*The Resurrection of Jesus* Dale C. Allison, Jr.,2021-03-11 The earliest traditions around the narrative of Jesus resurrection are considered in this landmark work by Dale C Allison Jr drawing together the fruits of his decades of research into this issue at the very core of Christian identity Allison returns to the ancient sources and earliest traditions charting them alongside the development of faith in the resurrection in the early church and throughout Christian history Beginning with historical critical methodology that examines the empty tomb narratives and early confessions Allison moves on to consider the resurrection in parallel with other traditions and stories including Tibetan accounts of saintly figures being assumed into the light in the chapter Rainbow Body Finally Allison considers what might be said by way of results or conclusions on the topic of resurrection offering perspectives from both apologetic and sceptical viewpoints In his final section of modest results he considers scholarly approaches to the resurrection in light of human experience adding fresh nuance to a debate that has often been characterised in overly simplistic terms of it happened or it didn't

**What Did Jesus Look Like?** Joan E. Taylor,2018-02-08 Jesus Christ is arguably the most famous man who ever lived His image adorns countless churches icons and paintings He is the subject of millions of statues sculptures devotional objects and works of art Everyone can conjure an image of Jesus usually as a handsome white man with flowing locks and pristine linen robes But what did Jesus really look like Is our popular image of Jesus overly westernized and untrue to historical reality This question continues to fascinate Leading Christian Origins scholar Joan E Taylor surveys the historical evidence and the prevalent image of Jesus in art and culture to suggest an entirely different vision of this most famous of men He may even have had short hair

*Relics of the Christ* Joe Nickell,2007-03-16 Religious relics defined as either portions of or objects connected with the body of a saint or other holy person are among the most revered items in the world Christian relics such as the Holy Grail the True Cross and the Lance of Longinus are also the source of limitless controversy Such items have incited people to bloodshed and some say have been a source of miracles Relics inspire fear and hope among the faithful and yet are a perennial target for skeptics both secular and Christian To research the authenticity of numerous Christian relics Joe Nickell takes a scientific approach to a field of study all too often tainted by premature conclusions In this volume Nickell investigates such renowned relics as the Shroud of Turin the multiple heads of John the Baptist and the supposedly incorruptible corpses of saints first examining the available evidence and documented history of each item From accounts of true believers to the testimony of the relics alleged fabricators Nickell then presents all sides of each story allowing the evidence to speak for itself For each relic Nickell evaluates both the corroborating and contradictory bodies of evidence and explores whether the relic and attributed miracles can be reconstructed In addition to his own experiments Nickell presents findings from the world's top scientists and historians regarding these controversial objects of reverence and ire explaining the circumstances under which each case

was examined Radiocarbon dating and tests to determine the validity of substances such as blood or patina indicate a variety of possible origins Nickell even reveals some of the techniques used to create archaeological forgeries and explains how investigators have exposed them Each relic is a mystery to be solved guided by the maxim extraordinary claims require extraordinary proof Nickell seeks only the truth      **Continuity and Change in Sixth-century Byzantium** Averil

Cameron,1981      Theatre Symposium, Vol. 24 Arnab Banerji,2016-07-19 At a time when so many options exist for access to theatrical entertainments it is no surprise that theatre practitioners and scholars are often preoccupied with the role of the audience While space undoubtedly impacts the rehearsal and production processes its greater significance seems to rest in the impact a specific location has on the audience This volume delves into issues of theatre and space traversing traditional theatre spaces such as the African Grove Theater discussed by Gregory Carr Tony Gunn s examination of Edward Gorey s theatrical designs and George Pate s reflections on Beckett s stage directors Also highlighted are some decidedly innovative spaces like those described by J K Curry in her examination of Theatre for One and modern uses of medieval sacred spaces as detailed by Carla Lahey Whether positive or negative in scope meanings generated within theatre spaces are impacted by the cultural context from which they emerge the ways in which space is conceived scrutinized and experienced As a result the relationship between space theatre and audience is diverse complex and ever changing in practice
