Evil and World Order William Irwin Thompson,1977 **Peace and World Order Studies** Barbara J. Wien,1978-01-01

Crisis Theory and World Order Norman K. Swazo,2012-02-01 In a call to planetary thinking planetary building and planetary dwelling Norman K Swazo discusses Heidegger s thought as it relates to issues of global politics specifically the domain of world order studies In the first division of the book Swazo provides a theoretical critique of world order studies understood in the two modes of normative and technocratic futurism The book s second division includes a preliminary attempt to clarify what Heidegger s call for essential thinking entails for political thinking This signifies a new beginning for political discourse heralded in the possibility of essential political thinking that Swazo calls autarchology **Toward A Just World Order** Richard Falk,2019-03-22 This text is designed to provide students with a solid theoretical and methodological base for understanding how the present international system works how that system is likely to evolve given current world trends and what realistically can be done to alleviate the most serious global problems Part 1 develops a world order perspective by examin **The Phenomenon of Teilhard** David H. Lane,1996 New Age writer of the popular Aquarian Conspiracy Marilyn Ferguson observed that many of the leading lights of the New Age movement claim Teilhard as one of the most influential persons in their lives Other influences acknowledged include C G Jung Aldous Huxley Swami Muktananda Thomas Merton Werner Erhard and Maharishi Yogi Indeed of the 185 New Age leaders surveyed Teilhard was the most frequently mentioned of any person who had most influenced their thinking If this is the case then if we are to understand the New Age movement properly it behooves us to take a careful and critical look at Teilhard de Chardin David Lane has done precisely this in a clear well documented and penetrating way In this crucial book David Lane lays bare the philosophical theological and scientific failures of Teilhard s New Age enterprise In a highly documented and insightful scrutiny of Teilhard s cosmic evolution Lane unveils the apostate Christian roots of one of the most important forerunners of the New Age movement This is one of the most significant and serious treatments of the modern roots of the New Age in print **The Pentagon Wars** James G Burton,2014-02-15 From the late 1960s through the mid 1980s a small band of military activists waged war against corruption in the Pentagon challenging a system they believed squandered the public s money and trust The book examines the movement and its proponents and describes how the system responded to the criticisms and efforts to change accepted practices and entrenched ways of thinking The author an air force colonel and part of the movement worked in the pentagon for fourteen years He presents a view of the Department of Defense that only an insider could offer He exposes serious flaws in the military policy making process particularly in weapons development and procurement The details he gives on the unrelenting push for high tech weapons despite their ineffectiveness and extraordinary cost overruns provide a strong case for the charge of ethical bankruptcy The second half of the book deals with the author s attempts to get frontline equipment tested under combat conditions For the first time readers learn the nasty

details of his battle with the army over line fire testing of the Bradley Fighting Vehicle a battle that he eventually won leading to the personnel carrier's redesign and the saving of many lives Never reluctant to name names and reveal details James G Burton presents a forceful case And his revelations offer insights not found elsewhere into the motivations and actions of the people who wield power from within Nor does he stop at the walls of the Pentagon In his epilogue he tells what happened in the field during the final hours of the Gulf War that allowed Hussein's elite Republican Guard to escape Now back in print after having inspired a feature HBO film this explosive account of insider corruption is sure to serve policy makers for generations to come

Rumors of Another World Philip Yancey, 2003 Yancey investigates the natural world and discovers the supernatural hiding in plain view He grapples with why God made the world and what our role truly is and seeks to answer the question How does one live in the natural world while expressing the values of the supernatural Christian A Skeptic's Guide to Faith Philip Yancey, 2009 For those on the borderlands of belief Philip Yancey confronts questions of faith and religion head on If this is God's world why doesn't it look more like it For anyone who's ever wondered if the visible world is all there is for anyone who feels like an empirical understanding of reality is missing something bestselling author and fellow pilgrim Philip Yancey comes beside you to explore this tug between the visible and the invisible In the gentle understanding voice of one who's been through skepticism Yancey investigates questions like What is the good life Do my deepest experiences of beauty and pain have meaning Is there life after death If God does exist why does this world seem to be coming apart at the seams Does faith make any difference in my daily life A Skeptic's Guide to Faith previously titled Rumors of Another World reads like a conversation inviting those skeptical of religion and turned off by the church to consider the possibility of an unseen world coexisting with our visible world According to Yancey A thin membrane of belief separates the natural from the supernatural What makes it so hard for some of us to cross that membrane Look inside to find out In this powerful read Yancey tackles the tough questions and in the process comes up with a fresh new approach to this timeless topic

A Systems-Based Approach to Policymaking Kenyon B. de Greene, 2012-12-06 This book is based on a number of systems concepts of which the following are emphasized here

- oThe interacting systems of society and the environment are dynamic and evolutionary
- oEvolution of these systems carries them through stages of differential stability and instability continuity and discontinuity
- oAssociated with evolution and instability is structural change that is essentially irreversible
- oThe present is a stage of world transformation that may not have been equaled for decades or even centuries
- oPolicies and decisions must match the times in the present case the stage of world transformation

Science, Strategy and War Frans P.B. Osinga, 2007-01-24 John Boyd is often known exclusively for the so called OODA loop model he developed This model refers to a decision making process and to the idea that military victory goes to the side that can complete the cycle from observation to action the fastest This book aims to redress this state of affairs and re examines John Boyd's original contribution to strategic theory By highlighting diverse sources that shaped Boyd's thinking and by offering a comprehensive overview of Boyd's work this volume demonstrates that the common interpretation of the meaning of Boyd's OODA loop concept is incomplete It also shows that Boyd's work is much more

comprehensive richer and deeper than is generally thought With his ideas featuring in the literature on Network Centric Warfare a key element of the US and NATO s so called military transformation programmes as well as in the debate on Fourth Generation Warfare Boyd continues to exert a strong influence on Western military thinking Dr Osinga demonstrates how Boyd s work can helps us to understand the new strategic threats in the post 9 11 world and establishes why John Boyd should be regarded as one of the most important post modern strategic theorists

Migrants from the Promised Land Zvi Sobel, In December 1983 Israeli radio and television blitzed the nation with programming on yerida emigration from Israel So much attention has been given to emigration that the casual observer might think it is the central threat to Israeli society Demographics show that it is not but emotions continue to run high on the subject In Migrants from the Promised Land Zvi Sobel explores the reasons for emigration from contemporary Israel within the context of a far ranging critical assessment of Israeli society and the Zionist enterprise He asks why in light of near devastating challenges to the survival of Israel does emigration assume such overwhelming importance among both elites and masses His analysis is based on intensive interviews with hundreds of people preparing to leave Israel and a thorough examination of all

relevant demographics *Rambo and the Dalai Lama* Gordon Fellman,1998-07-10 Rambo and the Dalai Lama suggests that the assumption that human life is based on conflicts of interest wars and the opposition of people to each other and to nature exists as a paradigm that supplies meaning and orientation to the world An alternative paradigm sees cooperation caring nurturing and loving as equally viable ways of organizing relationships of humans to each other and to nature Fellman sees this shifting emphasis from adversarialism to mutuality as essential to the survival of our species and nature itself *The Dynamics of Interdependence* Andrew M. Scott,2018-06-15 Scott makes an informed case for a global perspective on world politics and a compelling plea for policies that will improve chances for human survival Because important evolutionary processes particularly interdependence and technological advance shape the global system he argues that concepts used to study these processes must also have an evolutionary component Without that we will not be able to understand or manage our highly interactive world Originally published in 1982 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
