The Intellectual Foundations of Chinese Modernity Edmund S. K. Fung, 2010-03-22 In the early twentieth century China was on the brink of change Different ideologies those of radicalism conservatism liberalism and social democracy were much debated in political and intellectual circles Whereas previous works have analyzed these trends in isolation Edmund S K Fung shows how they related to one another and how intellectuals in China engaged according to their cultural and political persuasions The author argues that it is this interrelatedness and interplay between different schools of thought that are central to the understanding of Chinese modernity for many of the debates that began in the Republican era still resonate in China today The book charts the development of these ideologies and explores the work and influence of the intellectuals who were associated with them In its challenge to previous scholarship and the breadth of its approach the book makes a major contribution to the study of Chinese political philosophy and intellectual history
The Political Philosophy of Poststructuralist Anarchism Todd May, 1994 The political writings of the French poststructuralists have eluded articulation in the broader framework of general political philosophy primarily because of the pervasive tendency to define politics along a single parameter the balance between state power and individual rights in liberalism and the focus on economic justice as a goal in Marxism What

poststructuralists like Michel Foucault Gilles Deleuze and Jean Fran ois Lyotard offer instead is a political philosophy that can be called tactical it emphasizes that power emerges from many different sources and operates along many different registers This approach has roots in traditional anarchist thought which sees the social and political field as a network of intertwined practices with overlapping political effects The poststructuralist approach however eschews two questionable assumptions of anarchism that human beings have an essentially benign essence and that power is always repressive never productive After positioning poststructuralist political thought against the background of Marxism and the traditional anarchism of Bakunin Kropotkin and Proudhon Todd May shows what a tactical political philosophy like anarchism looks like shorn of its humanist commitments namely a poststructuralist anarchism The book concludes with a defense contra Habermas and Critical Theory of poststructuralist political thought as having a metaethical structure allowing for positive ethical commitments

Karl Marx's Theory of Revolution III Hal Draper,1977 In this third volume of his definitive study of Karl Marx s political thought Hal Draper examines how Marx and Marxism have dealt with the issue of dictatorship in relation to the revolutionary use of force and repression particularly as this debate has centered on the use of the term dictatorship of the proletariat Writing with his usual wit and perception Draper strips away the layers of misinterpretation and misinformation that have accumulated over the years to show what Marx and Engels themselves really meant by the term

Friedrich Engels and Marxian Political Economy Samuel Hollander,2011-05-23 This book rejects the commonly encountered perception of Friedrich Engels as perpetuator of a tragic deception of Marx and the equally persistent body of opinion treating him as his master s voice Engels claim to recognition is reinforced by an exceptional contribution in the 1840s to the very foundations of the Marxian enterprise a contribution entailing not only the vision but some of the building blocks in the working out of that vision Subsequently he proved himself to be a sophisticated interpreter of the doctrine of historical materialism and an important contributor in his own right This volume serves as a companion to Samuel Hollander s *The Economics of Karl Marx* Cambridge University Press 2008
