Debating Self-Knowledge Anthony Brueckner, Gary Ebbs, 2012-06-21 Language users ordinarily suppose that they know what thoughts their own utterances express We can call this supposed knowledge minimal self knowledge But what does it come to And do we actually have it Anti individualism implies that the thoughts which a person s utterances express are partly determined by facts about their social and physical environments If anti individualism is true then there are some apparently coherent sceptical hypotheses that conflict with our supposition that we have minimal self knowledge In this book Anthony Brueckner and Gary Ebbs debate how to characterize this problem and develop opposing views of what it shows Their discussion is the only sustained in depth debate about anti individualism scepticism and knowledge of one s own thoughts and will interest both scholars and graduate students in philosophy of language philosophy of mind and epistemology *Epistemological Disjunctivism* Duncan Pritchard, 2012-09-06 Duncan Pritchard offers an account of perceptual knowledge arguing that it is paradigmatically constituted by true belief that enjoys rational support which is reflectively accessible to the agent This resolves the issue between internalism and externalism and poses a radical challenge to contemporary epistemology **Derrida and Deconstruction** Hugh J. Silverman, 2004-01-14 The effects of

Derrida's writings have been widespread in literary circles where they have transformed current work in literary theory. By contrast, Derrida's philosophical writings, which deal with the whole range of western thought from Plato to Foucault, have not received adequate attention by philosophers. Organized around Derrida's readings of major figures in the history of philosophy, *Derrida and Deconstruction* focuses on and assesses his specifically philosophical contribution. Contemporary continental philosophers assess Derrida's account of philosophical tradition, with each contributor providing a critical study of Derrida's position on a philosopher she or he has already studied in depth. These figures include Plato, Meister Eckhart, Descartes, Kant, Hegel, Nietzsche, Freud, Husserl, Heidegger, Sartre, and Foucault. *Foucault Now* James Faubion, 2014-02-27

Michel Foucault is recognized as one of the twentieth century's most influential thinkers; however, the authors in this volume contend that more use can be made of Foucault than has yet been done, and that some of the uses to which Foucault has so far been put run the risk of, and occasionally simply amount to, misuse. This interdisciplinary volume brings together a group of esteemed scholars recognized for their command of, and insights into, Foucault's oeuvre. They demonstrate the many respects in which Foucault's project of an ontology of the present remains vital and continues to yield compelling insights, and show that an ontology of the present is restricted to no particular terrain but instead ranges widely and on paths that frequently intersect. The essays in this much needed new collection address the key components of Foucault's thought, ranging from his approach to power, biopolitics, and parrhesia to analysis of key texts such as *Folie et D raison* and *Histoire de la sexualité*. This collection will spark debate amongst students and scholars alike and demonstrates that every further encounter with Foucault's corpus is more likely than not to demand a revisiting of interpretations already formulated. Contributors include Didier Eribon, Eric Fassin, John Forrester, Ian Hacking, Lynne Huffer, Colin Koopman, James Laidlaw, Laurence McFall, Mariella Pandolfi, Paul Rabinow, and Cary Wolfe. *The*

*Character of Consciousness* David J. Chalmers, 2010-10-28 In this book, David Chalmers follows up and extends his thoughts and arguments on the nature of consciousness that he first set forth in his groundbreaking 1996 book *The Conscious Mind*.

**Philosophers Explore The Matrix** Christopher Grau, 2005 Analytic philosophers present their thoughts on the motion picture *The Matrix*, the philosophical questions that it provokes. The articles are written in an accessible style.

**Science Fiction and Philosophy** Susan Schneider, 2010-06-03 A timely volume that uses science fiction as a springboard to meaningful philosophical discussions, especially at points of contact between science fiction and new scientific developments. Raises questions and examines timely themes concerning the nature of the mind, time travel, artificial intelligence, neural enhancement, free will, the nature of persons, transhumanism, virtual reality, and neuroethics. Draws on a broad range of books, films, and television series, including *The Matrix*, *Star Trek*, *Blade Runner*, *Frankenstein*, *Brave New World*, *The Time Machine*, and *Back to the Future*. Considers the classic philosophical puzzles that appeal to the general reader while also exploring new topics of interest to the more seasoned academic.

**Reading Descartes Otherwise: Blind, Mad,**

**Dreamy, and Bad** Kyoo Lee, 2013 This title casts light on what have heretofore been the phenomenological shadows of Cartesian rationality In doing so it discovers dynamic signs of spectral alterity lodged both at the core and on the edges of modern Cartesian subjectivity Calling for a Copernican reorientation of the very notion Cartesianism the book's series of close creatively critical readings of Descartes signature images brings the dramatic forces moments and scenes of the cogito into our own contemporary moment

**The Cinema of Terry Gilliam** Jeff Birkenstein, Anna Froula, Karen Randell, 2013-04-23 Terry Gilliam has been making movies for more than forty years and this volume analyzes a selection of his thrilling directorial work from his early films with Monty Python to *The Imaginarium of Doctor Parnassus* 2009 The frenetic genius auteur and social critic continues to create indelible images on screen if that is he can get funding for his next project Featuring eleven original essays from an international group of scholars this collection argues that when Gilliam makes a movie he goes to war against Hollywood caution and convention against American hyper consumerism and imperial militarism against narrative vapidty and spoon fed mediocrity and against the brutalizing notion and cruel vision of the American Dream

**Philosophical Essays** O. K. Bouwsma, 1965-01-01 The essays in this collection are not confined to any one period or any one subject Nearly every one in the author's words is an attempt to understand some short passage from the work of some philosopher teasing the passage with analogies of sense If one were to describe the method as Descartes described his method the method of doubt perhaps it might best be described as the method of failure

**The Failure of Modernism** Brendan Sweetman, 1999 The contributors to *The Failure of Modernism* are influenced by the view that modernism has failed and most of the essays attempt to critique specific features of modernism often from a more traditional perspective

Modernism in philosophy is characterized by skepticism and anti realism in epistemology and by relativism in ethics and politics

*On Modern Origins* Richard Kennington, 2004-01-01 Richard Kennington 1921 1999 a professor for many years at Pennsylvania State University and the Catholic University of America was renowned for his insight in reading and teaching early modern philosophy Although he published articles and spoke widely never before have his writings been collected in a book *On Modern Origins* deftly shows how modern thinkers assessed the errors of the classical tradition and established in its place a philosophy that fuses a new meaning of nature and of theory with humanitarian goals This volume is an essential source for scholars seeking to understand the contemporary significance of the dawning of the modern era
