William Satariano

Facts And Research In Gerontology 1992 Epidemiology:

Facts and Research in Gerontology, 1992 J. L. Albarede, Bruno J. Vellas, 1992 *Facts and Research in Gerontology*. 1992- , 1992 **Facts and Research in Gerontology**, 1993 Epidemiology and Aging Facts and Research 1994 Bruno J. Vellas, J. L. Albarede, 1994-06-01 Epidemiology of Aging William Satariano, 2006 Epidemiology of Aging An Ecological Approach is the first title to provide a comprehensive overview of the epidemiology of aging utilizing an ecological model Using this approach the author highlights the interplay of biological social and environmental factors affecting individuals families and communities With a strong interdisciplinary focus this book provides a clear coherent structure to address the diversity of topics in this increasingly vital field **Epidemiology** K. Vuylsteek, Manuel Hallen, 1994 Epidemiology is the study of the distribution and determinants of health related states or events in specified populations and the application of this to the control of health Handbook of Clinical Geropsychology Michel Hersen, Vincent B. Van Hasselt, 2013-11-22 Over the last two decades the number of persons over 65 has increased by 65% Handbook of Clinical Geropsychology focuses attention on how the contributions of clinical psychology address the problems faced by this enormous population In the first part chapters cover a historical perspective clinical geropsychology and U S federal policy psychodynamic issues and other key topics Part II details assessment and treatment for a wide range of disorders affecting the elderly Part III considers such special issues as family caregiving minority issues physical activity and elder abuse and neglect *Ethics and Epidemiology* Steven Scott Coughlin, Tom L. Beauchamp, 1996 Written by epidemiologists ethicists and legal scholars this book provides an in depth account of the moral problems that often confront epidemiologists including both theoretical and practical issues The topics covered include informed consent privacy and confidentiality protection the balancing of risks and benefits ethical issues in the study of vulnerable populations the institutional review board system and professional education The solid up to date analyses of these issues will be very helpful to epidemiologists in their practice research and teaching They encourage the latest developments in the field and include detailed bibliographies **Federal Forum** Federal Interagency Forum on Aging-Related Statistics (U.S.), 1995 Handbook of Aging and the Social Sciences Linda George, Kenneth Ferraro, 2015-08-18 Handbook of Aging and the Social Sciences Eighth Edition presents the extraordinary growth of research on aging individuals populations and the dynamic culmination of the life course providing a comprehensive synthesis and review of the latest research findings in the social sciences of aging As the complexities of population dynamics cohort succession and policy changes modify the world and its inhabitants in ways that must be vigilantly monitored so that aging research remains relevant and accurate this completely revised edition not only includes the foundational classic themes of aging research but also a rich array of emerging topics and perspectives that advance the field in exciting ways New topics include families immigration social factors and cognition caregiving neighborhoods and built environments natural disasters religion and health and sexual behavior amongst others Covers the key areas in sociological gerontology research in one

volume with an 80% update of the material Headed up by returning editor Linda K George and new editor Kenneth Ferraro highly respected voices and researchers within the sociology of aging discipline Assists basic researchers in keeping abreast of research and clinical findings Includes theory and methods aging and social structure social factors and social institutions and aging and society Serves as a useful resource an inspiration to those searching for ways to contribute to the aging enterprise and a tribute to the rich bodies of scholarship that comprise aging research in the social sciences Medical and Health Care Books and Serials in Print ,1997 Practical Geriatric Oncology Arti Hurria,Harvey Jay Cohen,2010-09-13 The risk of cancer increases with age and the number of older adults seeking treatment is increasing dramatically in line with the aging population The care of older patients differs from that of younger adults because of differences in the biology of the tumor age related differences in host physiology comorbidity burden and psychosocial issues which might impact the efficacy and side effects of cancer therapy Practical Geriatric Oncology is a comprehensive evidence based text that synthesizes the growing literature in this field and provides practical guidelines to the care of older adults with cancer Coverage includes patient assessment management of solid tumors and hematologic malignancies the impact of age on the pharmacology of cancer therapy surgical oncology and radiation oncology in the older adult symptom management and supportive care In addition to serving as core reading for oncologists and hematologists the book will also be a useful work for other healthcare professionals who provide oncology care including surgeons radiation oncologists palliative care doctors primary care providers geriatricians and nurses *Prevention and Management of Osteoporosis* World Health Organization,2003-12-31 Bone is hard tissue that is in a constant state of flux being built up by bone forming cells called osteoblasts while also being broken down or resorbed by cells known as osteoclasts During childhood and adolescence bone formation is dominant bone length and girth increase with age ending at early adulthood when peak bone mass is attained Males generally exhibit a longer growth period resulting in bones of greater size and overall strength In males after the age of 20 bone resorption becomes predominant and bone mineral content declines about 4% per decade Females tend to maintain peak mineral content until menopause at which time it declines about 15% per decade Osteoporosis is a disease characterized by low bone mass and structural deterioration of bone tissue leading to bone fragility and an increased susceptibility to fractures especially of the hip spine and wrist Osteoporosis occurs primarily as a result of normal ageing but can arise as a result of impaired development of peak bone mass e g due to delayed puberty or undernutrition or excessive bone loss during adulthood e g due to estrogen deficiency in women undernutrition or corticosteroid use Osteoporosis induced fractures cause a great burden to society Hip fractures are the most serious as they nearly always result in hospitalization are fatal about 20% of the time and produce permanent disability about half the time Fracture rates increase rapidly with age and the lifetime risk of fracture in 50 year old women is about 40% similar to that for coronary heart disease In 1990 there were 1.7 million hip fractures alone worldwide with changes in population demographics this figure is expected to rise to 6 million by

2050 To help describe the nature and consequences of osteoporosis as well as strategies for its prevention and management a WHO Scientific Group meeting of international experts was held in Geneva which resulted in this technical report This monograph describes in detail normal bone development and the causes and risk factors for developing osteoporosis The burden of osteoporosis is characterized in terms of mortality morbidity and economic costs Methods for its prevention and treatment are discussed in detail for both pharmacological and non pharmacological approaches For each approach the strength of the scientific evidence is listed The report also provides cost analysis information for potential interventions and discusses important aspects of developing national policies to deal with osteoporosis Recommendations are made to the general population care providers health administrators and researchers Lastly national organizations and support groups are listed by country

The Encyclopedia of Aging George L. Maddox, 2013-12-11 Comprehensive multidisciplinary encyclopedia dealing with aging processes and older adults Intended for the educated inquirer who needs a brief authoritative introduction to key topics and issues in aging Signed entries contain cross references Contains lengthy bibliography General index

National Institutes of Health Annual Report of International Activities John E. Fogarty International Center for Advanced Study in the Health Sciences, 1989

The Epidemiology of Aging Anne Newman, Jane A. Cauley, 2012-12-12 The average age of the world's population is increasing at an unprecedented rate and this increase is changing the world This Silver tsunami emphasizes the need to provide advanced training in epidemiology and increase the cadre of experts in the study of aging This book is designed to summarize unique methodological issues relevant to the study of aging biomarkers of aging and the biology physiology of aging and in depth discussions of the etiology and epidemiology of common geriatric syndromes and diseases Contributing authors in the book represent many disciplines not only epidemiology and clinical geriatrics but also demography health services research cardiovascular disease diabetes psychiatry neurology social services musculoskeletal diseases and cancer The aim of the book is to provide a broad multidisciplinary background for any student researcher interested in aging The material in the book is organized and comprehensive It represents the most up to date information on the scientific issues in aging research written by academics who specialize in research and training in the broad field of aging The structure and organization of the book reflects our course series in the Epidemiology of Aging starting with the broad issues of demography and methodology and then addressing specific health conditions and geriatric conditions common to older persons
