Failure Of A Revolution:

Failure of a Revolution: Germany 1918-1919 Sebastian Haffner, 2019-08-16 The masterfully told story of what happened in Germany following its defeat in the first world war the Kaiser's exit from the stage the sailors mutiny the spreading of the revolution and its betrayal by its own chosen socialist leaders Haffner recounts the murder of Karl Liebknecht and of Rosa Luxemburg and the deliberate creation of those relentless counter revolutionary forces that became the nightmare of the Third Reich More than a brilliant historical study it has vital lessons for our own day Haffner's history of the revolution is unrivalled tight precise passionately rational brilliantly formulated Profil Wien No one else has described and analysed the events of 1918 19 that were decisive for the century as well and as convincingly as Sebastian Haffner Tagespiegel For Haffner the revolution was a social democratic revolution That it was nevertheless ultimately suppressed bloodily by social democratic politicians confirms Haffner's suspicion that this was a case of betrayal Norddeutscher Rundfunk North German Radio Haffner's book is one of the few that breaks open previously locked doors and shines a light on dark corners of our past K lner Stadt Anzeiger Sebastian Haffner's brilliant intellect clarifies contrasts and similarities in situations motivations and deeds and describes lucidly and dramatically the main lines of the complex developments from September 1918 to January 1919 Dieter Wunderlich Those who know Haffner's method of making the writing of history an inspection of the past motivated by the present will appreciate this book zitty Berlin Failure of a Revolution Rudolf Coper, 1955 *Failure of a Revolution* Sebastian Haffner, 1973 Analysis of chaotic conditions in a defeated Germany in the aftermath of World War I stressing the failure of the revolt of Leftists led by Karl Liebknecht and Rosa Luxemburg

Hannah Arendt And The Jewish Question Richard J. Bernstein, 1996-07-11 Hannah Arendt 1906 1975 was one of the most original and interesting political thinkers of the twentieth century In this new interpretation of her career philosopher Richard Bernstein situates Arendt historically as an engaged Jewish intellectual and explores the range of her thinking from the perspective of her continuing confrontation with the Jewish question Bernstein argues that many themes that emerged in the course of Arendt's attempts to understand specifically Jewish issues shaped her thinking about politics in general and the life of the mind By exploring pivotal events of her life story her arrest and subsequent emigration from Germany in 1933 her precarious existence in Paris as a stateless Jew working for Zionist organizations her internment at Gurs and her subsequent escape and finally her flight from Europe in 1941 he shows how personal experiences and her responses to them oriented her thinking Arendt's analysis of the Jews lack of preparation for the vicious political anti-Semitism that arose in the last decade of the nineteenth century Bernstein argues led her on a quest for the ultimate meaning of politics and political responsibility Moreover he points out that Arendt's deepest insights about politics emerged from her reflections on statelessness and totalitarian domination Bernstein also examines Arendt's attraction to and break with Zionism and the reasons for her critical stance toward a Jewish sovereign state He then turns to the issue that in Arendt's opinion needed most to be confronted in

the aftermath of World War II the fundamental nature of evil He traces the nuances of her thinking from radical evil to the banality of evil and finally reexamines Eichmann in Jerusalem her meditation on evil that caused a storm of protest and led some to question her loyalty to the Jewish people *The Revolutions in Europe, 1848-1849* Hartmut Pogge von Strandmann, Robert John Weston Evans, 2000 These essays arose out of lectures given in Oxford to commemorate the 150th anniversary of the 1848 revolutions in Europe Authoritative yet readable and colourful they comprise judicious summaries of the existing state of knowledge as well as new insights and unfamiliar information The book also seeks to place the revolutionary events in their wider context apart from chapters covering the main centres of disturbance in France Germany Italy and the Habsburg lands there are discussions of the situation in Britain and Russia which were affected but not convulsed by the disorders elsewhere of reactions in the United States of America of the symbolism of 1848 for the later democratic radical and socialist movements 1848 marked the first breakdown of traditional authority across much of the continent and as such is of profound significance in the development of modern European politics as a whole CALLING BACK THE GHOST OF REVOLUTION Rong Jian, 2022-11-24 At a time when China is once again facing a major turning point in its direction I firmly believe that my academic dispute with Wang Hui is in no way a personal or left right dispute Wang Hui's grand narrative about the Chinese revolution and the Chinese century is meant to provide a new legitimate basis for one party to rule forever to place world history in the value system of the Chinese revolution and to shape the Chinese revolution and its regime into the ultimate source and ultimate judge of universal justice in the world There is no doubt that Wang Hui's new theoretical proposition is not only far from the basic idea of liberalism but also far from the political democratic position that the Western left wing tradition has always insisted on Since liberal scholars have automatically given up head on confrontation with Wang Hui it is time to end Wang Hui's theories which have never been subjected to comprehensive and systematic academic criticism in China's intellectual and intellectual spheres for nearly thirty years Therefore at such a time it would be an unforgivable dereliction of duty for liberals to fail to take the initiative as Raymond Aron did to undertake the historical mission of criticizing barbaric ideologies totalitarianism and statism and to hold fast to the basic virtues given to intellectuals by providence As Arendt said the storm of ideas is not characterized by knowledge but by the ability to distinguish good from evil beauty from ugliness And this may indeed prevent disaster in that rare moment of crisis **It's Not Over** Pete Dolack, 2016-02-26 The path to a better world can't be found without knowledge of history It's Not Over analyzes attempts to supplant capitalism in the past in order to draw lessons for emerging and future movements that seek to overcome the political and economic crises of today This history is presented through the words and actions of the men and women who made these revolutions and the everyday experiences of the millions of people who put new revolutionary ideas into practice under the pressures of enormous internal and external forces This is history that can be applied to today's struggles to shape our world in which new ideas are emerging to bring about the economic democracy that

is indispensable to a rational and sustainable future *The Communist Punch* Pasquale De Marco, 2025-08-11 In a world grappling with economic inequality social injustice and environmental degradation Marxism offers a profound critique of capitalism and a compelling vision for a more just and equitable society *The Communist Punch* delves into the core concepts of Marxism tracing its historical roots and exploring its contemporary relevance in the 21st century Through a critical examination of capitalism's contradictions this book reveals the exploitative nature of the system its tendency to concentrate wealth and power in the hands of a few and its devastating impact on the environment Inspired by Karl Marx's seminal work *Das Kapital* the book provides a comprehensive analysis of the dynamics of capital accumulation uncovering the inherent flaws that lead to economic crises and social unrest Beyond the economic realm *The Communist Punch* explores Marxism's insights into the political social and cultural spheres It examines how the economic base of society shapes its political and ideological superstructure influencing everything from the state apparatus to cultural norms and values This understanding underscores the importance of addressing economic inequality and exploitation as fundamental steps towards creating a more just and harmonious society The book also delves into the revolutionary potential of Marxism highlighting its call for collective action and social transformation It explores Marx's vision of a classless society free from exploitation and oppression and the role of the working class as the driving force behind this transformation While Marxism has faced criticism and challenges over the years its core insights remain relevant and poignant in today's world as the rise of global capitalism and the widening gap between the rich and the poor demand alternative economic models *The Communist Punch* is an accessible and thought provoking introduction to Marxism suitable for readers from all backgrounds It invites readers to engage in critical thinking about the current economic system explore alternative visions for society and join the ongoing struggle for a better world If you like this book write a review **Understanding Žižek, Understanding Modernism**

Jeffrey R. Di Leo, Zahi Zalloua, 2022-11-03 Slavoj Žižek is one of today's leading theorists whose polemical works span topics from German idealism to Lacanian psychoanalysis from Shakespeare to Beckett and from Hitchcock to Lynch Critical through and through of both post modern ideological complacencies e.g. the death of the subject and the return to ethics and pre modern ones e.g. the re-enchantment of the world the embrace of postcritique Žižek doubles down on the virtues of the modern on what it means to be modern and to ask modern questions about the subject nature and political economy in the age of the Anthropocene This volume takes up the challenges laid out by Žižek's iconoclastic thinking and its reverberations in an array of fields philosophy psychoanalysis political theory literary studies and film studies among others Žižek's multi-disciplinary appeal attests to the provocation if not scandal of his politically incorrect thought *Understanding Žižek: Understanding Modernism* makes the force and inventiveness of Žižek's writings accessible to a wide range of students and scholars invested in the open question of modernism and its legacies **Race and Revolution** Gary B. Nash, 1990-12 *Race and Revolution* is a trenchant study of the revolutionary generation's early efforts to right the apparent contradiction of slavery and of their ultimate

compromises that not only left the institution intact but provided it with the protection of a vastly strengthened government after 1788 Race and Revolution describes the free black community's response to this failure of the revolution's promise its vigorous and articulate pleas for justice and the community's successes in building its own African American institutions within the hostile environment of early nineteenth century America *Die Verratene Revolution. Failure of a Revolution: Germany 1918-19. Translated by Georg Rapp* Sebastian HAFFNER (pseud.),1973

The European Revolutions, 1848-1851 Jonathan Sperber,2005-07-07 Reaching from the Atlantic to Ukraine from the Baltic to the Mediterranean the revolutions of 1848 brought millions of people across the European continent into political life Nationalist aspirations social issues and feminist demands coming to the fore in the mid century revolutions would reverberate in continental Europe until 1914 and beyond Yet the new regimes established then proved ephemeral succumbing to counter revolution In this second edition Jonathan Sperber has updated and expanded his study of the European Revolutions between 1848 1851 Emphasizing the socioeconomic background to the revolutions and the diversity of political opinions and experiences of participants the book offers an inclusive narrative of the revolutionary events and a structural analysis of the reasons for the revolutions ultimate failure A wide reaching conclusion and a detailed bibliography make the book ideal both for classroom use and for a general reader wishing a better knowledge of this major historical event Serial Revolutions 1848 Clare Pettitt,2022-02-10 1848 was a pivotal moment not only in Europe but in much of the rest of the world too Marx's scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years Serial Revolutions 1848 shows how far from being the failure that Karl Marx claimed them to be the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people Crucially this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such a political consciousness was impossible By the 1840s the developments in printing transport and distribution discussed in Clare Pettitt's Serial Forms The Unfinished Project of Modernity 1815 1848 Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a prophetic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international co operation and a shared and common humanity which have not yet been fully understood or realised , *Understanding the Volatile and Dangerous Middle East* Steven Carol,2015-08-25 The purpose of Understanding the Volatile and Dangerous Middle East is to assist the general public to

obtain a deeper comprehension of this bewildering region Middle East issues can become muddled and confusing particularly since the mainstream news media editorials and popular literature on this highly controversial subject are often plagued by inaccurate information or even disinformation They often commit biased omissions leaving out important information that can help the public comprehend the true entire picture Understanding the Volatile and Dangerous Middle East seeks to counteract these inaccuracies It will prevent readers from making common and not so common mistakes for lack of adequate knowledge Additionally there are 78 maps a built in Middle East historical atlas and numerous tables that enhance the text which is thoroughly indexed The author presents this information in a clear comprehensive understandable and insightful manner Understanding the Volatile and Dangerous Middle East is a Middle East library rolled into one volume For anyone who seeks the truth based on facts this definitely is one book to keep handy on your library shelf **The Quarterly Journal of the New York State Historical Association** ,1913 **A Short History of the Russian Revolution** Geoffrey Swain,2022-01-27 The 1917 Revolution sent shockwaves throughout the globe setting a chain of events in motion that would change the entire course of the 20th century With the overthrow of the Romanov Dynasty Russia was plunged into the political unknown and from the crucible of social unrest ideological conflict and violent civil war the world s first communist state was forged In this revised edition Geoffrey Swain provides an incisive overview of one of the most complex and turbulent periods in modern history tracing key moments from the abdication of Tsar Nicolas II to the Bolshevik seizure of power A leading authority on Russia and Eastern Europe Geoffrey Swain highlights the important legacies of 1905 demonstrating how early revolutionary ambitions among the masses culminated in the events of 1917 Challenging conventions in Soviet scholarship this revised edition shows that the Bolshevik concepts of discipline and ideology that had mobilised the revolution set an unnecessary course towards dictatorship and terror Covering new historiography in the field this revised edition places a renewed emphasis on the social and cultural upheaval experienced in Russia amid the nation s political turmoil Logics of Failed Revolt Peter Starr,1995 Using the events of May 68 as a historical touchstone this book examines the political ramifications of the literary philosophical and psychoanalytic work known as French theory **War Reprint** ,1918 **How the Revolution Armed: The years 1921-1923** Leon Trotsky,1979 Discusses the formation and history of the Red Army 1918 1923
