Faith, Psychology & Christian Maturity Millard J. Sall, 1975 *Faith* Millard J. Sall, 1975 **The Integration of Psychology and Theology** John D. Carter, S. Bruce Narramore, 2018-07-31 The Rosemead Psychology Series is a continuing series of studies written for professionals and students in the fields of psychology and theology and in related areas such as pastoral counseling. It seeks to present current thinking on the subject of the integration of psychology that grow out of the interface of psychology and theology. God and Psychology Stephen E. Parker, 2022-11-08 *God and Psychology* How the Early Religious Development of Famous Psychologists Influenced their Work examines the impact their religious background had on the lives and work of several famous psychologists. These are fascinating stories often overlooked in the biography of these thinkers. Drawing from autobiographical and biographical materials, this book demonstrates how the impact of these early exposures to religion linger in the writings and actions of Sigmund Freud, Carl Jung, Erik Erikson, B. F. Skinner, and Carl Rogers in both explicit and indirect ways. This book will be of interest to anyone interested in the intersection of psychology and religion.

Psychology for Christian Ministry Rebecca Nye, Fraser Watts, Sara Savage, 2003-11-17 This introduction to psychology has been devised for those training for and working in the clergy. God & Culture D. A. Carson, John Woodbridge, 2020-07-30 This book examines a number of facets of contemporary culture and sets forth what thoughtful Christians have been and should be thinking about each one. Written in honor of Carl F. H. Henry on the occasion of his eightieth birthday, the essays in *God and Culture* are on these topics and by these contributors: hermeneutics Kevin J. Vanhoozer, pluralism D. A. Carson, eschatology Geoffrey W. Bromiley, anthropology Robert J. Priest, psychology Warren J. Heard Jr., philosophy George I. Mavrodes, history Lewis W. Spitz, economics Ian Smith, law Phillip E. Johnson, politics Sir Fred Catherwood, literature Leland Ryken, art Edmund P. Clowney, media Larry W. Poland, science Charles B. Thaxton, environment Loren Wilkinson, bioethics Nigel M. de S. Cameron, human sexuality Armand M. Nicholi Jr., personal life style and leisure J. I. Packer. Each of these authors has demonstrated a profound interest in thinking Christianly about his subject. Some of the essays scan the ways previous Christians have tried to evaluate each cultural slice; all of them offer some guidance regarding what Christians need to bear in mind as our culture rushes on. Some contributors adopt the well-known grid of H. Richard Niebuhr in his classic *Christ and Culture*; others cut fresh paths. The aim throughout is to foster fidelity to Christ and his gospel while encouraging a comprehensive Christian outlook on our rapidly changing world.

Understanding the Existence of God John S. Weekes, Dr John S Weekes, 2010-06 Understanding the Existence of God is the third in the trilogy of Understanding books by Dr John Weekes The first in the series was Understanding the Doctrine of the Trinity 1998 followed by Understanding Forgiveness 2002 With the Existence of God the trilogy is complete and it is the hope that these three books will do much to shed light on the often dark corridors of doubt controversy and misunderstanding with regard to God's Existence The Trinity is one of those areas of theology which has driven deep and lasting division within the heart of the body of Christ It is a field that defies enlightenment save by those in whose heart and over whose understanding the Holy Spirit reigns for the things of the Spirit must be spiritually discerned Forgiveness on the other hand is at the very heart of pure religion since it is that which illuminates Christians as truly the children of God In Understanding the existence of God the author has drawn on many reservoirs and lifted water from many streams but the ultimate authority for his thesis is God's infallible word The method used is in essence adversarial and critical written in a simple everyday matter of fact common sense style In so far as the case for God has been put it is submitted that it has been established with absolute certainty supported not only by words spoken with the very breath of God Himself but by a cloud of impeccable and unimpeachable witnesses

With All the Fullness of God Jared Ortiz, 2021-01-12 Christians confess that Christ came to save us from sin and death But what did he save us for One beautiful and compelling answer to this question is that God saved us for union with him so that we might become partakers of the divine nature 1 Pet 2 4 what the Christian tradition has called deification This term refers to a particular vision of salvation which claims that God wants to share his own divine life with us uniting us to himself and transforming us into his likeness While often thought to be either a heretical notion or the provenance of Eastern Orthodoxy this book shows that deification is an integral part of Catholicism Orthodoxy and many Protestant denominations Drawing on the resources of their own Christian heritages eleven scholars share the riches of their respective traditions on the doctrine of deification In this book scholars and pastor scholars from diverse Christian expressions write for both a scholarly and lay audience about what God created us to be adopted children of God who are called even now to be filled with all the fullness of God Eph 3 19

Radical Grace J. Harold Ellens,2007-10-30 The esteemed editor who brought us the acclaimed set The Destructive Power of Religion turns his attention here to a similarly powerful yet positive side of religion how our concept of God can fuel healthy body and mind This book contends that all health mental and physical is shaped for good or ill by our spiritual theological and psychological notions about the nature of God and by the way we form an outlook on life as a result of these notions Across history a large percentage of people have believed that God is a threat an attitude Ellens describes as sick gods created through pathological beliefs or sick gods that

make sick people But Ellens grounds his brighter perspective in this text on God as a source of unconditional grace and goodwill then illuminates the effect this perspective has on people who have incorporated it into their minds and lives Ellens shows that people with firm faith in God s radical grace are psychologically strong and healthy His offering of psychology interfacing with theology is reminiscent of Carl Rogers teaching on unconditional positive regard and its ability to heal suffering persons All readers he explains can benefit by this understanding that can inspire spiritual and psychological healing whether for ourselves family friends or clients in counseling or therapy Religious Books and Serials in Print, 1980-1981 ,1980
