## **Fags Hags And Queer Sisters Gender Dissent And Heterosocial Bonding In Gay Culture:**

Fags, Hags and Queer Sisters S. Maddison, 2000-10-25 *Fags Hags and Queer Sisters* is a provocative account of the importance of women and cross gender identification in gay male culture. It offers a range of cultural readings from Tennessee Williams's classic *A Streetcar Named Desire* and Forster's gay novel *Maurice* through Pulp Fiction, queer lifestyle magazines, Roseanne slash fan fiction and Jarman's *Edward II* to Almodovar's camp classic *Women on the Verge of a Nervous Breakdown*. Theoretically sophisticated yet passionate, accessible and opinionated, *Fags Hags and Queer Sisters* takes issue with many of the sacred cows of contemporary gay politics and offers a number of new concepts in lesbian and gay theory.

*Gender, Race and Class in Media* Gail Dines, Jean M. Humez, 1994-10-31 This text introduces students to contemporary media scholarship in an accessible way that builds upon students' own media experiences and interests, analyzing popular genres such as soaps, talk shows, music, pornography, made-for-TV movies, advertising, and romance novels. The introduction delineates the major paradigms in media studies today from a critical cultural perspective. It outlines the book's integrated approach to media studies, which incorporates three distinct but related areas of investigation: political economy of production, textual analysis, and audience response/resistance. The introductions to the parts provide a framework for understanding and analyzing how gender, race, and class are structural and experiential.

*Networked Affect* Ken Hillis, Susanna Paasonen, Michael Petit, 2015-02-27 Investigations of affective experiences that emerge in online settings that range from Facebook discussion forums to smart classrooms. Our encounters with websites, avatars, videos, mobile apps, discussion forums, GIFs, and nonhuman intelligent agents allow us to experience sensations of connectivity, interest, desire, and attachment, as well as detachment, boredom, fear, and shame. Some affective online encounters may arouse complex, contradictory feelings that resist dualistic distinctions. In this book, leading scholars examine the fluctuating and altering dynamics of affect that give shape to online connections and disconnections. Doing so, they tie issues of circulation and connectivity to theorizations of networked affect. Their diverse investigations consider subjects that range from online sexual dynamics to the liveliness of computer code, demonstrate the value of affect theories for Internet studies. The contributors investigate networked affect in terms of intensity, sensation, and value. They explore online intensities that range from Tumblr practices in LGBTQ communities to visceral reactions to animated avatars, examine the affective materiality of software in such platforms as steampunk culture and nonprofit altporn, and analyze the ascription of value to online activities including the GTD (getting things done) movement and the accumulation of personal digital materials. Connecting Sociology to Our Lives Tim Delaney, 2015-11-17 Many introductory texts claim to make sociology relevant to student interests Perhaps no other text has done this so completely and engagingly as Connecting Sociology to Our Lives Tim Delaney not only uses popular and contemporary culture examples he explains sociology thoroughly within the frame of the contemporary culture of students a culture shaped by political economic and environmental trends just as much as by today s pop stars This book will help

academics to engage their students in sociology through the prism of their own culture It involves students in critical thinking and classroom discussion through the book's many What Do You Think inserts and will inspire them to careers with the book's unique chapter Sociology's Place in Society Completing the Connection     *Uncertain Justice* Nicoletta Di Ciolla, 2020-05-22 The crime genre entered Italy in the late nineteenth century and if initially Italian authors followed models developed abroad principally in the United States England and France a uniquely Italian brand began to emerge soon Il giallo as the crime genre has been known in Italy since the 1930s proved to be the ideal instrument to confront pressing and often uncomfortable issues which were pertinent to the Italian context it became a useful tool to restore symbolically at least the truth and justice that were and still are perceived by a large part of the Italian reading public to be systematically denied in reality In today's Italy the crime genre and particularly its noir sub genre narrates so that readers might remember so that they might take heed and action turning cognition into an act of resistance against oblivion and of rebellion against injustice *Uncertain Justice* explores three broad areas that contemporary Italian noir literature appears particularly keen to debate retrieving them from the silence to which they might otherwise be consigned unresolved historical and political legacies the repercussions of which still inform and affect life and practices in the present times the problematic institution of the family considered as the bedrock of Italian culture and the founding principle of Italian society with specific attendant questions of gender politics and the justice system seen through some of its operators nominally in charge of putting the wrongs right and frequently accused of preventing this from happening These explorations are conducted through an analysis of texts published in the last twenty years which represent an effort to expose and counter injustice through the power of the word Crime literature authors often revisit recent Italian history in their novels and genre fiction plays a prominent role in acts of resistance against cover ups or revisionist views of history The volume starts with an analysis of this role through novels that look back at the years of the fascist regime and more recently at the period from the anni di piombo onwards It then considers the contribution made to the giallo and noir genre by women writers looking at the effects that female practitioners in Italy have had on the ethics and aesthetics of a genre that in other cultures has traditionally been firmly conservative A further section examines novels set in a familial context and looks at a range of family dynamics expressed in the relationships between mothers and sons mothers and daughters large extended families or small nuclear ones If some of the texts expose the devastating effects of the violence perpetrated in the name of love others more positively offer hope demonstrating how more desirable options do exist and can be pursued Finally the volume looks at justice as a system and at its practitioners as in an interesting development peculiar to Italy a significant number of judges lawyers and senior police officers have recently become involved in crime fiction writing The concluding chapter investigates the contribution that these specialists who have extensive theoretical and technical knowledge in a field which crime fiction routinely frequents can make to the genre it also analyses whether these authors who bring together the moral function of unveiling the truth

prerogative of the investigator and the social function of rectifying a wrong prerogative of the upholders of the law may have a role in forming a more ethically and socially aware Italian citizen
