Faith Without Form Beliefs Of Catholic Youth:

Faith Without Form E. Nancy McAuley, Moira B. Mathieson, 1986 Results of a study in which Catholic youth from the Archdiocese of Washington D C talked about religion morality and the Catholic Church expressing their spiritual struggles and their frustrations with certain aspects of organized religion Faith Without Form sister E. Nancy McAuley (R.S.C.J.), 1986 Young Catholic America Christian Smith, Kyle Longest, Jonathan Hill, Kari Christoffersen, 2014-02-04 Best Review at the Catholic Press Association Convention Studies of young American Catholics over the last three decades suggest a growing crisis in the Catholic Church compared to their elders young Catholics are looking to the Church less as they form their identities and fewer of them can even explain what it means to be Catholic and why that matters Young Catholic America the latest book based on the groundbreaking National Study of Youth and Religion explores a crucial stage in the life of Catholics Drawing on in depth surveys and interviews of Catholics and ex Catholics ages 18 to 23 a demographic commonly known as early emerging adulthood leading sociologist Christian Smith and his colleagues offer a wealth of insight into the wide variety of religious practices and beliefs among young Catholics today the early influences and life altering events that lead them to embrace the Church or abandon it and how being Catholic affects them as they become full fledged adults Beyond its rich collection of statistical data the book includes vivid case studies of individuals spanning a full decade as well as insight into the twentieth century events that helped to shape the Church and its members in America An innovative contribution to what we know about religion in the United States and the evolving Catholic Church Young Catholic America is the definitive source for anyone seeking to understand what it means to be young and Catholic in America today

Conscience First, Tradition Second Patrick H. McNamara, 1992-02-06 For this study of American religion the author surveyed over 2000 Catholic high school seniors during a fourteen year period exploring changes in religiosity and attitudes toward the recent teachings of the Church Fifty four of these people were resurveyed eight and nine years after graduation probing whether and in what direction their viewpoints had shifted **The Mystery We Proclaim, Second Edition** Francis D. Kelly, 2008-01-01 Catechesis is a unique form of teaching that intends not merely to pass along facts but to hand on the faith received from Christ the apostles and the living magisterium of the Church The Mystery We Proclaim Second Edition is an invitation to all involved in this God ordained work to reflect and examine the importance of their ministry in light of the revealed mystery of faith we all profess Reflecting both the spirit and the content of the Catechism of the Catholic Church as well as the vision of the General Directory for Catechesis The Mystery We Proclaim Second Edition uses the riches of these resources to guide catechists into the third millennium with greater clarity confidence and effectiveness Today is as Monsignor Kelly points out a promising and exciting time in which the new evangelization offers many rich possibilities for catechesis Divided into five parts that analyze and evaluate the catechetical movement of the past as well as providing direction for the future The Mystery We Proclaim Second Edition helps consolidate and highlight themes of both the

Catechism and the General Directory Its five major sections are as follows Catechesis in the New Context The Heritage and Challenge of Catechesis The Goals of Catechesis The Content of Catechesis and A Methodology for Catechesis Everyone from pastors to DREs to religion teachers catechists and principals in fact anyone involved in religious education will find The Mystery We Proclaim Second Edition an encouragement to continued vigor and renewed enthusiasm for transmitting the living faith from one generation to the next

Young Adult Catholics Dean R. Hoge, 2001 Leaders of the American Catholic community want to and need to reach out to young adults But effective ministry to young adults depends on an understanding of the attitudes and the needs of the current generation of Catholics in their 20s and 30s This is why Dean Hoge William Dinges Mary Johnson and Juan Gonzales began their study of young adult Catholics How do they actually live their Catholicism Are they alienated from the church Are they cynical about the church's moral teachings Do they take the pope's statements seriously Do they attend Mass Have significant numbers left for other churches Do they want Catholic education for their children Seeking answers to these and other questions the authors conducted a national survey in 1997 supplemented by a telephone survey and then by personal interviews with over 800 men and women across the country The interviews put a human face on the information provided and they form a compelling part of this timely narrative Of special interest is the focus on Latino Catholics The authors underscore observations that include the strength and tenacity of Catholic identity in spite of many challenges the high level of personal decision making among those interviewed and surveyed and the readiness of young Catholics for institutional reforms
