*An Uncommon Faith* Eddie S. Glaude Jr.,2018-11-15 With *An Uncommon Faith* Eddie S Glaude Jr makes explicit his pragmatic approach to the study of African American religion He insists that scholars take seriously what he calls black religious attitudes that is enduring and deep seated dispositions tied to a transformative ideal that compel individuals to be otherwise no matter the risk This claim emerges as Glaude puts forward a rather idiosyncratic view of what the phrase African American religion offers within the context of a critically pragmatic approach to writing African American religious history Ultimately *An Uncommon Faith* reveals how pragmatism has shaped Glaude s scholarship over the years as well as his interpretation of black life in the United States In the end his analysis turns our attention to those black souls who engage in the arduous task of self creation in a world that clings to the idea that white people matter more than others It is a task he argues that requires an uncommon faith and deserves the close attention of scholars of African American religion **The**

*Sacred Stories, Spiritual Tribes* Nancy Tatom Ammerman,2014 Nancy Tatom Ammerman examines the stories Americans tell of their everyday lives from dinner table to office and shopping mall to doctor s office about the things that matter most to them and the routines they take for granted and the times and places where the everyday and ordinary meet the spiritual In addition to interviews and observation Ammerman bases her findings on a photo elicitation exercise and oral diaries offering a window into the presence and absence of religion and spirituality in ordinary lives and in ordinary physical and social spaces The stories come from a diverse array of ninety five Americans both conservative and liberal Protestants African American Protestants Catholics Jews Mormons Wiccans and people who claim no religious or spiritual proclivities across a range that stretches from committed religious believers to the spiritually neutral Ammerman surveys how these people talk about what spirituality is how they seek and find experiences they deem spiritual and whether and how religious traditions and institutions are part of their spiritual lives *On Divine Revelation: The Teaching of the Catholic Faith Vol. One* Fr. Reginald Garrigou-Lagrange,2022-05-27 In *On Divine Revelation* one of Garrigou Lagrange s most significant works here available in English for the very first time he offers a classic treatment of this foundational topic It is an organized and thorough defense of both the rationality and supernaturality of divine revelation He presents a careful yet stimulating

account of the scientific character of theology the nature of revelation itself mystery dogma the grace of faith the powers of human reason false interpretations thereof rationalism naturalism agnosticism and pantheism the motives of credibility and much more Though written a century ago On Divine Revelation will restore confidence in theology as a distinct and unified science and return focus to the fundamental questions of the doctrine of revelation It also serves as a salutary corrective to contemporary theology s anthropocentrism and concern with what is relative in revelation and religious experience by reorienting our theological attention to what is most certain central and sure in our knowledge of divine revelation the Triune God who has revealed his inner life and salvific will Readers will see the great splendor of the gift of divine revelation radiant with credibility before the gaze of reason and drawing our supernatural assent to the mysteries through the gift of faith As Fr Cajetan Cuddy O P observes On Divine Revelation is a stunning work of inestimable value No other subsequent work on this topic has come close to meeting it much less surpassing it     **The Uncommon Father** Mike Murdock,2004-10 B 131 THE UNCOMMON FATHER 31 Remarkable Secrets of Extraordinary Fathers Scripturally And Historically Who Have Changed The Course of Nations And Generations Opens up understanding of the Role Responsibility Rules Rewards of True Fatherhood A Must For Every Father     **An Appeal to Reason; Or, Sanity Vs. Faith** Samuel J. McNeese,1924     God, Faith, and Health Jeff Levin,2007-07-20 In this groundbreaking book Dr Jeff Levin explores the latest compelling evidence of the connection between health and an array of spiritual beliefs and practices including prayer attending religious services meditation and faith in God Drawing on his own and other published studies Dr Levin shows how religion s emphasis on healthy behaviors and supportive relationships influences one s overall health and how the optimism and hopefulness of those who profess faith promote the body s healing responses Filled with dramatic personal stories God Faith and Health will alter the way you think about your body and your faith and will show you the path to improving your own health through spiritual practice Jeff Levin writes with incredible clarity style and passion This book is a must read for anyone interested in the religion health connection especially those wondering if such a connection exists at all Harold G Koenig M D Associate Professor of Psychiatry and Medicine Duke University Medical Center and author of The Healing Power of Faith Beautifully written and packed with compelling scientific evidence for the spirituality health connection With the precision of a scientist the courage of a true pioneer and the artistry of a storyteller Levin reminds us of what we can no longer afford to ignore that our spiritual life matters mightily to our health and well being at every level Janet F Quinn Ph D R N Associate Professor University of Colorado School of Nursing     *Faith's Knowledge* Paul Tyson,2013-05-02 Can we know truth even though certain proof is unattainable Can we be known by Truth Is there a relationship between belief and truth and if so what is the nature of that relationship Do we need to have faith in reason and in real meaning to be able to reason towards truth These are the sorts of questions this book seeks to address In Faith s Knowledge Paul Tyson argues that all knowledge that aims at truth is always the knowledge of faith If this is the case then against our modernist cultural assumptions about knowledge

truth cannot be had by proof Yet if this is true then mere information and simply objective facts do not for us as knowers exist Knowledge is always embedded in belief and knowledge and belief is always expressed in relationships histories narratives shared meanings and power Hence a theological sociology of knowledge emerges out of these explorations in thinking about knowledge as a function of faith

**Liberating Christianity** Thomas C. Sorenson, 2008-11-01 Christianity is in crisis in our North American context especially among the cultural elite and people with progressive views The reasons for the faith's loss of credibility have to do in large part with the dominant philosophical materialism of our culture and with the understanding of the faith almost universally held by Americans both inside the churches and outside them In this book Thomas C Sorenson calls this understanding Biblicism by which he means the belief that the Bible is to be understood only literally and that in one way or another its authority comes from its claimed origin with God Many enlightened people also reject Christianity because the only Christianity they know is the judgmental socially conservative faith that the most vocal and visible advocates of the faith among us so loudly espouse This book offers a different understanding of the faith It begins with a discussion of the universal human experience of the spiritual dimension of reality It then discusses symbol and myth as the necessary language for communicating that experience The book shows that all human experience is necessarily subjective and that religious truth is thus also necessarily subjective Therefore religious truth is relative not universal and absolute The work argues that the Bible is a human work expressing its authors experience of the divine The book then discusses other obstacles to faith and offers a different understanding of the issues they raise The book replaces the classical theory of atonement with a theology of the cross based mainly on the work of Douglas John Hall It redefines salvation as having to do with this life not with the afterlife It closes with a section that replaces the dominant social conservatism of popular

cautious about psychedelics but our moment calls for theological and pastoral boldness It is time to prepare a welcome for those whose spiritual awareness has been awakened by these drugs whether used in therapy or in other settings All spiritual seekers especially today s psychedelic spiritual seekers deserve a home in the community of faith      **Affirmative**
