*Attentiveness to Vulnerability* Daniel J. Fleming, 2019-04-24 This book is an attempt to develop a dialogue between the philosophy of Emmanuel Levinas Jean Porter's Thomistic theory of the natural law and the virtue of solidarity as expressed in Catholic Social Teaching It seeks to explore the implications that such a dialogue would have for our understanding of moral reasoning Attentiveness to Vulnerability rests on the hypothesis that it is possible to develop a set of robust links between these thinkers and bodies of thought markedly different as they are in terms of philosophical disposition and framework Such links specify the ethical implications of Levinas thought and develop Porter's theory in an original way This work requires further specification through a developed anthropology which allows for expansion within the tradition of Catholic theological ethics The inclusion of Levinas and a focus on the virtue of solidarity allows for an advancement of virtue theory and theological ethics to the extent that the virtue of solidarity becomes a key aspect of any ethical reasoning

*Caesar Ate My Jesus* Meg Gorzycki, 2017-06-09 What the hell happened on the way to making the world a better place We boomers were told our success would be unlimited We had democracy and capitalism and God was on our side We took our religious teachings seriously and set out to end bigotry violence and destitution Inevitably we collided with American Caesars whose power and wealth was sufficient to dominate national and international affairs Political and religious Caesars appropriated Jesus and used him to justify war sexism racism dictatorships and poverty What were the faithful to do Lots of boomers I know tossed the spiritual baby out with the religious institution's bathwater and became cynical about civic engagement It is not time to abandon hope in our goodness however and it is not time to surrender our conscience to Caesar Our experiences as boomers teach us that it is possible to bring the love of God to bear in our lives despite Caesar's constant pressure to cherish power wealth celebrity and things more than we cherish people This book is for folks who are ready to get off Caesar's treadmill and dig deeply into their hearts and minds to see what remains of the Kingdom of God within

unpunished in some societies While the defenders of human rights argue that violence against a human being for whatsoever reason and under whatsoever condition is a violation of a human right an assault a crime the domestic violence against women seems to slip easily through the net of that universally accepted convention law To state this in a clear language one can simply say that violence is an act that is undesirable and unwanted in human dealings be it outside or within the domestic settings Owing to the fact that the homes as a setting for familial living are hoped to be known for the perpetration and the manifestation of unconditional love among the family members presumably the place par excellence for human living how could someone explain the perpetration such an atrocious and abhorrent act be in these places Many explanatory hypotheses have been stated sexism kyriarchy But whatever the reason behind the phenomenon of domestic violence against women could be the truth of the matter reminds that physical violence in the homes is undesired and is an assault like any other form of violence it s dreadful and should be done away with It is disheartening and disgusting to observe that some women even up today are still living in fear under the perpetual threats of beats in a place that they dreamed and hoped to be the place par excellence for peace love and serenity If the Universal Declaration of human rights states that men and women are born equal in right and dignity this ideology and the likes are simply unjust and unfair Nevertheless if men and women of course are willing this situation can change and it has to change indeed The fight against physical domestic violence against women is never a fight of women against men it is rather a fight of all human beings against some tendencies and ideologies that hinder a peaceful and harmonious living together both in the homes and in the societies Therefore all the competent forces powers and organisations need to be mobilised to join together their efforts in order to conquer this unwanted but tolerated crime The relationship between men and women in the homes should not and cannot be based on power control of the partner violence is simply an act that is uncalled for in human dealings Men and women need to be schooled both culturally and formally in that regard

*Earth Ethics* Martin-Schramm, James, Stivers, Laura, Spencer, Daniel, 2015-11-01 This valuable classroom resource explores a number of issues in social and environmental ethics and provides resources for engaging in ethical reflection about them Nine cases explore issues like population growth material consumption and climate change water rights and species conservation genetic engineering and food security in Sub Saharan Africa hydraulic fracturing and greenhouse gas reduction options and mountaintop coal removal mining and fossil fuel divestment Utilizing the tried and true case method approach pioneered by the Harvard Business School the case studies present material in a clear and relevant fashion and allow instructors to select discrete issues for study and discussion

*American Book Publishing Record* ,2003      **Forthcoming Books** Rose Arny,2003      **Handbook of Moral and Character Education** Larry Nucci,Tobias Krettenauer,2014-04-24 There is widespread agreement that schools should contribute to the moral development and character formation of their students In fact 80% of US states currently have mandates regarding character education However the pervasiveness of the support for moral and character education masks

a high degree of controversy surrounding its meaning and methods The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive research oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future Now in its second edition this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings and much more
