Faces Of Jesus In Africa:

Faces of Jesus in Africa Robert J. Schreiter, 1991 Theological and mission worlds have long known the need to radically reinterpret christology for cultural realms not formed by Israelite and Western religious and cultural traditions In *Faces of Jesus in Africa* Robert Schreiter has compiled essays by ten creative French and English speaking African theologians thinkers who are moving beyond prescribing what should be done to actually doing it Christianbook

Faces of Jesus in Africa Robert J. Schreiter, 1992 *Faces of Jesus in Africa* Robert J. Schreiter, 2015-03-24 *The Myriad Christ* Terrence Merrigan, Jacques Haers, 2000 Papers gathered here are the fruit of an international congress held at the Faculty of Theology of the Katholieke Universiteit Leuven 18-21 November 1997 Pref *Christian Reflection in Africa* Paul Bowers, 2018-07-05 This reference collection presents academic reviews of more than twelve hundred contemporary Africa related publications relevant for informed Christian reflection in and about Africa The collection is based on the review journal BookNotes for Africa a specialist resource dedicated to bringing to notice such publications and furnishing them with a one paragraph description and evaluation Now assembled here for the first time is the entire collection of reviews through the first thirty issues of the journal s history The core intention both of the journal and of this compilation is to encourage and to facilitate informed Christian reflection and engagement in Africa through a thoughtful encounter with the published intellectual life of the continent Reviews have been provided by a team of more than one hundred contributors drawn from throughout Africa and overseas The books and other media selected for review represent a broad cross section of interests and issues of personalities and interpretations including the secular as well as the religious The collection will be of special interest to academic scholars theological educators libraries ministry leaders and specialist researchers in Africa and throughout the world but will also engage any reader looking for a convenient resource relating to modern Africa and Christian presence there

God the Revealed Michael Welker, 2013-12-14 God revealed himself in Jesus Christ Christian faith has confessed and proclaimed this message for nearly two thousand years But what does it really mean In *God the Revealed* Michael Welker delves into this declaration and shows how it offers genuine insight into Christian faith He asks Who is Jesus Christ for us today and approaches the answer from five different angles the historical Jesus the resurrection the cross the reign of Christ and eschatology Uniquely Welker argues for the need to place historical Jesus research in a Christology and proposes a Fourth Quest for the historical Jesus

Christology Veli-Matti Kärkkäinen, 2016-04-19 In this revised introduction an internationally respected scholar explores biblical historical and contemporary developments in Christology The book focuses on the global and contextual diversity of contemporary theology including views of Christ found in the Global South and North and in the Abrahamic and Asian faith traditions It is ideal for readers who desire to know how the global Christian community understands the person and work of Jesus Christ This new edition accounts for the significant developments in theology over the past decade *Evangelical Postcolonial Conversations* Kay Higuera Smith, Jayachitra Lalitha, L. Daniel

Hawk,2014-06-05 This groundbreaking volume arose out of the Postcolonial Roundtable in 2010 with contributors addressing the intersection of postcolonialism and evangelicalism Looking at themes like nationalism mission Christology catholicity and shalom this volume explores new possibilities for evangelical thought identity and practice Engaging Coloniality

Raimundo Barreto,Mark A. Lamport,2025-08-19 The fifteen chapters of Engaging Coloniality tell a complex and multifaceted story of Latin American Christianity Latin America was the first region of the colonized world to be Christianized As no form of Christianity preexisted the colonial invasion of Latin America no Latin American Christian story can be told without reference to colonialism Throughout its five hundred year history in Latin America Christianity has taken multiple forms This history is presented as in no other volume available in English Primarily non Eurocentric perspectives alternate between continuity and transformations Rather than emphasizing denominational branches this volume focuses on liberative decolonial and intercultural movements This book is cutting edge scholarship on Latin American religion and theology and the featured contributors represent the extent of a continent where almost six hundred million Christians live today Latin American Christian identity has never been homogeneous and the volume describes countless Christian spiritualities and practices resulting from continuous encounters tensions and negotiations over five centuries These encounters have not taken place in a historical vacuum but as part of a broader history in which visible and invisible power disparities still inform the limits challenges and promises of the Christian experiment in the region **Towards a Christian Theology of African Ancestors**

Thomas Ochieng Otanga,2023-04-21 This book examines the similarities and relationship between Christian saints and African ancestors Further it analyzes the deep cultural roots of African peoples and the ancestral frame as a point of departure for developing an indigenous African theology Questions dealt with include Does the conversion of Africans to Christianity require a break with their African cultural heritage Who is an African ancestor Is syncretism a good thing for an African Christian What contribution can the African church make to the universal church The author argues that rather than being antithetical to formal Christianity an African Christian theology of ancestors is an example of how an indigenous African tradition can best express Christianity as well as make considerable impact on world Christianity *Mapping Systematic Theology in Africa*

Ernst M Conradie,Charl E Fredericks,2004-08-01 The emergence of an indigenous African theology especially since the 1960s is well documented A wealth of literature has been published in the context of African theology especially over the last two or three decades This indexed bibliography contains a number of publications in and for the African context specifically relevant to the fields of systematic theology and ethics **History of Catholic Theological Ethics, A**

Keenan, James F., SJ,2022 An introduction to Catholic theological ethics through the lens of its historical development from the beginning of the church until today *The Non-Western Jesus*

M. E. Brinkman, Henry Jansen, Lucy Jansen,2014-12-18 The centre of gravity of contemporary Christianity has shifted to the southern hemisphere where with the exception of Latin America almost all Christians are minorities in their home countries Christians in Asia live amongst

Muslim Hindu Buddhist Shamanist or Taoist majorities and this context shapes the local Christian theology The same is true in Africa where traditional religions and beliefs influence African Christians Central to this change in both Africa and Asia is the creation of a new Jesus one who accretes local beliefs and concerns and who in that process is transformed The Non Western Jesus reveals how a new theology with its own images and concepts is coming into being A wide range of embodiments of Jesus is examined Jesus as Avatara and Guru in the Indian context as Bodhisattva in the Buddhist context and Jesus within Asian Chinese Japanese Korean African and Indonesian religious contexts *Seeking the Asian Face of Jesus* Chris Sugden,1997 **An Introduction to Theology in Africa and the Kpelelogical Foundations of Christian**

Theology Charles Amarkwei,2021-10-12 In this book African Christian theology is introduced as a Kpelelogical reflection about life in the context of Africa which exists in the context of the cosmos Kpelelogy is the ontological mode of being grasped by the agape of God in Christ by grace through faith in the power of the Holy Spirit By this mode African theology is introduced by way of a definition a principle of paradox and a description as well as a critical view of the works of African theologians It examines the issues of method criteria and sources of doing theology in Africa and introduces the method of Kpelelogy as an African theological method This is explored further as a holistic theological method that is conscious of its being in existence and its life in history that is driven by faith in the triune God in a pneumatic experience that has been termed in this book as the Kpelelogical ontological mode The book is ecumenical in view of its engagement with Christian tradition It presents a Kpelelogical theology that is concretely African and universally Christian in the Okpelejen Wulormor the cosmic Jesus Christ who is and was but beyond the munus triplex Priest King and Prophet threefold office of Jesus Christ that is to come Hence it is a theology which embraces elements of Reformed Lutheran Methodist Pentecostal Charismatic Roman Catholic and Eastern Orthodox theological insights in the African context **Theology in the Context of World**

Christianity Timothy C. Tennent,2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume

valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ s global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity

Jesus without Borders Gene L. Green, Stephen T. Pardue, K. K. Yeo, 2015-01-14 Though the makeup of the church worldwide has undeniably shifted south and east over the past few decades very few theological resources have taken account of these changes Jesus without Borders the first volume in the emerging Majority World Theology series begins to remedy that lack bringing together select theologians and biblical scholars from various parts of the world to discuss the significance of Jesus in their respective contexts Offering an excellent glimpse of contemporary global evangelical dialogue on the person and work of Jesus this volume epitomizes the best Christian thinking from the Majority World in relation to Western Christian tradition and Scripture The contributors engage throughout with historic Christian confessions especially the Creed of Chalcedon and unpack their continuing relevance for Christian teaching about Jesus today

The New Faces of Christianity Philip Jenkins, 2006-09-01 Named one of the top religion books of 2002 by USA Today Philip Jenkins s phenomenally successful The Next Christendom permanently changed the way people think about the future of Christianity In that volume Jenkins called the world s attention to the little noticed fact that Christianity s center of gravity was moving inexorably southward to the point that Africa may soon be home to the world s largest Christian populations Now in this brilliant sequel Jenkins takes a much closer look at Christianity in the global South revealing what it is like and what it means for the future The faith of the South Jenkins finds is first and foremost a biblical faith Indeed in the global South many Christians identify powerfully with the world portrayed in the New Testament an agricultural world very much like their own marked by famine and plague poverty and exile until very recently a society of peasants farmers and small craftsmen In the global South as in the biblical world belief in spirits and witchcraft are commonplace and in many places such as Nigeria Indonesia and Sudan Christians are persecuted just as early Christians were Thus the Bible speaks to the global South with a vividness and authenticity simply unavailable to most believers in the industrialized North More important Jenkins shows that throughout the global South believers are reading the Bible with fresh eyes and coming away with new and sometimes startling interpretations Some of their conclusions are distinctly fundamentalist but Jenkins finds an intriguing paradox for they are also finding ideas in the Bible that are socially liberating especially with respect to women s rights Across Africa Asia and Latin America such Christians are social activists in the forefront of a wide range of liberation movements It s hard to overstate how interesting how eye opening how frequently surprising and sometimes disturbing Jenkins findings are Anyone interested in the implications of these trends for the major denominations for Muslim Christian conflict and for global politics will find The New Faces of Christianity provocative and incisive and indispensable
