Gnosis and Hermeticism from Antiquity to Modern Times R. van den Broek, Wouter J. Hanegraaff, 1998-01-01 This volume introduces what has sometimes been called the third component of western culture It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being God The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions In Antiquity one finds the gnostics and hermetics in the Middle Ages several Christian sects The medieval Cathars can to a certain extent be considered part of the same tradition Starting with the Italian humanist Renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century and from post enlightenment aspects of Romanticism and occultism to the present day New Age movement The evolution of Philosophy Rudolf Steiner, 2021-09-25 INDEX FROM THE AUTHOR'S PREFACES TO THE VARIOUS EDITIONS TO NAVIGATE THE EXHIBITION GUIDELINES THE WORLDVIEWS OF GREEK THINKERS THE LIFE OF THOUGHT FROM THE BEGINNING OF THE CHRISTIAN ERA TO JOHN SCOTUS OR ERIGENA WORLDVIEWS IN THE MIDDLE AGES WORLDVIEWS IN THE MODERN ERA OF THE EVOLUTION OF THOUGHT THE AGE OF KANT AND GOETHE THE CLASSICS OF WORLD AND LIFE CONCEPTION THE REACTIONARY WORLDVIEWS RADICAL WORLDVIEWS

The Modern Revival of Gnosticism and Thomas Mann's Doktor Faustus Kirsten J. Grimstad, 2002 This study explores the reappearance of Gnostic themes across the landscape of European literature and thought and in major works by Thomas Mann Accelerating Human Evolution by Theosophical Initiation Yves Mühlematter, 2022-12-19 The main subjects of analysis in the present book are the stages of initiation in the grand scheme of Theosophical evolution These initiatory steps are connected to an idea of evolutionary self development by means of a set of virtues that are relative to the individual's position on the path of evolution The central thesis is that these stages were translated from the Hindu tradition to the

Theosophical tradition through multifaceted hybridization processes in which several Indian members of the Theosophical Society partook Starting with Annie Besant s early Theosophy the stages of initiation are traced through Blavatsky s work to Manilal Dvivedi and T Subba Row both Indian members of the Theosophical Society and then on to the San tana Dharma Text Books In 1898 the English Theosophist Annie Besant and the Indian Theosophist Bhagavan Das together founded the Central Hindu College Benares which became the nucleus around which the Benares Hindu University was instituted in 1915 In this context the San tana Dharma Text Books were published M hlematter shows that the stages of initiation were the blueprint for Annie Besant s pedagogy which she implemented in the Central Hindu College in Benares In doing so he succeeds in making intelligible how esoteric knowledge was transferred to public institutions and how a broader public could be reached as a result The dissertation has been awarded the ESSWE PhD Thesis prize 2022 by the European Society for the Study of Western Esotericism

Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond
