**Management Education in Canada** Kristin S. Williams, Albert J Mills, Heidi Weigand, 2025-05-23 Management Education in Canada Historical Reflections offers a fresh and critical look at the evolution of management education in Canada Nearly 25 years after the seminal work Capitalizing Knowledge by Barbara Austin this edited collection revisits and expands upon the debates that shaped the field while introducing new perspectives and overlooked histories Featuring ten scholarly essays from leading academics this volume explores a range of critical and historiographic approaches to management education highlighting the ways in which history is written privileged and at times neglected Through a variety of themes including the gendered experiences of female Ph D graduates Africentric and Indigenous leadership approaches and the role of globalization in shaping management curricula the book prompts readers to reflect on the past present and future of management education in Canada Chapters cover topics such as the influence of the Administrative Sciences Association of Canada the underrepresentation of French language business education and the critical interrogation of management textbooks Together these chapters offer a rich and comprehensive analysis of the cultural institutional and intellectual forces shaping the discipline This volume will engage scholars educators and students in business schools faculties of management and those interested in the broader history of higher education as well as anyone seeking to understand the historical development of management education in Canada It is an essential contribution to the ongoing conversation about what management education has been and what it could become

**Promises Fulfilled and Unfulfilled in Management Education** B. L. Thomas, Alexander Wilson, Howard Thomas, 2013-01-21 This is the first of two volumes written to celebrate the 40th Anniversary of EFMD Through an open ended interview research process it seeks to explore the perspectives and views of a wide range of experts drawn not only from the European environment but also from the United States and other global players in the management education field

**A History of Management Thought** Morgen Witzel, 2016-12-16 Of all the sciences and social sciences management is the one that most deliberately turns its back on the past Yet management as we know it today did not spring into life fully formed Management has more than just a present it also has a past and a future and all three are inextricably linked This book charts the evolution of management as an intellectual discipline from ancient times to the present day Contemporary management challenges including sustainability technology and data and legitimacy are analysed through an historical lens and with the benefit of new case studies The author helps readers understand how the evolution of management ideas has interacted with changes in society By framing management's history as one of challenge and response this new edition is the perfect accompaniment for

students and scholars seeking meaningful study in the business school and beyond Essential reading as a core textbook in management history the book is also valuable supplementary reading across the humanities and social sciences The Future of Management Education Martin R. Fellenz, Sabine Hoidn, Mairead Brady, 2022-04-07 To remain relevant management education must reflect the realities that influence its subject matter management while at the same time addressing societal needs and expectations Faced by powerful drivers of change many of which are amplified by the immense turbulence caused by the COVID 19 pandemic in early 2020 an assessment of where management education stands and where it is going is timely This book brings together management education scholars practitioners and stakeholders to identify trends and to critically analyse key challenges from their respective perspectives They consider the requirements for providing relevant management education in the future and explore changes and opportunities around themes such as responsibility sustainability innovation competitive strategy and technological change The different perspectives of the authors contribute distinct insights and form a fascinating kaleidoscope of reflections on the present and predictions and prescriptions for the future of management education The result is a comprehensive volume that will be essential reading for scholars and administrators committed to the growth and development of management education It also will be of keen interest to management educators as well as management learners who will shape and be shaped by the management education of the future The Future of Management Education Stéphanie Dameron, Thomas Durand, 2017-11-15 This book discusses the challenges facing business schools and management education systems around the world Based on documented descriptions of institutional and competitive dynamics in the industry of management education the authors show how management education is going through major changes such as new governance and business models mergers and acquisitions internationalisation of faculty and students coexisting with entrenchment in local markets ever more needs for financial resources development of distant and blended learning and increasing pressure for research output to boost rankings With concerns surrounding the sustainability of current trends in faculty salary inflation social acceptability of higher fees cost of distance learning and the risk of an academic industry divide around knowledge produced by management research The Future of Management Education develops an analysis of business models and discusses strategic implications for stakeholders The second volume extends the discussion to a total of 23 countries to bring a genuinely global perspective and move away from the Euro centric outlook The countries covered in the second volume include China Brazil Russia Singapore and France The Impact of Executive Management Education Lisa Anderson, Paul Ellwood, Clare Rigg, Leighann Spencer, 2025-05-06 This book contributes to the debate about the impact of business and management schools It brings together work that has been carried out over the last few years to call attention to the idea that the impact of academics is not solely achieved through their research and engagement activities and that their teaching has the potential to change management practice and thinking As business school academics the authors are in the privileged position of educating the

managers of the future whose work will influence the lives of many others both on a day to day basis within their organisations and in a much broader societal way They propose relational management education RME as an approach that supports managers to learn and develop as ethical and collegial scholar practitioners They also introduce models which can help conceptualise pedagogies for impact and examples of student learning journeys showing how this approach can be enacted The book will be of interest to academics in business and management schools at any career stage It will also appeal to university and business school leaders and policymakers seeking to extend their understanding of the power and potential of education to achieve impact *Advancing the Future of Management Education Research* Stuart Middleton,2024-04-12

This cutting edge book argues that the best way to advance the future of management education is to nurture scholars who take a fascination in the intellectual field itself Moving beyond recent trends in the scholarship Stuart Middleton investigates the underlying beliefs of key approaches to management education identifying important avenues for future contributions to the field *The Evolution of Management Education in the United States* Richard L. VanHorn,1971 [Handbook of Sustainability in Management Education](#) Jorge A. Arevalo,Shelley F. Mitchell,2017-06-30 This Handbook strives to enhance knowledge and application within sustainability in management education SiME across different academic programs geographic regions and personal professional contexts Cross disciplinary and boundary spanning this book focuses on specific themes and is therefore split into four distinct sections one on theory and practice one on transformational interventions in business programs one on the role of external agents and the last on innovative approaches in SiME **The Routledge Companion to International Management Education** Denise Tsang,Hamid H. Kazeroony,Guy Ellis,2013-06-19 Crises and scandals in the world of international management have brought a new spotlight onto how the subject is taught studied and understood There has been a plethora of literature on international management but a lack of focus on how international management education IME can be shaped to respond to existing and future global business challenges The Routledge Companion to International Management Education gathers together contributors from academia industry and university administration involved in IME to introduce the domain of IME describe the emerging state in new geographical areas discuss the major issues and debates revolving around IME explore the linkage of technology and international management and shed light on the future of IME The diverse background of the contributors provides a global perspective that challenges the dominant Anglo American view with up to date specific insights originating from their indigenous view points which has often been neglected and inadequately covered The volume answers important questions such as Do we need a vision in IME What is the current state of IME How has IME grown in emerging market segments What roles does technology play in its recent development The volume provides thought provoking reading for educators administrators policy makers human resources professionals and researchers It will also give future international management students a glimpse of IME from a global inside out perspective **The Routledge Companion to**

**Reinventing Management Education** Chris Steyaert, Timon Beyes, Martin Parker, 2016-06-17 The position and role of the business school and its educational programmes have become increasingly prominent yet also questioned and contested What management education entails and how it is enacted has become a matter of profound concern in the field of higher education and more generally for the development of the organized world Drawing upon the humanities and social sciences The Routledge Companion to Reinventing Management Education imagines a different and better education offered to students of management entrepreneurship and organization studies It is an intervention into the debates on what is taught and how learning takes place demonstrating both the potential and the limits of what the humanities and social sciences can do for management education Divided into six sections the book traces the history and theory of management education reimagining central educational principles and outlining an emerging practice based approach With an international cast of authors The Routledge Companion to Reinventing Management Education has been written for contemporary and future educators and for students and scholars who seek to make a difference through their practice **Innovation and Shifting Perspectives in Management Education** Baporikar, Neeta, 2016-10-04 Effective education and training is essential to the positive development of a manager in corporate or organizational settings In order to stay abreast of current management trends it is necessary to implement new perspectives and technologies being utilized in the field Innovation and Shifting Perspectives in Management Education features a comprehensive assessment of the complexities present in management training programs in educational settings Highlighting best practices and real life experiences within the field this book is an essential reference source for practitioners policy makers undergraduate and graduate students academics managers and professionals **Organizational Behavior 3** John B. Miner, 2006-03-02 This text provides a comprehensive overview of the development of the field of organizational behavior It covers the foundations of the scientific method theory development and the accrual of scientific knowledge in the field *Defining Management* Lars Engwall, Matthias Kipping, Behlül Üsdiken, 2016-06-10 Defining Management charts the expansion of management as an idea and practice from a time when it was limited to churches and households to its current ubiquity focusing in particular on the role of business schools consultants and business media in this process How did an entire industry develop around business schools consultants and business media who are now widely considered the authorities regarding best management practice This book shows how these actors on their own and in interaction became taken for granted and gained such definitional power over management and managers expanded across the globe from often modest and not always respected origins and impacted and continue to impact businesses and increasingly the broader economic and social context Building on extant and some new research the book is unique in bringing together issues and actors that have been examined elsewhere separately Any student or professional of management interested in the evolution of their field or the rise of business schools consultants and business media will find this book both novel and thought provoking *Securing the Future of Management Education* Howard

Thomas,Michelle Lee,Lynne Thomas,Alexander Wilson,2014-01-06 This is the second of two volumes written to celebrate the 40th anniversary of EFMD The second volume discusses a range of alternative future scenarios for management education and urges the field to resist the lures of the dominant paradigm and to develop new models instead *Latin America*

Gabriela Alvarado,Howard Thomas,Lynne Thomas,Alexander Wilson,2018-06-06 Latin American business schools have grown in scale and quality in recent decades yet their activities and achievements remain largely unreported This book analyzes the major events issues actors and blind spots in management education in Latin America It then examines the contemporary challenges and critical issues for the future **The Value & Purpose of Management Education** Eric Cornuel,Howard Thomas,Matthew Wood,2022-03-01 Without a doubt business schools have been a success story in higher education over the last 50 years the period of EFMD s existence Even so they have come under scrutiny and attack over their academic legitimacy and value proposition for business and society In this book drawn from a special issue of Global Focus the EFMD has selected around 25 of the best most thoughtful short papers published in Global Focus to examine the role and purpose of EFMD in the evolution of management education Each of the chapters interpret current strategic debates about the evolution of business schools and their paradigms and also identify possible strategic options for handling uncertain volatile futures These papers can be broadly categorized into four consistent themes the first theme is concerned with the purpose and value proposition of management education the second theme focuses on a perceived need for new business models and how to design and build them the third theme addresses the question of the impact of the business school on business and society given the increasingly academic pursuits of business schools and their often weak links to the business community the so called rigour relevance dilemma and the fourth theme concerns how to map and design business school futures in an increasingly volatile uncertain complex and ambiguous crisis oriented environment This impressive collection of insights from business management leaders from across the globe is inspiring reading for higher education leaders policy makers and business leaders seeking insight into the future of management education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Meeting Expectations in Management Education** Elizabeth Christopher,2018-05-25 This book brings together a variety of international cross cultural case studies of management education programmes and discusses the results in light of the present higher social expectations on managerial behaviour It presents both traditional and unusual approaches to management education examining concept mapping transformational learning theory the practice theory gap cultural indoctrination and business students increased concern with socio ecological sustainability It moves from restating the purpose of university business schools to discussing the construction of conducive learning environments on introductory courses and of communities of learning through harmonised teaching In addressing the social and ethical problems that will soon confront all managers Meeting Expectations is a valuable resource for teachers students and practitioners
