Failed Promise:

American Literary Realism and the Failed Promise of Contract Brook Thomas, 2023-04-28 In *American Literary Realism and the Failed Promise of Contract* the author explores the interplay between contract law and literary realism in late nineteenth century America a time when both contract law and realism shaped cultural legal and social landscapes The text argues that while contract law in theory emphasized the freedom to negotiate obligations among individuals it fell short in practice by failing to dismantle deeply entrenched inequalities associated with race class and gender The era's literature mirrored this dynamic as authors highlighted the gap between the idealized promises of contractual freedom and the enduring constraints of status Through this lens literary realism not only reflected society's inequities but also critiqued the legal and social systems that perpetuated them Realism which sought to represent everyday life in a grounded unembellished way intersected with the contract's promise by portraying social relations as complex and negotiated yet constrained by systemic hierarchies Works like Twain's *Adventures of Huckleberry Finn* and James's *The American* evoke moments where relationships of status could theoretically transform into equitable contractual interactions However these fictional moments of promise often falter reflecting contract's inability to establish a truly egalitarian social order The rise of corporate capitalism further complicated contract's promise as corporations fostered a form of economic structure that subordinated individual agency reinforcing rather than alleviating social inequities The text also considers how these issues resonate today especially as contractual ideals influence contemporary notions of social justice While the promise of contract continues to appeal to a vision of equal opportunity the persistent influence of race class and gender hierarchies complicates its realization The author suggests that revisiting works of realism offers valuable insights into these ongoing tensions challenging readers to reimagine a society where individuals might genuinely be free and equal not just in theory but in practice In doing so this book presents realism not as an endorsement of the status quo but as a field of critical inquiry urging us to address the unresolved questions about equity that persist in American society This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

Eric S. Janus, 2006 Shows that sexual predator laws which have intense public and political support are counterproductive Janus contends that aggressive measures such as civil commitment and Megan's law which are designed to restrain sex offenders before they can commit another crime are bad policy and do little to actually reduce sexual violence Further these new laws make use of approaches such as preventive detention and actuarial profiling that violate important principles of liberty Janus argues that to prevent sexual violence policymakers must address the deep seated societal problems that allow it to flourish From publisher description

Buyer's Remorse Bill Press, 2016-02-02 The prominent liberal syndicated radio and television host concisely explains the many ways President Obama has failed to live up to either his promises or his progressive potential leaving Democrats disillusioned on the issues that matter most Bill Press a progressive champion and former chair of the California Democratic Party a one time co host of CNN's Crossfire and the popular nationally syndicated radio and television host of The Bill Press Show reflects back on what for many progressives has been a disappointing presidency and comes to a depressing conclusion Obama grossly misunderstood the mandate of the enthusiastic crowds that swarmed him on the campaign trail Instead of recognizing their burning desire for strong progressive leadership Obama tried to be a post partisan president The tragedy of Barack Obama is that in trying to become the great uniter he has instead become a grave disappointment From climate change to gun safety to yes even health care Obama's legacy on important issues falls far short of what could have been Time and again he let down his most impassioned supporters the ones who used their powerful voices to vote for change neglecting their priorities and wasting his potential by either not doing enough or worse repeating the errors of his predecessor President Obama rode into office on a celebratory tide of liberal jubilation but as his typically centrist presidency comes to a close he leaves his supporters haunted by what might have been

Post-Industrial Precarity: New Ethnographies of Urban Lives in Uncertain Times Gillian Evans, 2020-01-15 The United Nations predicts that by the year 2050 almost 70% of the planet's population will be living in cities The onus on social scientists is to explain the contemporary challenges posed by the urbanization of the world A growing body of literature raises the alarm about the precarity of human existence in the uncertain conditions of rapidly transforming contemporary cities This volume brings together a diverse collection of new ethnographies of precarious lives in various cities of the world The specific focus on post industrial cities in the UK allows for a wider consideration of the urban conditions and the political and economic climates which combine to produce extremely precarious living conditions for urban populations elsewhere in the world The productive consequence of the comparisons and contrasts of various urban contexts made possible by the volume is an analytical focus on what it means for humans to live and occupy different subject positions under the advancing conditions of contemporary global capitalism The volume's chapters are also united by the shared commitment of early career social science scholars to ethnography as a research method This gives a common

methodological focus to diverse topics of substantive concern located in various cities of the world from Manchester Newcastle and Salford in the north of England to Detroit in the USA Rio de Janeiro in Brazil Turin in Italy and Beirut in Lebanon Ethnography relying as it does on long term participant observation and in depth open ended interviewing is uniquely valuable as a resource for bringing to life the unpredictable ways in which humans survive and develop forms of resilience among for example the ruins of dying cities Ethnography also enables social scientists to understand and add depth to the surprising stories and apparent contradictions of everyday protest in the face of the increasing privatization of the public good and extreme inequalities of wealth Ethnographically grounded analyses of urban life are therefore uniquely positioned to explain and critically analyse the new politics of popular resistance as the people who feel left behind by society or expelled from what might be described as the exclusification of urban environments push back against an economy and politics that appears to exist only for the private benefit of an indifferent elite population Age of Promises David Thackeray, Richard Toye, 2021 Age of Promises explores the issue of electoral promises in twentieth century Britain how they were made how they were understood and how they evolved across time through a study of general election manifestos and election addresses The authors argue that a history of the act of making promises which is central to the political process but which has not been sufficiently analysed illuminates the development of political communication and democratic representation The twentieth century saw a broad shift away from politics viewed as a discursive process whereby at elections it was enough to set out broad principles with detailed policymaking to follow once in office following reflection and discussion Over the first part of the century parties increasingly felt required to compile lists of specific policies to offer to voters which they were then considered to have an obligation to carry out come what may From 1945 onwards moreover there was even more focus on detailed costed pledges We live in an age of growing uncertainty over the authority and status of political promises In the wake of the 2016 EU referendum controversy erupted over parliamentary sovereignty Should the will of the people as manifested in the referendum result be supreme or did MPs owe a primary responsibility to their constituents and or to the party manifestos on which they had been elected Age of Promises demonstrates that these debates build on a long history of differing understandings about what status of manifestos and addresses should have in shaping the actions of government Testimony Shoshana Felman, Dori Laub, 2013-10-18 In this unique collection Yale literary critic Shoshana Felman and psychoanalyst Dori Laub examine the nature and function of memory and the act of witnessing both in their general relation to the acts of writing and reading and in their particular relation to the Holocaust Moving from the literary to the visual from the artistic to the autobiographical and from the psychoanalytic to the historical the book defines for the first time the trauma of the Holocaust as a radical crisis of witnessing the unprecedented historical occurrence of an event eliminating its own witness Through the alternation of a literary and clinical perspective the authors focus on the henceforth modified relation between knowledge and event literature and evidence speech and survival witnessing and ethics
