Faith And Public Policy:

Faith and Public Policy James R. Wilburn, 2002-01-01 Faith and Public Policy turns the spotlight on the role of faith in the public square and the spiritual consequences of public policymaking. The work brings together fourteen of America's most respected writers on the intersection of faith and public policy to discuss the changing roles of government, church education, and the family. Chapters investigate such issues as inner city programs, the secularization of faith-based programs, the impact of tax policy on the family, and the status of school vouchers. Contributions by Steve Forbes and William E. Simon illustrate the deep personal faith that informs and fuels the public leadership of America's leading thinkers and political figures. Readers will find Faith and Public Policy a timely and vigorous conversation on the commingling of government and religion in America, a country eager to return to the Founding Generation's idea of a nation in covenant with God.

Personal Faith, Public Policy Harry R. Jackson, 2012-10-30 Harry Jackson and Tony Perkins believe that America stands at a crossroads. As a nation, we must choose God's blessings or His destruction of our society. The Religious Right, as it has been termed, often looks to the world as its enemy, and many Christians have seen themselves as combatants in war against anti-God forces. In *Personal Faith, Public Policy*, Jackson and Perkins take a radical new position, stating that the Christian church must lead morally and impact the culture with personal spiritual power and unified Christian public policy, demonstrating how a unified church can tackle each one of the seven major problems of our culture. Achieving victories in each of the seven areas presented will result in vanquishing the big problem facing our country: moral decay. Show Less

Faith, Social Justice, and Public Policy Gary Maring, 2012-06-01 Gary Maring, a progressive person of faith, discusses key social justice policy issues of the day, such as economic inequality, poverty, homelessness, human rights, health care, peacemaking, and environmental stewardship, which need support from the progressive faith, spiritual, and secular communities. He says we need to rediscover a passion and a moral call to action among these communities. Otherwise, we let the Religious Right and their political supporters dominate the media and move our country backward on social justice issues. Finally, he says we need a call to compassion and justice, the common tenets of most religious traditions. Mr. Maring brings significant credibility on social justice issues as one of the founders of N Street Village, a comprehensive transition home for homeless women now serving more than 60 percent of the population of homeless women in D.C. As a founder and a current Board member of N Street Village, Gary Maring shares the experience of seeking biblical justice in an urban congregation's challenged community. Opening the doors to the homeless by his DC church, Luther Place, came to be seen by many as the essence of faith-based response to the critical needs of the community. The diverse interreligious and secular base of supporters continues to this day, helping to live out the concepts of hospitality and shalom (peace with justice) in service at N Street Village. Mr. Maring makes the important observation that churches are the largest beneficiary of charitable giving, and they have tremendous property and other financial resources which can be pooled with government and private resources to

create community social justice programs on a significant scale as was done with N Street Village a 20 million public private partnership development Mr Maring also offers an extensive bibliography of progressive theologians and shares their insight regarding the biblical call for social justice the transformation occurring in institutional religion and the role of faith in public policy

Christian Faith and Public Policy Arthur R. Simon,1987 Intended for general readers this clearly written book will be of special interest to socially concerned Christians Study questions enhance the book s value as a resource for individuals or groups

Religion and Canadian Society Lori G. Beaman,2012 This text offers an outstanding selection of readings that represent an overview of the key issues in the sociology of religion from a uniquely Canadian perspective Masterfully planned and united by clearly articulated themes the second edition moves through three thematic cornerstones contexts identities and strategies Recurring sub themes include the definition of religion the secularization debate the challenge of diversity and the gendered aspects of religious experience Key additions to this edition include a discussion on cultural diversity an exploration of religion and sexuality and a thorough historical overview of religion in Canada

Law, Religion, and Public Policy Julia K. Stronks,2002-08-20 Differing definitions of religion are fundamental determinant of the debate over religious freedom in the United States argues Stronks political science Whitworth College Looking at 200 years of judicial interpretation she discusses how judges have defined religion in relation to the provisions of the First Amendment of the Constitution She then turns to the effect the differing definitions have on judicial rulings about the policy areas of religion in public schools regulation of employment decisions by religious institutions and public aid to private institutions such as President Bush s faith based initiative She argues that confusion over the parameters of religious freedom stem from the failure of theorists to carefully define the nature of religion Annotation copyrighted by Book News Inc Portland OR

The Role of Religion in Public Policy Eamon Doyle,2018-12-15 One of the fundamental rights granted in the United States is religious freedom but does this mean that religion should be entirely removed from politics or that all religious voices should be considered equally The separation of church and state was established in the Constitution but the fact that as of 2015 84 percent of Americans hold some sort of religious belief means that this is easier said than done Religious morality frequently colors debates surrounding various policy issues ranging from reproductive rights to education This volume exposes readers to the ways in which religion inflects policymaking and the varying perspectives about religion s role in politics

The Politics of Faith Jerry L. Sumney,2020-09-01 The Politics of Faith addresses key biblical texts and their intersection with questions of good government social policy and societal leadership It speaks to Christians and others who seek to ponder and discuss the role of faith and Bible in their decisions about civic politics and faithful citizenship This book aims to enable readers to see more clearly that the Bible does speak about the kinds of economic and social policies a nation should adopt It will empower them to claim the message of Scripture in favor of policies that promote the good of those who are disadvantaged and the good of the community It will help them make the argument that the Bible calls for laws and

policies that expect the wealthy to contribute to the good of all including policies and laws that are not always to their personal financial advantage The author explores ways the Old Testament shows God's concern for social structures the ideal early church community in Acts and how the Gospel of Matthew shows concern for social structures in the ministry of Jesus The final section looks at the writings of Paul showing how they demand certain kinds of political commitments This book will help readers talk about how a deeper understanding of Scripture can affect how one votes and the kinds of policies one supports Each chapter ends with a set of questions for discussion that both review what is in the chapter and provoke discussion about faithful action

Handbook of Theories of Public Administration and Management Bryer, Thomas A., 2021-11-05 This innovative Handbook offers a wide ranging overview of the multi faceted field of public administration and management It provides a broad approach to the discipline addressing the range of descriptive normative and critical theories required to diagnose public service issues and prescribe administrative action

Contents of Contracts and Unfair Terms Mindy Chen-Wishart, Stefan Vogenauer, 2020-11-30 Studies in the Contract Laws of Asia provides an authoritative account of the contract law regimes of selected Asian jurisdictions including the major centres of commerce where limited critical commentaries have been published in the English language Each volume in the series aims to offer an insider's perspective into specific areas of contract law remedies formation parties contents vitiating factors change of circumstances illegality and public policy and explores how these diverse jurisdictions address common problems encountered in contractual disputes A concluding chapter draws out the convergences and divergences and other themes All the Asian jurisdictions examined have inherited or adopted the common law or civil law models of European legal systems Scholars of legal transplant will find a mine of information on how received law has developed after the initial adaptation and transplant process including the mechanisms of and influences affecting these developments At the same time many points of convergence emerge These provide good starting points for regional harmonization projects Volume III of this series deals with the contents of contracts and unfair terms in the laws of China Hong Kong India Indonesia Japan Korea Malaysia Myanmar the Philippines Singapore Taiwan Thailand and Vietnam Typically each jurisdiction is covered in two chapters the first deals with the contents of contracts and how contractual terms are identified and interpreted the second deals with unfair terms the situations where the law will interfere in matters of unfairness relating to contract terms and legal responses to unfair terms

human and physician assisted suicide Those struggling with such confusing and controversial subjects will appreciate the insights from ethics theology and law the author brings together Here is guidance for personal or social responses to questions in medicine that affect us all *Between Faith and Power* Walter R. Ratliff,2020-10-12 What happens when Christians reconsider political engagement Among leading Christian thinkers political engagement is either unavoidably necessary or theologically impossible Is this a false dilemma *Between Faith and Power* examines how Christian groups are grappling with the demands of a pluralistic public square while remaining faithful to their tradition Using the lenses of social science research and theological analysis the book examines the successes and failures of these groups as they engage the public square What emerges are models of Dynamic Engagement that Christian leaders are using to consistently pursue religious liberty across faiths while contributing to the common good **Faith- Based Diplomacy Trumping Realpolitik** Douglas Johnston,2008-06-02 For most of the twentieth century the most critical concerns of national security have been balance of power politics and the global arms race The religious conflicts of this era and the motives behind them however demand a radical break with this tradition If the United States is to prevail in its long term contest with extremist Islam it will need to re examine old assumptions expand the scope of its thinking to include religion and other irrational factors and be willing to depart from past practice This book looks at five intractable conflicts and explores the possibility of drawing on religion as a force for peace The world class authors writing in this volume suggest how the peacemaking tenets of five major world religions can be strategically applied in ongoing conflicts in which those religions are involved Sociology of Religion Abby Day,2020-12-30 The first sociology of religion textbook to begin the task of diversifying and decolonizing the study of religion *Sociology of Religion* develops a sociological frame that draws together the personal political and public showing how religion its origins development and changes is understood as a social institution influenced by and influencing wider social structures Organized along sociological structures and themes the book works with examples from a variety of religious traditions and regions rather than focusing in depth on a selection and foregrounds cultural practice based understandings of religion It is therefore a book about religion not religions that explores the relationship of religion with gender and sexuality crime and violence generations politics and media race ethnicity and social class disease and disability highlighting the position of religion in social justice and equality Each chapter of this book is framed around concrete case studies from a variety of Western and non Western religious traditions Students will benefit from thinking about the discipline across a range of geographical and religious contexts The book includes features designed to engage and inspire students Up to date and comprehensive analysis of engaging and accessible material Case Examples short summaries of empirical examples relating to the chapter themes Visually distinct boxes with bullet points key words and phrases focusing on the context Questions suitable for private or seminar study Suggested class exercises for instructors to use Suggested readings and further readings online resources at the end of each chapter Following a review and critique of early sociology

of religion the book engages with more contemporary issues such as dissolving the secular sacred binary and paying close attention to issues of epistemology negotiations marginalities feminisms identities power nuances globalization post multiple modernity ies emotion structuration reflexivity intersectionality and urbanization This book is essential reading for undergraduate and postgraduate students exploring the sociology of religion religion and society religious studies theology globalization and human geography

New Topics in Substance Abuse Treatment Louise A. Bennett, 2006 Substance abuse is one of society s most serious problems Drugs seem to be readily available even in elementary schools which attests to the success of the drug purveyors and the failure of law enforcement officials education administrators and parents As an example in the U S 2003 there were nearly 1 7 million admissions to publicly funded substance abuse treatment programs Most admissions 23 2 percent were for alcohol treatment Marijuana accounted for the largest percentage of illicit drug admissions 15 4 percent followed by heroin 14 4 percent This book presents new and important research dealing with treatments and treatment programs aimed at alleviating the misery and losses to society of this vicious behavioural disorder

Law and Religious Diversity in Education Kyriaki Topidi, 2020-08-05 Religion is a prominent legal force despite the premise constructed and promoted by Western constitutionalism that it must be separated from the State in democracies Education constitutes an area of human life that leaves ample scope for the expression of religious identity and shapes the citizens of the future It is also the place of origin of a considerable number of normative conflicts involving religious identity that arise today in multicultural settings The book deals with the interplay of law and religion in education through the versatility of religious law and legal pluralism as well as religion s possible adaptation and reconciliation with modernity in order to consider and reflect on normative conflicts It adopts the angle of the constitutional dimension of religion narrated in a comparative perspective and critically reflects on regulatory attempts by the State and the international community to promote new ways of living together
