What's Wrong with Morality? Charles Daniel Batson, 2016. Most works on moral psychology consider morality an unalloyed good. Drawing primarily on social psychological theory and research, this book looks at morality as a problem. The problem is that we often fail to live up to our own moral standards. Why? Moral Character Christian B. Miller, 2013-05-09. Most of us are not virtuous people, but neither are we vicious. Diagnostics for Experimental Thermonuclear Fusion Reactors 2 Peter E. Stott, Giuseppe Gorini, Paolo Prandoni, 2012-12-06. This book of proceedings collects the papers presented at the workshop on Diagnostics for Experimental Fusion Reactors held at Villa Monastero, Varenna, Italy, September 4-12, 1997. This workshop was the seventh organized by the International School of Plasma Physics. Piero Caldirola, on the topic of plasma diagnostics, and the second devoted to the diagnostic studies for the International Thermonuclear Experimental Reactor ITER. The proceedings of the first workshop on ITER diagnostics were published by Plenum Press in 1996 with the title *Diagnostics for Experimental Thermonuclear Fusion Reactors*. While many of the ideas and studies reported in the first workshop remain valid, there has been substantial progress in the design and specification of many diagnostics for ITER. This motivated a second workshop on this topic and the publication of a new book of proceedings. ITER is a joint venture between Europe, Japan, Russia, and USA in the field of controlled thermonuclear fusion research. The present

aim of ITER is to design an experimental fusion reactor that can demonstrate ignition and sustained burn in a magnetically confined plasma To achieve this goal a wide range of plasma parameters will have to be measured reliably It is also anticipated that diagnostics will be used much more extensively as input to control systems on ITER than on present fusion devices and this will require increased reliability and long term stability
