## **Faith Freedom And Rationality Philosophy Of Religion Today:**

*Faith, Freedom, and Rationality* Jeff Jordan, Daniel Howard-Snyder, 1996 The philosophy of religion once considered a deviation from an otherwise analytically rigorous discipline has flourished over the past two decades This collection of new essays by twelve distinguished philosophers of religion explores three broad themes religious attitudes of belief acceptance and love human and divine freedom and the rationality of religious belief      **Faith, Freedom, and Rationality** Jeff Jordan, Daniel Howard-Snyder, 1996-06-28 The philosophy of religion once considered a deviation from an otherwise analytically rigorous discipline has flourished over the past two decades This collection of new essays by twelve distinguished philosophers of religion explores three broad themes religious attitudes of belief acceptance and love human and divine freedom and the rationality of religious belief      *Religious Faith and Intellectual Virtue* Laura Frances Callahan, Timothy O'Connor, 2014-06 Is religious faith consistent with being an intellectually virtuous thinker In this volume 14 original essays written by a diverse and distinguished group of thinkers offer new approaches to the central issues and controversies surrounding the place of intellectual virtue in religious faith      *Aquinas* Eleonore Stump, 2008-01-28 In this extensive and deeply researched study Eleonore Stump examines Aquinas major works and clearly assesses the vast range of Aquinas thought This will be an unrivalled study and an indispensable resource for studying Aquinas      Human Nature and the Limits of Science John Dupré, 2001-11-08 John Dupr warns that our understanding of human nature is being distorted by two faulty and harmful forms of pseudo scientific thinking Not just in the academic world but increasingly in everyday life we find one set of experts seeking to explain the ends at which humans aim in terms of evolutionary theory and another set of experts using economic models to give rules of how we act to achieve those ends Dupr charges this unholy alliance of evolutionary psychologists and rational choice theorists with scientific imperialism they use methods and ideas developed for one domain of inquiry in others where they are inappropriate He demonstrates that these theorists explanations do not work and furthermore that if taken seriously their theories tend to have dangerous social and political consequences For these reasons it is important to resist scientism an exaggerated conception of what science can be expected to do for us To say this is in no way to be against science just against bad science Dupr restores sanity to the study of human nature by pointing the way to a proper understanding of humans in the societies that are our natural and necessary environments He shows how our distinctively human capacities are shaped by the social contexts in which we are embedded And he concludes with a bold challenge to one of the intellectual touchstones of modern science the idea of the universe as causally complete and deterministic In an impressive rehabilitation of the idea of free human agency he argues that far from being helpless cogs in a mechanistic universe humans are rare concentrations of causal power in a largely indeterministic world Human Nature and the Limits of Science is a provocative witty and persuasive corrective to scientism In its place Dupr commends a pluralistic approach to science as the appropriate way to investigate a universe that is not unified in form Anyone interested in science

and human nature will enjoy this book unless they are its targets      **Stricken by Sin, Cured by Christ** Jesse Couenhoven,2013-08-01 This book is a discussion of responsibility and blame focused and shaped by St Augustine s theology of sin and grace and the controversies that surround those topics It critically appropriates ideas central to an influential and controversial figure and doctrine in conversation with expert readers of Augustine recent philosophical treatments of free will and responsibility and a broad array of theological voices      **Essays Anglican and Analytic** Robert MacSwain,2025-04-17 Explore the riches at the intersection of Anglican and philosophical theology In this thought provoking essay collection Robert MacSwain explores important connections between Anglican and philosophical theology Shining a spotlight on the underappreciated theological work of Austin Farrer and David Brown he brings them into creative conversation with better known figures such as Joseph Butler C S Lewis Stanley Hauerwas and Eleonore Stump He skillfully leads readers through diverse conceptual territory ranging from the Reformed epistemology of Alvin Plantinga and Nicholas Wolterstorff to the hiddenness argument of J L Schellenberg to a sacramental vision of human culture and the arts More broadly MacSwain outlines what he calls Critical Catholicism explaining how it differs from other movements in contemporary Christian thought such as Radical Orthodoxy and Analytic Theology These perceptive essays will be of particular interest to scholars and pastors who are curious about connections between theology philosophy and Anglican studies      Why I Am a Christian Norman L. Geisler,Paul K. Hoffman,2006-12 Now with a new chapter on Why I Am Not a Muslim by an ex Muslim Why I Am a Christian is an even more helpful resource in our global times      **My Way** John Martin Fischer,2006-03-02 A collection of John Martin Fischer s essays on free will and moral responsibility Fischer s overall framework contains an argument for the contention that moral responsibility does not require free will in the sense that implies alternative possibilities and a sketch of a comprehensive theory of moral responsibility      **Plantinga's 'Warranted Christian Belief'** Dieter Schönecker,2015-10-16 Alvin Plantinga s Warranted Christian Belief has very quickly become one of the most influential books in philosophy of religion In this collection of essays German philosophers theologians and a mathematician deal critically with several aspects of Plantinga s seminal work In a long essay Plantinga answers to these critics      Libertarian Free Will David Palmer (Professor),2014 This book is a collection of new essays on the libertarian position on free will and related issues that focuses specifically on the views of philosopher Robert Kane Written by a distinguished group of philosophers the essays range from various areas of philosophy including metaphysics ethics and philosophy of mind      Semantics and Psychology of Spirituality Heinz Streib,Ralph W. Hood, Jr.,2015-10-16 This book examines what people mean when they say they are spiritual It looks at the semantics of spirituality the visibility of reasons for spiritual preference in biographies in psychological dispositions in cultural differences between Germany and the US and in gender differences It also examines the kind of biographical consequences that are associated with spirituality The book reports the results of an online questionnaire filled out by 773 respondents in Germany and 1113 in the US personal

interviews with a selected group of more than 100 persons and an experiment Based on the data collected it reports results that are relevant for a number of scientific and practical disciplines It makes a contribution to the semantics of everyday religious language and to the cross cultural study of religion and to many related fields as well because spirituality is evaluated in relation to personality mysticism well being religious styles generativity attachment biography and atheism The book draws attention to the new and ever changing ways in which people give names to their ultimate concern and symbolize their experiences of transcendence

**Epistemic Authority** Linda Trinkaus Zagzebski, 2015 Gives an extended argument for epistemic authority from the implications of reflective self consciousness Epistemic authority is compatible with autonomy but epistemic self reliance is incoherent The book argues that epistemic and emotional self trust are rational and inescapable that consistent self trust commits us to trust in others and that among those we are committed to trusting are some whom we ought to treat as epistemic authorities modelled on the well known principles of authority of Joseph Raz Some of these authorities can be in the moral and religious domains The book investigates the way the problem of disagreement between communities or between the self and others is a conflict within self trust and argue against communal self reliance on the same grounds as the book uses in arguing against individual self reliance The book explains how any change in belief is justified by the conscientious judgment that the change will survive future conscientious self reflection The book concludes with an account of autonomy

International Journal for Philosophy of Religion Invites the reader to think anew about what Kierkegaard was saying and what we can learn from him in the context of our time particularly what it means to become a Christian in terms of the moral task of love and living a life worthy of a human being Sylvia Walsh translator of Kierkegaard s Discourses at the Communion on Fridays A Companion to Epistemology Jonathan Dancy, Ernest Sosa, Matthias Steup, 2010-02-15 With nearly 300 entries on key concepts review essays

C. Nichols, 2013-08-21 New England colonial pastor and theologian Jonathan Edwards 1703-58 was well aware of the threat that Deist philosophy posed to the unity of the Bible as Christian Scriptures yet remarkably his own theology of the Bible has never before been examined In the context of his entire corpus this study pays particular attention to the detailed notes Edwards left for The Harmony of the Old and New Testament a great work hitherto largely ignored by scholars Following examination of his Harmony notes a case study of salvation in the Old Testament challenges the current dispositional account of Edwards's soteriology and argues instead that the colonial Reformed theologian held there to be one object of saving faith in Old and New Testaments namely Christ     Understanding Human Agency Erasmus Mayr, 2011-09-15 Our self understanding as human agents includes a commitment to three crucial claims about human agency that agents must be active that actions are part of the natural order of the universe and that intentional actions can be explained by the agent's reasons for acting While all of these claims are indispensable elements of our view of ourselves as human agents they are in continuous conflict and tension with one another especially once one adopts the currently predominant view of what the natural order must be like One of the central tasks of philosophy of action consists in showing how despite appearances these conflicts can be resolved and our self understanding as agents be vindicated The mainstream of contemporary philosophy of action holds that this task can only be fulfilled by an event causal reductive view of human agency paradigmatically embodied in the so called standard model developed by Donald Davidson Erasmus Mayr in contrast develops a new agent causal solution to these conflicts and shows why this solution is superior both to event causalist accounts and to Von Wright's intentionalism about agency He offers a comprehensive theory of substance causation on the basis of a realist conception of powers which allows one to see how the widespread rejection of agent causation rests on an unfounded Humean view of nature and of causal processes At the same time Mayr addresses the question of the nature of reasons for acting and complements its substance causal account of activity with a non causal account of acting for reasons in terms of following a standard of success     *Edwards on God* Sebastian Rehnman, 2020-11-29 Jonathan Edwards is generally acknowledged as one of the foremost American philosophers Edwards on God offers a historically informed philosophical analysis of his arguments for the existence and nature of God The book begins with a characterization of Edwards's intellectual profile and philosophical theology It then explicates and evaluates his arguments from the beginning of existence design being in general virtue as benevolence and his account of natural and moral divine attributes There is no other such treatment of Edwards's metaphysics of divinity This volume will be primarily relevant to

philosophers historians and theologians      *Kant, Ought Implies Can, the Principle of Alternate Possibilities, and Happiness*  
Samuel Kahn, 2018-12-31 Throughout his corpus Kant repeatedly and resolutely denies that there is a duty to promote one's own happiness and most present day Kantians seem to agree with him In *Kant Ought Implies Can the Principle of Alternate Possibilities and Happiness* Samuel Kahn argues that this denial rests on two main ideas 1 a conception of duty that makes the principle of ought implies can OIC and the principle of alternate possibilities PAP analytic and 2 the claim that humans necessarily promote their own happiness This book defends OIC and PAP but nonetheless attacks the second idea and it supplements this attack with two additional arguments an interpersonal one and an intrapersonal one for the claim that a modern day Kantian ethics should affirm a duty to promote one's own happiness      **Consciousness and the Existence of God** J.P. Moreland, 2010-04-26 In *Consciousness and the Existence of God* JP Moreland argues that the existence of finite irreducible consciousness or its regular law like correlation with physical states provides evidence for the existence of God Considering Searle's contingent correlation O'Connor's emergent necessitation and Nagel's mysterian naturalism Moreland concludes that these versions of naturalism should be rejected in favor of what he calls the Argument from Consciousness
