**The Social Scientific Study of Jewry** Uzi Rebhun, 2014 This volume of Studies in Contemporary Jewry directs its searchlight on the social scientific study of Jewry Its symposium consists of 11 essays that discuss sources approaches and debates in different complementary fields of demography sociology economy and geography Taken as a group the essays cover the major areas of Jewish life today in Israel the United States Europe and Latin America

**Jewish Population and Identity** Sergio DellaPergola, Uzi Rebhun, 2018-09-19 This book examines the fundamentals of Jewish demography and sociology around the world It is not only concerned with documenting patterns of population change but also with an intriguing and ever present issue like Who is a Jew The latter transcends the limits of quantitative assessment and deeply delves into the nature boundaries and quality of group identification A growing challenge is how to bridge between concept related to ideals and theory and reality reflecting field research Divided into six sections the book discusses historical demography immigration and settlement population dynamics social stratification and economy family and Jewish identity in the U S and Jewish identity in Israel The volume represents the dynamic and diverse nature of the study of world and local Jewish populations It shows how that field of study provides an important contribution to the broader and now rapidly expanding study of religious and ethnic groups Scholars in disciplines such as history geography sociology economics political science and especially demography follow and analyze the social and cultural patterns of Jews in different places around the globe at various times and from complementary perspectives They make use of historical sources that have recently become accessible utilize new censuses and surveys and adopt advanced analytical methods While some of their observations attest to consistency in the Jews demographic and identificational patterns others evolve and ramify in new directions that reflect general processes in the areas and societies that Jews inhabit internal changes within Jewish communities and intergenerational trends in personal preferences of religious and ethnic orientations This volume brings together contributions from scholars around the world and presents new and updated research and insights

**The New Jewish Diaspora** Zvi Gitelman, 2016-07-27 In 1900 over five million Jews lived in the Russian empire today there are four times as many Russian speaking Jews residing outside the former Soviet Union than there are in that region The New Jewish Diaspora is the first English language study of the Russian speaking Jewish diaspora This migration has made deep marks on the social cultural and political terrain of many countries in particular the United States Israel and Germany The contributors examine the varied ways these immigrants have adapted to new environments while identifying the common cultural bonds that continue to unite them Assembling an international array of experts on the Soviet and post Soviet Jewish diaspora the book makes room for a wide range of scholarly approaches allowing readers to appreciate the significance of this migration from many different angles Some chapters offer data driven analyses that seek to quantify the impact Russian speaking Jewish populations are making in their adoptive countries and their adaptations there Others take a more ethnographic approach

using interviews and observations to determine how these immigrants integrate their old traditions and affiliations into their new identities Further chapters examine how despite the oceans separating them members of this diaspora form imagined communities within cyberspace and through literature enabling them to keep their shared culture alive Above all the scholars in The New Jewish Diaspora place the migration of Russian speaking Jews in its historical and social contexts showing where it fits within the larger historic saga of the Jewish diaspora exploring its dynamic engagement with the contemporary world and pointing to future paths these immigrants and their descendants might follow A Time to Sow: Refusenik Life in Leningrad, 1979-1989 Michael Beizer, **Re-Constructing Grassroots Holocaust Memory** Irina Rebrova, 2020-10-26

The main objective of the book is to allocate the grass roots initiatives of remembering the Holocaust victims in a particular region of Russia which has a very diverse ethnic structure and little presence of Jews at the same time It aims to find out how such individual initiatives correspond to the official Russian hero orientated concept of remembering the Second World war with almost no attention to the memory of war victims including Holocaust victims North Caucasus became the last address of thousands of Soviet Jews both evacuees and locals While there was almost no attention paid to the Holocaust victims in the official Soviet propaganda in the postwar period local activists and historians together with the members of Jewish communities preserved Holocaust memory by installing small obelisks at the killing sites writing novels and making documentaries teaching about the Holocaust at schools and making small thematic exhibitions in the local and school museums Individual types of grass roots activities in the region on remembering Holocaust victims are analyzed in each chapter of the book
