Brooks Jessup, 2016-03-29 Modern Chinese history told from a Buddhist perspective restores the vibrant creative role of religion in postimperial China It shows how urban Buddhist elites jockeyed for cultural dominance in the early Republican era how Buddhist intellectuals reckoned with science and how Buddhist media contributed to modern print cultures It recognizes the political importance of sacred Buddhist relics and the complex processes through which Buddhists both participated in and experienced religious suppression under Communist rule Today urban and rural communities alike engage with Buddhist practices to renegotiate class gender and kinship relations in post Mao China This volume vividly portrays these events and more recasting Buddhism as a critical factor in China s twentieth century development Each chapter connects a moment in Buddhist history to a significant theme in Chinese history creating new narratives of Buddhism s involvement in the emergence of urban modernity the practice of international diplomacy the mobilization for total war and other transformations of state society and culture Working across an extraordinary thematic range this book reincorporates Buddhism into the formative processes and distinctive character of Chinese history

Tibetan Diaspora Anju Gurawa, 2009 **Buddhism after Mao** Ji Zhe, Gareth Fisher, André Laliberté, 2020-02-29 With well over 100 million adherents Buddhism emerged from near annihilation during the Cultural Revolution to become the largest religion in China today Despite this Buddhism s rise has received relatively little scholarly attention The present volume with contributions by leading scholars in sociology anthropology political science and religious studies explores the evolution of Chinese Buddhism in the post Mao period with a depth not seen before in a single study Chapters critically

analyze the effects of state policies on the evolution of Buddhist institutions the challenge of rebuilding temples under the watchful eye of the state efforts to rebuild monastic lineages and schools left broken in the aftermath of Mao's rule and the development of new lay Buddhist spaces both at temple sites and online Through its multidisciplinary perspectives the book provides both an extensive overview of the social and political conditions under which Buddhism has grown as well as discussions of the individual projects of both monastic and lay entrepreneurs who dynamically and creatively carve out spaces for Buddhist growth in contemporary Chinese society As a wide ranging study that illuminates many facets of China's Buddhist revival Buddhism after Mao will be required reading for scholars of Chinese Buddhism and of Buddhism and modernity more broadly Its detailed case studies examining the intersections among religion state and contemporary Chinese society will be welcomed by sociologists and anthropologists of China political scientists focusing on the role of religion in state formation in Asian societies and all those interested in the relationship between religion and social change

Making Saints in Modern China David Ownby, 2017 Sainthood has been and remains a contested category in China given the commitment of China's modern leadership to secularization modernization and revolution and the discomfort of China's elite with matters concerning religion However sainted religious leaders have succeeded in rebuilding old institutions and creating new ones despite the Chinese government's censure This book offers a new perspective on the history of religion in modern and contemporary China by focusing on the profiles of these religious leaders from the early 20th century through the present Edited by noted authorities in the field of Chinese religion *Making Saints in Modern China* offers biographies of prominent Daoists and Buddhists as well as of the charismatic leaders of redemptive societies and state managers of religious associations in the People's Republic The focus of the volume is largely on figures in China proper although some attention is accorded to those in Taiwan Hong Kong and other areas of the Chinese diaspora Each chapter offers a biography of a religious leader and a detailed discussion of the way in which he or she became a saint The biographies illustrate how these leaders deployed and sometimes retooled traditional themes in hagiography and charismatic communication to attract followers and compete in the religious marketplace Negotiation with often hostile authorities was also an important aspect of religious leadership and many of the saints' stories reveal unexpected reserves of creativity and determination The volume's contributors from the United States Canada France Italy China and Taiwan provide cutting edge scholarship Taken together these essays make the case that vital religious leadership and practice has existed and continues to exist in China despite the state's commitment to wholesale secularization
