**Sufism and Zen in the West** Saeko Yazaki, Michael Conway, 2025-02-20 Historically and culturally Sufism and Zen may not seem to have anything in common. However, in the West, their spiritual messages are often perceived as strikingly similar. In this book, scholars analyse the ways in which Sufism and Zen were introduced to and developed in the West. The collection shows that the popularity of these religions arose not because of the substantive shared elements within the two traditions but because their promoters in the West employed similar strategies to respond to the interests of a modern Western audience. The first book to make a close comparison of Sufism and Zen, this study is an important contribution to understanding Western religious life and processes of easternisation. It sheds new light on how Sufism and Zen came to represent a spirituality that is both countercultural and in touch with modern sensitivities.

**Tantra Veda and Mysticism** Lalan Prasad Singh, 2022-01-01 The book is a collection of some of the papers that were presented by the author at various International and National Conferences and Seminars. They broadly highlight the author's foray in the world of Indian mysticism, metaphysics, Tantra, and Veda that form the essence of Indian Cultural and Philosophical thinking. Tantra and Veda are warp and woof, and mysticism is a central principle that preserved and made Indian culture and civilization alive and vibrant. The theme that runs in these papers essentially tries to explain that life is a narrative of cosmic drama of which Cosmic Consciousness Brahman is the choreographer and witnessing entity. Cosmic Consciousness Brahman is the substance and substratum of cosmic drama. All science and philosophy are geared to understand and unravel Ontological Mysticism. This is a sublime task that Indian saints and seers have been trying to explore and experience through ages. This book highlights the core values of Indian Culture such as universal brotherhood, tolerance, compassion, non-violence, and humanism.

**The Concept of Bodhicitta in Śāntideva's Bodhicaryāvatāra** Francis Brassard, 2012-02-16 This book explores an important concept within the Buddhist Mahāyāna tradition: bodhicitta. This term appears frequently in Sanskrit literature relating to the spiritual practices of the bodhisattva in Mahāyāna Buddhism and has been variously translated as thought of enlightenment or desire of enlightenment. Francis Brassard offers a contextual analysis of bodhicitta based on the presuppositions underlying the spiritual practice of the bodhisattva. Since the understanding that emerges involves how one ought to view the process of spiritual transformation, this work contributes to Buddhist psychology and soteriology in particular and to comparative religions in general. The book surveys the various interpretations of the concept of bodhicitta, analyzes its possible functions in the context of the spiritual path of the aspirant to enlightenment, and discusses an understanding of bodhicitta in the context of the Śāntideva's Bodhicaryāvatāra.
