Consciousness Huub Klinkenberg,2015-10-20 Billions of years ago the mind separated from The Source During this separation the soul came into existence But why Consciousness details the history of man and which states of consciousness human beings have gone through in their

evolution and what is still ahead The time between our lives on Earth is explained and the author elaborates on questions like What does being born and dying actually mean How do they pertain to karma and the life plan And how does the energy system of chakras and aura work *Evolution of Consciousness* Robert Evan Ornstein,1992-11 Based on his life s research Robert Ornstein provides a look at the evolution of the mind He explains that we are not rational but adaptive and that it is Darwin not Freud who is the central scientist of the brain Our minds have evolved to help us survive not to reason At the same time our individual worlds have developed our minds and destroyed many of our natural abilities *God 4.0* Robert Ornstein,Sally M Ornstein,2021-10-15 A provocative new view of God centers on our innate quiescent faculty that if developed can help to dissolve religious tribal and cultural biases and usher in a higher level of conscious connection a new spiritual literacy *Conscious Evolution* Barbara Marx Hubbard,2015-01-27 A Seminal Work of Visionary Hope Updated for the 21st Century In this era of government gridlock economic and ecological devastation and seemingly intractable global violence our future is ever more ripe for and in need of fresh creative reimagining With her clear eyed inspiring and sweeping vision of a possible global renaissance in the new millennium Barbara Marx Hubbard shows us that our current crises are not the precursors of an apocalypse but the natural birth pains of an awakened universal humanity This is our finest hour Conscious Evolution highlights the tremendous potential of newfound scientific knowledge technological advances and compassionate spirituality and illustrates the opportunities that each of us has to fully participate in this exciting stage of human history As we do we will bring forth all that is within us and not only save ourselves but evolve our world **Evolutionary Intelligence** Rolf W. Frohlich,2009-04 Human nature holds the intelligence of life It provides a psychology that is much stronger more effective and more reliable than the psychology society teaches us This psychology taps into the evolutionary survival experience of our species which occupied most of human history It was the period when the species evolved and our ancestor survived as a hunter and gatherer More than 99% of human history is encoded in the DNA of our genes and lastingly etched into the human psyche Our natural psychology the human psyche is the result of evolutionary adaptation The psyche provides the genetic capacity for behavioral mental and spiritual adaptation It supports the gratification of our needs And it contains the blueprint of human life The book is about human nature and human survival Human nature that is the human psyche has survival value The book introduces a metapsychology that refers to the Jungian archetypes and the survival capabilities inherent in the psyche Like all living organisms and forms of life we possess an innate capacity for survival By awakening this evolutionary intelligence we gain access to the primordial power and wisdom of the archetypal psyche This innate psychology transcends the cultural conditioning that has shaped us all and erects an entirely different reference system making us look at life in a new way We live in a world that reflects human nature and we are well equipped to survive in it Beyond that there is also something in us that resonates with a larger context Our psychological constitution relates us to the outer realities of nature and cosmos It is in this sense that we partake in the

evolution of life on this planet and in the larger design of a cosmic universe This primary psyche is shared by all humanity as part of a common biological and psychological history
