirjan Damaska focuses on the significance of the divided tribunal between judge and jury the concentrated character of trials day in court justice and the prominent role of the parties in adjudication the adversary system Throughout he contrasts the Anglo American system with Continental or civil law justice where lay fact finders sit with professional judges in unified tribunals proceedings are episodic rather than concentrated and the parties have fewer responsibilities than in the common law tradition Damaska describes the impact of the traditional institutional environment on the gathering and handling of evidence in common law jurisdictions and then explores recent transformations of this environment trial by jury has dramatically declined pretrial proceedings have greatly proliferated the adversary system shows signs of weakening in some types of cases As a result many rules and practices supporting the treatment of evidentiary material are in danger of becoming extinct In addition says Damaska the increasing use of scientific methods of inquiry could place further strains on the use of traditional common law evidence In the future we should expect greater variety in decisionmaking activity with factual inquiries tailored to the specific type of proceeding and common law evidence restricted to a narrow sphere

**More Than 'just' Evidence** Nora V. Demleitner,1999 *Principles of Evidence in International Criminal Justice* Karim A. A. Khan,Caroline Buisman,Christopher Gosnell,2010 *Principles of Evidence in International Criminal Justice* provides an overview of the procedure and practice concerning the admission and evaluation of evidence before the international criminal tribunals The book is both descriptive and critical and its emphasis is on day to day practice drawing on the experience of the Yugoslavia Rwanda and Sierra Leone Tribunals This book is an attempt to define and explain the core principles and rules that have developed at those ad hoc Tribunals the rationale and origin of those rules and to assess the suitability of those rules in the particular context of the International Criminal Court which is still at its early stages The ICC differs in structure from the ad hoc Tribunals and approaches the legal issues it has to resolve differently from its predecessors The ICC is however confronted with many of the same questions The book examines the differences between the ad hoc Tribunals and the ICC and seeks to offer insights as to how and in which circumstances the principles established over years of practice at the ICTY ICTR and SCSL may serve as guidance to the ICC practitioners of today and the future The contributors represent a cross section of the practising international criminal bar drawn from the ranks of the Bench the Prosecution and the Defence and bringing with them different legal domestic cultures Their mixed background underlines the recurring theme in this book which is the manner in which a legal culture has gradually taken shape in the international Tribunals drawing on the various traditions and experiences of its participants **The Exclusionary Rule of Evidence**
