the WTO and proposes an alternative notion of community **Trade Justice** James Christensen, 2017-11-10 The international trading system remains a locus of fierce social conflict The protesters who besiege gatherings of its managers most famously on the streets of Seattle at the turn of the millennium regard it with suspicion and hostility as a threat to their livelihoods an enemy of global justice and their grievances are exploited by populist statesmen peddling their own mercantilist agendas If we are to support the trading system we must first assure ourselves that it can withstand moral scrutiny We must ensure that it works for and not against those whom it envelops that it serves to emancipate not ensnare While there is an extensive literature addressing the economic and legal aspects of trade the ethical questions it raises have escaped close inspection This book contributes to resetting the balance It grapples with moral quandaries relating to world politics globalization and international commerce and recognizes that resolving these problems is essential if we are to move toward a world in which trade justice is a reality **Human Rights Obligations of Non-State Actors** Andrew

Clapham, 2006-03-02 The threats to human rights posed by non state actors are of increasing concern Human rights activists increasingly address the activity of multinational corporations the policies of international organizations such as the World Bank and the World Trade Organization and international crimes committed by entities such as armed opposition groups and terrorists This book presents an approach to human rights that goes beyond the traditional focus on states and outlines the human rights obligations of non state actors Furthermore it addresses some of the ways in which these entities can be held legally accountable for their actions in various jurisdictions The political debate concerning the appropriateness of expanding human rights scrutiny to non state actors is discussed and dissected For some extending human rights into these spheres trivializes human rights and allows abusive governments to distract us from ongoing violations For others such an extension is essential if human rights are properly to address the current concerns of women and workers The main focus of the book however is on the legal obligations of non state actors The book discusses how developments in the fields of international responsibility and international criminal law have implications for building a framework for the human rights obligations of non state actors in international law In turn these international developments have drawn on the changing ways in which human rights are implemented in national law A selection of national jurisdictions including the United States South Africa and the United Kingdom are examined with regard to the application of human rights law to non state actors The book's final part includes suggestions with regard to understanding the parameters of the human rights obligations of non state actors Key to understanding the legal obligations of non state actors are concepts such as dignity and democracy While neither concept can unravel the dilemmas involved in the application of human rights law to non state actors a better understanding of the tensions surrounding these concepts can help us to understand what is at stake **Regulating Trade in Services in the EU and the WTO** Ioannis Lianos, Okeoghene Odudu, 2012-03-22 This volume considers how different jurisdictions are integrated economically whilst at the same time maintaining regulatory pluralism and diversity *Non-Economic Objectives*

in *WTO Law* Stefan Zleptnig, 2009-10-30 This volume examines the complex relationship between economic and non economic objectives in WTO law It discusses how non economic objectives such as the protection of public morals life and health environment or human rights can serve as justification for trade restrictive measures normally prohibited under WTO law The relevant non economic grounds of justification are analysed as well as the substantive and procedural requirements which restrain the use of trade restrictive measures taken for non economic purposes The issues covered by this book also have wider systemic implications for the WTO Only if the WTO can demonstrate that it is not just concerned about free trade but respects non economic objectives as well is it likely to remain a sustainable and legitimate form of governance [A Common Inheritance ?](#) Academie De Droit International De La Haye, 1997-10-17 The Academy is an institution for the study and teaching of public and private international law and related subjects Its purpose is to encourage a thorough and impartial examination of the problems arising from international relations in the field of law The courses deal with the theoretical and practical aspects of the subject including legislation and case law All courses at the Academy are in principle published in the language in which they were delivered in the Collected Courses of the Hague Academy of International Law This volume contains *A Common Inheritance An Examination of the Private International Law Tradition of the Commonwealth* by D McCLEAN Professor at the University of Sheffield *The Contribution of International Trade Law to the Development of International Law* by D M McRAE Professor at the University of Ottawa *La conservation et la gestion des ressources de l'Antarctique* par F FRANCIONI professeur a l'Universite de Sienne To access the abstract texts for this volume please click here [Global Unions?](#) Jeffrey Harrod, Robert O'Brien, 2012-10-02 This edited collection examines the interaction between industrial relations and international relations in the global economy The role of trade unions has changed significantly in the era of economic globalization and this book analyzes the key developments in union strategy on a local national regional and global level **Is Fairtrade Fair?** E.
