**Excavations at Nemea III** Robert C. Knapp, John D. Mac Isaac, 2005-05-23 Since 1974 the University of California at Berkeley has been sponsoring extensive excavations at the Panhellenic athletic festival center of ancient Nemea in the modern Greek province of Korinthia With its well documented excavation and clear historical context the site offers an excellent opportunity for investigation and analysis This volume the third in a series of publications on Nemea is a detailed presentation of the more than three thousand legible coins from all over the ancient world that have been unearthed there The coins which are mostly bronze but show an unusually high proportion of silver reflect the periods of greatest activity at the site the late Archaic and Early Classical the Early Hellenistic the Early Christian and the Byzantine More than a compendium of data the study breaks new ground with its analysis and contextualization of numismatic evidence in an archaeological setting

**Excavations at Nemea IV** Jorge J. Bravo III, 2018-03-02 The Sanctuary of Zeus at ancient Nemea has been a rich resource for archaeological investigation and analysis conducted by the University of California over the past forty years The Sanctuary hosted one of the preeminent athletic festivals of ancient Greece the Nemean Games Just as the Olympics were celebrated in connection with the cult of Pelops at Olympia the games at Nemea were founded on the worship of the hero Opheltes The Shrine of Opheltes in the Sanctuary of Zeus at Nemea offers one of the best examples of an ancient Greek hero cult documented in the archaeological record This final and most significant volume in the Excavations at Nemea series presents the results of the excavation of the Shrine from 1979 through 2001 and analyzes the Shrine s features and contents in order to understand its history and use A study of the literary and artistic evidence about the myth and cult of Opheltes contextualizes the archaeological findings and illuminates the hero s significance to the Sanctuary and its renowned festival the Nemean Games

**The Early Bronze Age Village on Tsoungiza Hill** Daniel J. Pullen,2011-12-31 While corridor houses such as the House of the Tiles at Lerna have provoked widespread discussion about the origins of social stratification in Greece few settlements of the Early Bronze Age ca 3100 to 2000 B C have been thoroughly excavated This important study integrates the presentation and analysis of the archaeological evidence from a single settlement that flourished on Tsoungiza Hill in the Nemea Valley from the Final Neolithic until the end of the Early Helladic period The first section details the stratigraphy architecture deposits and ceramics of each of the five major periods represented The second section contains specialist reports on all aspects of material culture including figurines and ornaments textiles and crafts metal analyses chipped and ground stone and faunal and palaeobotanical remains

the myth of Iphigenia from Athens to southern Italian vase painting small terracotta figurines from Peloponnesian sanctuaries anthropomorphic and zoomorphic figures on Etruscan impasto vessels Cypro Archaic pottery and objects red gloss relief decorated sherds and Geometric pottery housed in Danish museum collections The articles represent recent Danish archaeological research of the Mediterranean and constitute an important contribution to the ongoing international debate on the roles of pottery in ancient societies      *Terracotta Lamps II* Birgitta Lindros Wohl, 2017-07-01 This volume discusses more than 400 lamps and lamp fragments dating from the Late Archaic to the Byzantine period found over several decades at the Sanctuary of Poseidon at Isthmia These come from excavations undertaken by UCLA from 1967 to 1987 under the direction of Paul Clement and since then by OSU under the direction of Timothy Gregory In addition to a detailed catalogue the volume presents a commentary on the types of lamps used at the sanctuary that enriches our knowledge of their manufacture use and artistic evolution over time The lamps also contribute to a better understanding of the site as they reflect the various historical political and religious vicissitudes at Isthmia and in the Corinthia in general over the centuries

**Hellenistic Pottery** Sarah A. James, 2018-08-20 Using deposits recently excavated from the Panayia Field this volume substantially revises the absolute chronology of Corinthian Hellenistic pottery as established by G Roger Edwards in *Corinth VII 3* 1975 This new research based on quantitative analysis of over 50 deposits demonstrates that the date range for most fine ware shapes should be lowered by 50 100 years Contrary to previous assumptions it is now possible to argue that local ceramic production continued in Corinth during the interim period between the destruction of the city in 146 B C and when it was refounded as a Roman colony in 44 B C This volume includes detailed shape studies and a comprehensive catalogue With its presentation of this revised Panayia Field chronology *Corinth VII 7* is a long awaited and much needed addition to the Corinth series      **The Roman and Byzantine Graves and Human Remains** Joseph L. Rife, 2012-06-01 This study

describes and interprets the graves and human remains of Roman and Byzantine date recovered by excavation between 1954 and 1976 in several locales around the Isthmian Sanctuary and the succeeding fortifications This material provides important evidence for both death and life in the Greek countryside during the Late Roman to Early Byzantine periods Examination of burial within the local settlement comparative study of mortuary behavior and analysis of skeletal morphology ancient demography oral health and paleopathology all contribute to a picture of the rural Corinthians over this transitional era as interactive resilient and modestly innovative Winner of the 2012 2013 CAMWS Outstanding Publication Award      [The Historical Greek Village](#) Brice L. Erickson, 2018-10-22 This volume presents the Protogeometric through Hellenistic material ca 970 175 B C from ASCSA excavations conducted in the 1950s at Lerna in the Argolid one of the most important prehistoric sites in Greece The material derives from two main sources burials from a Geometric cemetery near the settlement and Late Archaic Classical and Hellenistic wells from the mound proper Although the material consists primarily of pottery and other ceramic finds it also includes human remains animal bones and shells coins inscriptions and bronze and stone objects

Heather Graybehl provides a petrographic analysis Mark L Lawall discusses the transport amphoras and import patterns David S Reese presents the faunal material and David Scahill presents and catalogues two Doric capitals This study not only gives scholars greater insight into ceramic developments in the Argolid it brings much needed focus to the material culture of a historic settlement not known for strategic trading politics or military prowess Lerna VIII will greatly facilitate comparative studies with other modestly sized communities in ancient Greece

The Crown Games of Ancient Greece David Lunt, 2022-04-22 The Crown Games were the apex of competition in ancient Greece Along with prestigious athletic contests in honor of Zeus at Olympia they comprised the Pythian Games for Apollo at Delphi the Isthmian Games for Poseidon and the Nemean Games sacred to Zeus For over nine hundred years the Greeks celebrated these athletic and religious festivals a rare point of cultural unity amid the fierce regional independence of the numerous Greek city states and kingdoms The Crown Games of Ancient Greece examines these festivals in the context of the ancient Greek world a vast and sprawling cultural region that stretched from modern Spain to the Black Sea and North Africa Illuminating the unique history and features of the celebrations David Lunt delves into the development of the contest sites as sanctuaries and the Panhellenic competitions that gave them their distinctive character While literary sources have long been the mainstay for understanding the evolution of the Crown Games and ancient Greek athletics archaeological excavations have significantly augmented contemporary understandings of the events Drawing on this research Lunt brings deeper context to these gatherings which were not only athletics competitions but also occasions for musical contests dramatic performances religious ceremonies and diplomatic summits as well as raucous partying Taken as a circuit the Crown Games offer a more nuanced view of ancient Greek culture than do the well known Olympian Games on their own With this comprehensive examination of the Crown Games Lunt provides a new perspective on how the ancient Greeks competed and collaborated both as individuals and as city states
