Evolution de la France méridionale, 1249-1328 Yves Dossat, 1989 *Crusade and Colonisation* Elena Lourie, 2024-10-28 The history of the Reconquista the Christian reconquest of Spain from the Arabs has proved an increasingly stimulating field of historical research On the one hand the struggle forced Spanish society into a mould which then shaped the course of its expansion into the Americas on the other it gave rise to a unique process of accommodation and acculturation Dr Lourie here concentrates on the realms of the Crown of Aragon in the 12th 14th centuries The first articles deal with the evolution of the crusading spirit with geopolitics notably the rivalry between Aragon and Castille and with the progress of Christian colonisation The next section examines the conflicting demands of ideology demography and colonisation and includes one major new study on Christian ambivalence towards the Mudejars the conquered Muslim population Dr Lourie seeks to throw this attitude into sharper focus by comparing the Muslim situation with that of the Jews and it is to the latter and their relations with Christians that her last five articles are devoted *L'Ibérie Chrétienne et le Maghreb (XIIe - XVe Siècles)* Charles Emmanuël Dufourcq, Jacques Heers, 2024-10-28 The late Ch E Dufourcq was one of the first to map out the relations between the Christian and Muslim coastlands of the medieval western Mediterranean These studies reveal the extent of the contribution he made to the subject and the care and attention with which he handled the scattered documentary sources There are three main themes to the volume one group of articles focuses on the political and diplomatic aspects of the relations between Spain Catalonia in particular and the Maghreb the lands of the modern Morocco Algeria and Tunisia a second is concerned more with commercial contacts and with a comparison of the economic conditions north and south of the Mediterranean and with the day to day life of the sailors and merchants who formed the link between the two A third theme most prominent in the final articles is the social and economic history of Catalonia itself a subject to which he returned in the final years of his life Le regret Ch E Dufourcq t l un des premiers tablir les grandes lignes des rapports existant entre les pays c tiers chr tiens et musulmans de la M diterann e occidentale durant le Moyen Age Ces tudes revelent l ntendue de la contribution de l auteur ce sujet ainsi que le soin et l attention avec lesquels il en a mani le s sources documentaires dispers es On retrouve trois themes principeaux au travers de ce volume un groupe d articles se concentre sur les aspects politiques et diplomatiques des rapports entre l Espagne plus particuli rement la Catalogne et le Maghreb le seconde s attache plus aux contracts commercieaux comparant les conditions conomiques du Nord et du Sud de la M dit ranee et la vie quotidienne des marins et des marchands qui formaient le lien entre les deux Un troisi me th me plus pro minent dans les derniers articles crits par l auteur vers la fin de sa vie est celui de l histoire sociale et conomique de la Catalogne elle **Politics and Institutions in Capetian France** Elizabeth A.R. Brown, 2023-05-31 The nine essays in this volume by Elizabeth Brown deal with the development of representative institutions and monarchical power in Capetian France One topic covered is that of the evolution of central assemblies with case studies of the assemblies held between 1316

and 1321 illuminating the impact of theory on practice A second topic is that of the moral implications of fiscality and of the attempts by French monarchs to regulate their policies by the teachings of moral philosophy A particular theme is the Capetians insistence on reform as a central theme of good government and their successes and failures living up to their principles The articles also examine the realm s reactions to the monarchy s ideals and principles emphasizing and attempting to account for the differences in attitude to government on the part of the ruler and ruled that distinguished medieval France and England

Form and Order in Medieval France Brigitte Bedos-Rezak, 2024-12-11 By the early 13th century the use of seals in Northern Europe was a generalized phenomenon which involved society as a whole crossing boundaries of gender age religion and social and professional status The function traditionally ascribed to seals is the validation of the documents to which they were affixed but the phenomenon has far wider implications as is brought out in this collection of studies by Brigitte Bedos-Rezak In itself a seal could serve as a quasi amuletic object or a personal adornment the image impressed from it functioned as a sign conveying identity and power and the ritual of sealing provided an occasion for the affirmation of status In her work the author has aimed to use the approaches of statistics cultural and women s history and semiotics as well as the traditional skills of art history law and diplomacy to show the numerous surviving seals can be used to reach into the history of the Middle Ages and at the same time to explore and test the interpretative models suggested by semiotics and postmodern theories on symbols representation and meaning

Society, Law, and Trade in Medieval Montpellier Kathryn Reyerson, 1995 Contains 9 studies in English and 3 studies in French In the 13th and 14th centuries Montpellier was one of the major urban centres of the Western Mediterranean This text shows how the city functioned and how the complexities of city life such as migration and real estate were regulated

Lordship in France, 500-1500 James Lowth Goldsmith, 2003 Lordship in France 500-1500 presents a new interpretation of lordship in medieval France based on recent ground breaking research on the Merovingian Carolingian and Capetian eras of lordship in medieval France In the standard interpretation lordship emerged around the year 1000 when landed magnates and armed adventurers usurped public authority from the collapsing Carolingian state This book argues instead that lordship emerged roughly 500 hundred years earlier with the disintegration of the Roman Empire Politically and socially lordship expressed the collegial ruling authority of kings and aristocrats not the usurped public authority of a failed centralized state Institutionally lordship was essentially a fiscal apparatus that perpetuated remnants of the late Roman tax system

Etudes sur la France capétienne Robert-Henri Bautier, 1992 This volume follows on chronologically from *Recherches sur l'histoire de la France médiévale des Mérovingiens aux premiers Capétiens* and Robert-Henri Bautier is here concerned with the political and institutional history of the kingdom of France from the first years of the 12th century to the start of the 14th Particular groups of studies focus on the periods of Philip Augustus marking the fundamental importance of his reign in the history of France and of Philip the Fair These articles amongst other points emphasise the value of diplomatic sources demonstrating

how effectively they can be used even for a study of the king's personality and re-examine his relations with the papacy and the Church. A third topic dealt with especially in the opening study is the continued growth of Paris as the royal capital and the role of different kings in shaping its expansion. Ce volume est la suite chronologique des Recherches sur l'histoire de la France médiévale des Mérovingiens aux premiers Capétiens. Robert Henri Bautier s'attache ici à l'histoire politique et institutionnelle du royaume de France couvrant la période allant du début du 12^e siècle à celui du 14^e. Certains ensembles d'études se concentrent sur l'époque de Philippe Auguste marquant l'importance fondamentale de son règne pour l'histoire de la France et celle de Philippe le Bel. De plus, ces dernières soulignent la valeur des sources diplomatiques démontrant combien elles peuvent être utilisées de façon effective même lorsque il s'agit de l'étude de la personnalité du roi. y sont aussi examinés les rapports que ce dernier entretenait avec la papauté et l'Eglise. Un troisième thème dont il est tout particulièrement question dans la première étude est celui de l'expansion continue de Paris en tant que capitale royale et du rôle joué par différents souverains dans sa croissance.

Revue historique de droit français et étranger, 1990 **Deutsches Archiv für Erforschung des Mittelalters**, 1991 **Subject Guide to Books in Print**, 1971 *Sur l'histoire économique de la France médiévale* Robert-Henri Bautier, Olivier Guyotjeannin, 1991. This is the first of two collections of articles by Robert Henri Bautier on the economic history of medieval Europe to be published by Variorum. The second, *Commerce Méditerranéen et Banquiers Italiens au Moyen Âge* will appear in 1992. A further pair of volumes will deal with the political and institutional history of medieval France. The present selection concentrates on the structure of commerce within the territories of medieval France. The articles examine first the physical network of land and river routes along which the merchants travelled and second the fairs at which they gathered to trade their wares. Attention is given too to the movement of textiles, one of the key items of medieval trade, notably those of Belgium, then part of the French kingdom, and especially to the history of the fairs of Champagne from the late 12th to the early 14th century, the greatest commercial and financial centre of Western Europe.

Le royaume de Navarre à la fin du Moyen Âge Béatrice Leroy, 1990. This book is concerned with the political and socio-economic history of the kingdom of Navarre in the 14th and 15th centuries. Although not large compared with Aragon or Castile, Navarre does present a particular interest due to its position and because the evolution of its social and political structures followed a course distinct from that in other Spanish lands. A notable instance is the positive attitude towards the Jewish population, the subject of the last group of articles. Other studies look at political life at the court and at the individual foreign policy of the ruling Evreux dynasty during the long wars of the period; they also examine on one level the particularities of its governmental and urban structures and on the other the careers and fortunes of some of the country's leading personalities. Throughout the author makes extensive use of the unpublished documentation preserved in the archives of Navarre.
