## **Faces And Masks:**

**Face and Mask** Hans Belting, 2022-06-14 A cultural history of the face in Western art ranging from portraiture in painting and photography to film theater and mass media This fascinating book presents the first cultural history and anthropology of the face across centuries continents and media Ranging from funerary masks and masks in drama to the figural work of contemporary artists including Cindy Sherman and Nam June Paik renowned art historian Hans Belting emphasizes that while the face plays a critical role in human communication it defies attempts at visual representation Belting divides his book into three parts faces as masks of the self portraiture as a constantly evolving mask in Western culture and the fate of the face in the age of mass media Referencing a vast array of sources Belting's insights draw on art history philosophy theories of visual culture and cognitive science He demonstrates that Western efforts to portray the face have repeatedly failed even with the developments of new media such as photography and film which promise ever greater degrees of verisimilitude In spite of sitting at the heart of human expression the face resists possession and creative endeavors to capture it inevitably result in masks hollow signifiers of the humanity they're meant to embody From creations by Van Eyck and August Sander to works by Francis Bacon Ingmar Bergman and Chuck Close **Face and Mask** takes a remarkable look at how through the centuries the physical visage has inspired and evaded artistic interpretation

maximally facilitate this task For this reason face matching has been studied extensively in Psychology with the bulk of the research conducted since 2010 Forensic face Matching provides readers with a wide ranging detailed and critical overview of facial comparison and face matching providing insights into its application efficacy and limitations in occupational settings and of current scientific knowledge of this task      *Coping with Covid* Sander L. Koole, Klaus Rothermund, 2024-12-02 This book addresses how coping with the pandemic has been shaped by the interplay between cognition and emotion The various contributions to this book explore the impacts of the pandemic on the following a How people were confronted with new risks and realities b Active processes of emotional resilience and ruminative coping and c Moral decision making Taken together the chapters in this volume show how research on cognition and emotion can illuminate the social and emotional strains of the pandemic while helping to identify risk factors that exacerbate these problems and pointing to ways to successfully address and mitigate these problems such as emotion regulation social support and perspective taking This book is a valuable source for students and researchers in the fields of cognitive and affective sciences including social and clinical psychology The chapters in this book were originally published as a special issue of Cognition and Emotion
