Communist Parties Revisited Rüdiger Bergien, Jens Gieseke, 2018-01-31 The ruling communist parties of the postwar Soviet Bloc possessed nearly unprecedented power to shape every level of society perhaps in part because of this they have been routinely depicted as monolithic austere and even opaque institutions Communist Parties Revisited takes a markedly different approach investigating everyday life within basic organizations to illuminate the inner workings of Eastern Bloc parties Ranging across national and transnational contexts the contributions assembled here reconstruct the rituals of party meetings functionaries informal practices intra party power struggles and the social production of ideology to give a detailed account of state socialist policymaking on a micro historical scale **Wars, Revolutions and Regime Changes in Hungary, 1912-2004** Béla K. Király, 2005 This book documents the personal experiences of the author who was privy to wars revolutions and regime changes during a volatile century Forced to become a professional officer he participated in all wars and revolutions following World War I He rose to the position of Commander in Chief of Hungary s National Guard during the 1956 Revolution but immigrated to the United States following the Soviet suppression of his revolutionary

Hungary in World War II Deborah S. Cornelius, 2019-08-08 A historian examines why Hungary allied with the Nazis and the devastating consequences for the country The full story of Hungary's participation in World War II is part of a fascinating tale of rise and fall of hopes dashed and dreams in tatters Using previously untapped sources and interviews she conducted for this book Deborah S Cornelius provides a clear account of Hungary's attempt to regain the glory of the Hungarian Kingdom by joining forces with Nazi Germany a decision that today seems doomed to fail from the start For scholars and history buffs alike Hungary in World War II is a riveting read After the First World War the new country of Hungary lost more than 70 percent of its territory and saw its population reduced by nearly the same percentage But in the early years of World War II Hungary enjoyed boom times and the dream of restoring the Hungarian Kingdom began to rise again As the war engulfed Europe Hungary was drawn into an alliance with Nazi Germany When the Germans appeared to give Hungary much of its pre World War I territory Hungarians began to delude themselves into believing they had won their long sought objective Instead the final year of the world war brought widespread destruction and a genocidal war against Hungarian Jews Caught between two warring behemoths the country became a battleground for German and Soviet forces and in the wake of the war Hungary suffered further devastation under Soviet occupation and forty five years of communist rule This is the story of a tumultuous time and a little known chapter in the sweeping history of World War II

Social History of Hungary from the Reform Era to the End of the Twentieth Century Gábor Gyáni, György Kövér, Tibor Valuch, 2004 This volume analyses the important structural changes and mobility that occurred in Hungary from the middle of the 19th to the end of the 20th centuries by using rich statistical and narrative sources sometimes reaching to certain social states The period extending to WWI was the time of the establishment of the capital market economy which went with the change of the occupational structure the hierarchy of the status and the culture During the period between the two world wars the territory and the population of the country greatly diminished This was also a reason of the slackening of the social mobility and the rigidity of the structure After WWII especially during the period of socialism the political led change of structure became determinant All of these made possible the so called goulash communism a change of life style from the sixties From 1989 on the return of the market capitalism has been forming the structure

Competition Law and Consumer Protection Katalin Judit Cseres, 2005-01-01 The assumption that competition law and consumer protection are mutually reinforcing is rarely challenged The theory seems uncontroversial However because a positive interaction between the two is presumed to be self evident the frequent conflicts that do in fact arise are often dealt with on an ad hoc basis with no overarching legal authority There is a clear need for a detailed and coherent understanding of exactly where the complements and tensions between the two policy areas exist Dr Cseres in depth analysis provides that understanding Proceeding from the dual perspective of law and economics that is of justice fairness and reasonableness on the one hand and of efficiency of the other she fully considers such underlying issues as the following the role of competition law and

consumer law in a free market economy the notion of consumer welfare the effect of the modernisation of EC competition law for consumers economics theories of information bounded rationality and transaction costs the special significance of vertical agreements and merger control and how consumers are affected by information asymmetries The ultimate focus of the book is on current and emerging EC law in which a rapprochement between the two areas seems to be under way Dr Cseres provides a knowledgeable guide to the various strands of theory policy and jurisprudence that she shows ought to be taken into account in the process including schools of thought and law and policy experience in both Europe and the United States A special chapter on Hungary where post 1989 law and practice reveal a fresh and distinctly forward looking understanding of the matter is one of the book's most extraordinary features Competition Law and Consumer Protection stands alone as a committed contribution to bridging a gap in legal knowledge the significance of which grows daily It will be of immeasurable value to a wide range of professionals from academics and researchers to officials policymakers and practitioners in competition law consumer protection advocacy economic theory and planning business administration and various pertinent government authorities

Hungarians in the Voivodina, 1918-1947 Enikő A. Sajti, 2003 This work exposes the effects of the following factors on minority policies in the Viovodina Yugoslav Hungarian relations the Hungarian Party in Yugoslavia founded in 1922 the agrarian reforms the three changes of supreme power for example the Kingdom of Yugoslavia until 1941 the Hungarian state until 1945 and the Tito regime until 1947 It presents details of the first atrocities of the Hungarian armed forces at Novi Sad in 1941 1942 as well as the ethic cleansing committed by the Yugoslav partisans against Hungarians after 1945

The Ideas of the Hungarian Revolution Lee Congdon, Béla K. Király, 2002 Taking as its starting point the long standing characterization of Milton as a Hebraic writer Milton and the Rabbis probes the limits of the relationship between the seventeenth century English poet and polemicist and his Jewish antecedents Shoulson's analysis moves back and forth between Milton's writings and Jewish writings of the first five centuries of the Common Era collectively known as midrash In exploring the historical and literary implications of these connections Shoulson shows how Milton's text can inform a more nuanced reading of midrash just as midrash can offer new insights into Paradise Lost Shoulson is unconvinced of a direct link between a specific collection of rabbinic writings and Milton's works He argues that many of Milton's poetic ideas that parallel midrash are likely to have entered Christian discourse not only through early modern Christian Hebraicists but also through Protestant writers and preachers without special knowledge of Hebrew At the heart of Shoulson's inquiry lies a fundamental question When is an idea a theme or an emphasis distinctively Judaic or Hebraic and when is it Christian The difficulty in answering such questions reveals and highlights the fluid interaction between ostensibly Jewish Hellenistic and Christian modes of thought not only during the early modern period but also early in time when rabbinic Judaism and Christianity began
