unearthed this lost art and have featured outstanding examples of the culture of early cinema reconfigured for today's audiences. Today's programming of early cinema has to consider the audience if it wants to be successful in making the visual heritage available to as many people as possible. *Early Cinema Today* shows in a fascinating, versatile and refreshing way how this can be implemented. This book provides practitioners with innovative ideas on how to engage potential audiences while providing scholars with valuable insight into how film archivists and curators shape perceptions of early cinema and through this the direction of film scholarship. *The Moving Image* This collection presents a wide range of approaches to the programming of early film both historically and in the present day context while sounding a vibrant and timely call to review the relation that has evolved between scholars, archivists and film programmers in matters relating to the programming of early cinema today. *Film History*
