

The background of the book cover is a tropical beach scene. Several palm trees with green fronds lean from the left side towards the center. The sky is a clear, pale blue with a few wispy white clouds. In the foreground, the ocean is a deep blue. A person is wading in the shallow water near the shore, and another person is sitting in a small wooden boat further out. Two yellow hibiscus flowers are positioned on either side of the subtitle, partially overlapping the text.

Faces Of The Islands When Pacific Islander And American Ways Meet:

Faces of the Islands Willard C. Muller, 2002 This book is about the people of some remote incredibly beautiful Pacific islands near the equator and the small band of mostly young and middle aged Americans sent out to help prepare them for a better life including independence The author former American Consul and Administrator of part of the middle Carolines takes readers for close up looks to almost experience their fascinating islands culture The author concludes knowledge of culture is a must if foreigners assigned to any foreign country hope to work there effectively **Making Micronesia** David L. Hanlon, 2014-04-30 Making Micronesia is the story of Tosiwo Nakayama the first president of the Federated States of Micronesia FSM Born to a Japanese father and an island woman in 1931 on an atoll northwest of the main Chuuk Lagoon group Nakayama grew up during Japan s colonial administration of greater Micronesia and later proved adept at adjusting to life in post war Chuuk and under the American administered Trust Territory of the Pacific Islands After studying at the University of Hawai i Nakayama returned to Chuuk in 1958 and quickly advanced through a series of administrative positions before winning election to the House of Delegates later Senate of the Congress of Micronesia He served as its president from 1965 to 1967 and again from 1973 to 1978 More than any other individual Nakayama is credited with managing the complex political discussions on Saipan in 1975 that resulted in a national constitution for the different Micronesian states that made up the Trust Territory A proponent of independence he was a key player in the lengthy negotiations with the U S government and throughout the islands that culminated in the Compact of Free Association and the eventual creation of the FSM In 1979 Nakayama was elected the first president of the FSM and spent the next eight years working to solidify an island nation and to see the Compact of Free Association through to approval and implementation One wonders what the contemporary political configuration of the western Pacific would look like without Tosiwo Nakayama His story however involves much more than a narrative of political events Nakayama s rise to prominence constitutes a remarkable story given the physical political and cultural distances he negotiated His engagements with colonialism decolonization and nation making place him squarely in the middle of the most important issues in twentieth century Pacific Islands history The study of his life also invites a reconsideration of migration transnational crossings and the actual size of island worlds Making Micronesia follows Nakayama s life through time focusing on the expansiveness of his vision In many ways Macronesia not Micronesia seems a more appropriate term for the world he inhabited and tried to make accessible to others **Forthcoming Books** Rose Arny, 2003-04 **The Growth and Collapse of Pacific Island Societies** Patrick Vinton Kirch, Jean-Louis Rallu, 2007-04-30 Were there major population collapses on Pacific Islands following first contact with the West If so what were the actual population numbers for islands such as Hawai i Tahiti or New Caledonia Is it possible to develop new methods for tracking the long term histories of island populations These and related questions are at the heart of this new book which draws together cutting edge research by archaeologists ethnographers and demographers In their accounts of exploration early

European voyagers in the Pacific frequently described the teeming populations they encountered on island after island Yet missionary censuses and later nineteenth century records often indicate much smaller populations on Pacific Islands leading many scholars to debunk the explorers figures as romantic exaggerations Recently the debate over the indigenous populations of the Pacific has intensified and this book addresses the problem from new perspectives Rather than rehash old data and arguments about the validity of explorers or missionaries accounts the contributors to this volume offer a series of case studies grounded in new empirical data derived from original archaeological fieldwork and from archival historical research Case studies are presented for the Hawaiian Islands Moorea the Marquesas Tonga Samoa the Tokelau Islands New Caledonia Aneityum Vanuatu and Kosrae *Books In Print 2004-2005* Ed Bowker Staff,Staff Bowker, Ed,2004

Embracing the Track of Expression: An Mental Symphony within **Faces Of The Islands When Pacific Islander And American Ways Meet**

In some sort of eaten by screens and the ceaseless chatter of quick interaction, the melodic elegance and mental symphony created by the prepared word frequently fade into the backdrop, eclipsed by the constant noise and interruptions that permeate our lives. However, set within the pages of **Faces Of The Islands When Pacific Islander And American Ways Meet** an enchanting fictional value full of raw thoughts, lies an immersive symphony waiting to be embraced. Crafted by an elegant musician of language, this charming masterpiece conducts visitors on a psychological trip, well unraveling the hidden songs and profound affect resonating within each carefully constructed phrase. Within the depths with this touching evaluation, we shall investigate the book is main harmonies, analyze their enthralling writing style, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
