Menéndez,Isabella Paoletti,Maria Isabel Tomás,2013-07-26 This book is intended for social sciences researchers in a variety  
of disciplines including sociology sociolinguistics psychology gerontology and ethnography who during all stages of their  
research be it quantitative or qualitative are confronted with ethical dilemmas As such the chapters in this book provide the  
reader with examples of ethical reflection within the research process The selection does not cover all the possible ethical  
issues they may face but all of the chapters deal with the complex and unexpected but fundamental ethical questions that  
arise before during and after fieldwork and which do not always find clear guidance from the professional ethical codes they  
submit to The studies in this book contribute to the present debate on ethical issues in social sciences research in addition to  
problematizing a normative approach to ethics in social sciences research and highlighting the importance of considering the  
social character of research activities when applying ethical guidelines or Research Ethic Committees prescriptive

procedures These essays document researchers practical moral reasoning in carrying out their research activities and in complying with the relevant legislation in relation to protecting research participants Practices of ethics are identified and made describable they are made the object of empirical documentation This book shows that a new empirical approach to ethics as a discipline is emerging having practices of ethics as its specific object of study

Harcourt,2020-08-11 Critical philosophy has always challenged the division between theory and practice At its best it aims to turn contemplation into emancipation seeking to transform society in pursuit of equality autonomy and human flourishing Yet today s critical theory often seems to engage only in critique These times of crisis demand more Bernard E Harcourt challenges us to move beyond decades of philosophical detours and to harness critical thought to the need for action In a time of increasing awareness of economic and social inequality Harcourt calls on us to make society more equal and just Only critical theory can guide us toward a more self reflexive pursuit of justice Charting a vision for political action and social transformation Harcourt argues that instead of posing the question What is to be done we must now turn it back onto ourselves and ask and answer What more am I to do Critique and Praxis advocates for a new path forward that constantly challenges each and every one of us to ask what more we can do to realize a society based on equality and justice Joining his decades of activism social justice litigation and political engagement with his years of critical theory and philosophical work Harcourt has written a magnum opus **Yogic Science for Health and Mental Wellbeing** Pritam Kumar Sinha , In a
