Face Changers A Novel Of Suspense:

The Face-Changers Thomas Perry,1999-03-29 Jane Whitefield legendary half Indian shadow guide who spirits hunted people away from certain death has never had a client like Dr Richard Dahlman A famous plastic surgeon who has dedicated his life to healing the good doctor hasn't a clue why stalkers are out for his blood But he knows Jane Whitefield's name and that she is his only hope Once again Jane performs her magic leading Dahlman in a nightmare flight across America only a heartbeat ahead of pursuers whose leader is a dead ringer for Jane a raven haired beauty who has stolen her name reputation and techniques not to save lives but to destroy them *Cover Her Face* P.D. James,2001-05 Headstrong and beautiful the young housemaid Sally Jupp is put rudely in her place strangled in her bed behind a bolted door Coolly brilliant policeman Adam Dalgliesh of Scotland Yard must find her killer among a houseful of suspects most of whom had very good reason to wish her ill *Cover Her Face* is P D James's electric debut novel an ingeniously plotted mystery that immediately placed her among the masters of suspense *Anthropocene Fictions* Adam Trexler,2015-04-20 Since the Industrial Revolution humans have transformed the Earth's atmosphere committing our planet to more extreme weather rising sea levels melting polar ice caps and mass extinction This period of observable human impact on the Earth's ecosystems has been called the Anthropocene Age The anthropogenic climate change that has impacted the Earth has also affected our literature but criticism of the contemporary novel has not adequately recognized the literary response to this level of environmental crisis Ecocriticism's theories of place and planet meanwhile are troubled by a climate that is neither natural nor under human control *Anthropocene Fictions* is the first systematic examination of the hundreds of novels that have been written about anthropogenic climate change Drawing on climatology the sociology and philosophy of science geography and environmental economics Adam Trexler argues that the novel has become an essential tool to construct meaning in an age of climate change The novel expands the reach of climate science beyond the laboratory or model turning abstract predictions into subjectively tangible experiences of place identity and culture Political and economic organizations are also being transformed by their struggle for sustainability In turn the novel has been forced to adapt to new boundaries between truth and fabrication nature and economics and individual choice and larger systems of natural phenomena *Anthropocene Fictions* argues that new modes of inhabiting climate are of the utmost critical and political importance when unprecedented scientific consensus has failed to lead to action Under the Sign of Nature Explorations in Ecocriticism The changing face of VR: Pushing the boundaries of experience across multiple industries Jordan Frith,Michael Saker,2022-09-20 VR occupies an interesting place in the media ecosystem On the one hand it is an emerging cutting edge technology backed by billions of USD by major corporations On the other hand VR is older than the World Wide Web and older than social networking sites After many years of hype and unfulfilled potential VR is now finally on the precipice of widespread adoption and has begun to be used in novel ways throughout various industries This edited collection brings together a diverse group of authors to

analyse the current state of VR while recognizing that these many different use cases will likely become even more important with the increased investment in the technology To examine the current state of VR across multiple sites and industries we compiled a group of practitioners and academics to both examine VR practices and theorize new uses of VR The book also focuses on an inclusive analysis and includes authors from South America North America Europe Australia and Asia and the topics range from analyses of VR use in live events to the ethics of nature based VR apps to the social practices involved in using public VR at museum exhibits As we argue in the introduction this book is one of the first to bring together authors from different backgrounds and disciplines to chart just how widely VR has already spread And maybe most importantly the topics covered in this book will only become more relevant as VR continues to grow especially in the wake of the growth of the supposed Metaverse

Macfadden Fiction-lovers Magazine ,1906 The Changing Face of Evil in Film and Television Martin F. Norden, 2007 The popular media of film and television surround us daily with images of evil images that have often gone critically unexamined In the belief that people in ever increasing numbers are turning to the media for their understanding of evil this lively and provocative collection of essays addresses the changing representation of evil in a broad spectrum of films and television programmes Written in refreshingly accessible and de-jargonised prose the essays bring to bear a variety of philosophical and critical perspectives on works ranging from the cinema of famed director Alfred Hitchcock and the preternatural horror films Halloween and Friday the 13th to the understated documentary Human Remains and the television coverage of the immediate post 9 11 period The Changing Face of Evil in Film and Television is for anyone interested in the moving image representation of that pervasive yet highly misunderstood thing we call evil Contents Martin F. English Fiction Dorothy Scarborough, 2019-01-03 subject of the supernatural in modern English fiction has been found difficult to deal with because of its wealth of material While there has been no previous book on the topic and none related to it save Mr C E Whitmore's work on *The Supernatural in Tragedy* the mass of fiction itself introducing ghostly or psychic motifs is simply enormous It is manifestly impossible to discuss or even to mention all of it Even in my bibliography which numbers over three thousand titles I have made no effort to list all the available examples of the type The bibliography which I at first intended to publish in connection with this volume is far too voluminous to be included here so will probably be brought out later by itself

Noir Fiction and Film Lee Clark Mitchell, 2021-11-25 The argument of *Noir Fiction and Film* is curiously counterintuitive that in a century of hard boiled fiction and detective films characteristics that at first seemed trivial swelled in importance flourishing into crucial aspects of the genre Among these are aimless descriptions of people and places irrelevant to plot along with detectives consisting of little more than sparkling dialogue and flippant attitudes What weaves together such features however seems to be a paradox that a genre rooted in solving a mystery structured around the gathering of clues must do so by misdirecting our attention even withholding information we think we need to generate the suspense we also desire Yet successful noir stories and films enhance that suspense through passing diversions descriptive details and eccentric perspectives rather than depending on the center pieces of plot alone suspected motives or incriminating traces As the greatest practitioners of the genre have realized the how of detective fiction its stylistic detours draws us in more insistently than the what or the who its linear advance And the achievement of recent film noir is to make that how become the tantalizing object of our entire attention shorn of any pretense of reading for the plot immersing us in the diversionary delight that has animated the genre from the beginning

German Feminist Queer Crime Fiction Faye Stewart, 2014-02-07 A marriage of mystery fiction and queer concerns queer crime literature celebrates the pairing of the political and the sexual Queer crime fiction is a subgenre in which sex gender and sexuality are among the mysteries to be solved Its writers use boundary crossing identities and desires to express social critique inviting readers to interpret queer narratives as literary incursions into cultural traditions From androgynous investigators and serial killer housewives to closeted lesbians and transgendered lovers the characters in queer mysteries are metaphors for changing social and political relations This book reads German language crime stories as allegories about 20th and 21st century upheavals raising questions about human behavior and justice the horrors of extremism the changing shape of the nation and the possibilities of democracy Anchored in the historical contexts of protest cultures and countercultures of the last three decades this study examines novels by popular feminist writers Pieke Biermann Edith Kneifl and Ingrid Noll and unexplored works by Susanne Billig Gabriele Gelien
