Factory Acts In Ireland 18021914:

The Factory Acts in Ireland, 1802-1914 Desmond S. Greer, James W. Nicolson, 2003 Working conditions in Irish industry prior to 1914 were frequently harsh and dangerous particularly for women young persons and children Successive Factory Acts designed primarily for industrial conditions in Great Britain sought to ameliorate the plight of these protected workers in the face of considerable opposition This book examines the development of this early health and safety legislation the system of inspection by which it was enforced and the peculiar problems which the factory inspectors encountered in Ireland while seeking to ensure that minimum standards were observed notwithstanding local social and economic constraints

Publisher description *Industry and Policy in Independent Ireland, 1922-1972* Frank Barry, 2023-09-07 This book revisits the history of industry and industrial and economic policy in independent Ireland from the birth of the state to the eve of EEC accession Though there were several manufacturing employers of significance and smaller firms in operation in almost every major branch of industry the Irish Free State was predominantly agricultural at its establishment in 1922 Industrial development was high on the nationalist agenda as would be the case across the entire developing world in the later post colonial era Despite decades of protection and a substantial increase in the size of the manufacturing sector Ireland remained under industrialised when it joined the European Economic Community in 1973 Over the previous decade and a half however the foundations of later convergence had been laid Ireland was an early adopter of what would come to be known as dual track reform The policy of attracting outward oriented foreign direct investment was initiated before substantial trade liberalisation began By 1972 there had been a significant diversification in export categories and export destinations and in the nationality of ownership of the leading manufacturing firms Some of the most successful indigenous companies of the future were also beginning to emerge In these and other respects the foundations of the economic progress that would be made over the course of EEC membership were already discernible notwithstanding the post accession collapse of most protectionist era businesses The analysis is supplemented by a unique firm level database that allows for the identification of the leading manufacturing firms in operation at any stage from the early 1900s through to 1972 The database extends by more than 50 years the period for which estimates of the significance of foreign owned industry can be provided

Protestant elite sustained a determined rear guard defence in the face of the emergence of modern Catholic nationalism Employing a chronology that is not bound by traditional datelines this volume moves beyond the familiar political narrative to engage with the economy society population emigration religion language state formation culture art and architecture and the Irish abroad It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that while focused firmly on the island and its traditions moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty first century Trouble at the Mill Aditya Sarkar,2018-01-03 The colonial administration passed a Factory Act in 1881 producing the first official definition of factory in modern Indian history as a workplace using steam power and regularly employing over 100 workers In 1891 the Act was amended factories were redefined as workplaces employing over 50 workers the upper age limit of legal protection was raised weekly holidays were established and women mill workers were brought within its ambit Sarkar analyses the two versions of the Act and reveals the tensions inherent within the project of protective labour regulation Combining legal and social history he identifies an emergent factory question The cotton mill industry of Bombay long considered as one of the birthplaces of modern Indian capitalism is the principal focal point of his investigation Factory law though experienced as a minor official initiative connected with some of the most potent ideological debates of the age Trouble at the Mill explores a shifting set of themes and raises questions rarely thematized by labour historians the ideologies of factory reform the politics of factory commissions the routines of factory inspection and the earliest waves of strike action in the cotton textile industry in the last quarter of the nineteenth century **Politics, Society and the Middle Class in Modern Ireland** F. Poynings' Law and the Making of Law in Ireland, 1660-1800 James Kelly, 2007 Poynings Law 1494 was one of the most crucial statutes ever enacted by the Irish parliament yet the law's crucial impact on parliament's operations from 1660 has never been examined systematically James Kelly examines how Poynings Law impacted on the legislative operations of the Irish parliament between the Restoration and the Act of Union and he establishes how the Irish parliament contrived first by evolving a sophisticated heads of bills process in the late 17th century second by curtailing the power of the Irish privy council in the early 18th century and finally by securing the amendment of Poynings Law in 1782 to achieve a degree of legislative independence that endured until the Act of Union Based on a close and detailed scrutiny of the records of the Irish parliament and the systematic exploration for the first time of the voluminous records of the British privy council this book provides a new revealing perspective on the working of the Irish parliament its relationship with the Irish executive and on the nature of the Anglo Irish connection Series Irish Legal History Society *Irish Historical Studies*, 2004 Vols 1 include the sections Writings on Irish history 1936 1979 Research on Irish history in Irish British and American universities 1937 8 Saothar, 2002 *Essays in Irish Labour History* Francis Devine, Fintan Lane, Niamh Puirseil, 2008 *Essays in Irish Labour History* is a tribute to the late Professor John W Boyle University of Guelph Canada and a leading practitioner of Irish labour history and his late wife Elizabeth Boyle's specialism was in nineteenth century labour history with a particular emphasis on Dublin and Belfast cities to which he had academic and personal attachments and these interests are well reflected in this book The history of labour in Ulster is especially well covered as is that of Protestant workers throughout the island The collection also includes substantial scholarly articles that reflect ongoing research and areas that have thus far been neglected such as the place for casual labour in nineteenth century Ireland and the impact of religion on the Irish Labour Party 1922 73 The range of topics is broad and includes an obituary essay on the Boyles and an interrogation of Irish historiography and the working class
