Faith In What:

Exploring Catholic Faith in Shakespearean Drama David Torevell, Brandon Schneeberger, Luke Taylor, 2025-03-31
This pioneering study investigates the connection between Shakespeare and Catholic education. Its authors contend that Shakespeare's plays explore Catholic understandings of human life in ways that remain relevant for Catholic educational institutions today. Through chapters focusing on ethical and existential themes, love, desire, the body, marriage, virginity, evil, finitude, jealousy, and lies, the authors demonstrate Shakespeare's wide-ranging engagement with early modern Catholic belief and practice. At the same time, they argue that Shakespeare's treatment of Catholic faith through imaginative literature, rather than magisterial discourse and dramatically rather than didactically, provides a pedagogical model for contemporary teachers. The first volume to trace the relationship between a philosophy of Catholic education and Shakespearean drama, it will appeal strongly to all those working in Catholic educational settings, particularly those tasked with strengthening the mission of their institution, as well as to scholars and researchers of literacy education, religious education, and to those interested in the dynamic between education and drama.

The Warrant and Nature of Faith in Christ Considered; with Some Reference to the Various Controversies on that Subject Thomas Scott, 1797 [Faith in the Face of Militarization](#) Jude Lal Fernando, 2021-04-05
What does believing mean in the face of empire and militarization? These essays articulate the critical and liberating consciousness shared by oppressed peoples across the world arising from a faith in the God of the oppressed, expressed in radically diverse ways and resisting the imperialist deities of materialism, read economic growth, racism, and militarization that falsely appear as the saviors of humanity. The authors confront these false gods which form the modern empire worshiped by the most dominant militarized states in the world and followed by their allied states, even in the midst of a worldwide pandemic. Out of the eleven articles, two are written by critical political analysts with an anti-colonial lens while recognizing the importance of faith in resistance. The rest are written by theologians who critically reflect on their faith within the context of empire and militarization in their societies. Militarization is among the most brutal forms of oppression on the resisting peoples. Theologies that have emerged from critical reflections on their collective experiences are grounded on a material spirituality as opposed to materialistic, racist, and militaristic godlessness. This collection has emerged out of creative and transformative practices in Africa, Asia, Latin America, the Pacific, and the US. The essays are divided into four sections, recognizing some of the key features of material spirituality: indigenous, feminist, and interreligious voices, and horizontal solidarity. With contributions from Michael Lujan Bevacqua, Wati Longchar, Nidia Arrobo Rodas, Rasika Sharmen Pieris, Lilian Cheelo, Siwila Young, Bock Kim, Dan Gonzales, Ortega Erin Shea, Martin Mark Braverman, Joshua Samuel, Phil Miller.

Ebel,2010-04-11 Faith in the Fight tells a story of religion soldiering suffering and death in the Great War Recovering the thoughts and experiences of American troops nurses and aid workers through their letters diaries and memoirs Jonathan Ebel describes how religion primarily Christianity encouraged these young men and women to fight and die sustained them through war s chaos and shaped their responses to the war s aftermath The book reveals the surprising frequency with which Americans who fought viewed the war as a religious challenge that could lead to individual and national redemption Believing in a Christianity of the sword these Americans responded to the war by reasserting their religious faith and proclaiming America God chosen and righteous in its mission And while the war sometimes challenged these beliefs it did not fundamentally alter them Revising the conventional view that the war was universally disillusioning Faith in the Fight argues that the war in fact strengthened the religious beliefs of the Americans who fought and that it helped spark a religiously charged revival of many prewar orthodoxies during a postwar period marked by race riots labor wars communist witch hunts and gender struggles For many Americans Ebel argues the postwar period was actually one of reillusionment Demonstrating the deep connections between Christianity and Americans experience of the First World War Faith in the Fight encourages us to examine the religious dimensions of America s wars past and present and to work toward a deeper understanding of religion and violence in American history *Faith in Unions* David Isiorho,2022-09-07 Faith in Unions is a personal account representing a critique of Whiteness and Black marginality in the Faith Workers Trade Union In

short it is a Black theology critique of the way Muslim and Hindu faith workers have been treated in the British Labour movement This book clearly has things to say about discriminatory practices which puts the discussion about Englishness and Britishness into a wider context I am suggesting a political agenda associated with English ethnicity as the mode of involvement to explain policies that are likely to result in racialised religious exclusion Faith in Unions gives focus to Muslim and Hindu workplace groupings within the Faith Workers Branch and the opposition to their formation from Anglican and Methodist Christian members I am concerned with the struggle for faith recognition within a discriminatory and institutionally racist union structure This book offers an explicit exploration of what I mean by the racialised other in the context of the British Labour movement In this we need to understand the ways historical Christianity has defined Black identities My conclusion hopefully will start a wider discussion of Englishness and English exclusivity

Putting Faith in Partnerships Stephen V. Monsma, 2009-11-16 Putting Faith in Partnerships addresses a major conceptual change in American domestic policy begun by Reagan and now fully realized by the Bush administration the shift of responsibility for social services from the federal government to states and communities In this groundbreaking study of a politically controversial topic the debut offering in Alan Wolfe's Contemporary Political and Social Issues series author Stephen Monsma avoids overheated rhetoric in favor of a careful critical analysis of the hard evidence on whether public private partnerships really work The book is based on in depth studies of social service programs in Los Angeles Chicago Philadelphia and Dallas By examining public private partnerships between government offices and nonprofit organizations Monsma seeks to understand how these partnerships affect the balance between government's efforts to deal with social problems and the rights of individual citizens to control their own lives Putting Faith in Partnerships answers many previously unanswered questions in what may be the most controversial public policy debate today about the feasibility and wisdom of government agencies forming partnerships with private organizations to provide essential public social services Stephen V Monsma is Professor of Political Science at Pepperdine University He has served as director of the Office of Quality Review in Michigan's Department of Social Services and is a widely recognized expert on the role of faith based organizations in social service programs

Faith in Democracy Fabrizio Elefante, 2008 Populist mediatic democracy is totalitarianism compatible with democracy The irreducibility of intellectuals to masses is the disjunctive element or function of the totalitarian mental field This is in brief the path that awaits the reader an instructive at times even painful journey through our cultural koine which gradually proves to be an economic koine monopolized and debased by publicity and consensus logic The form of democracy that we are experiencing today is mediatic a form unknown in the past

but now in need of fresh criticism and as a result foreign to theoretical developments of former centuries The Greek etymon power of the people has no longer value It is replaced by power of the media which is at the same time an area of discussion and social interaction The principle of majority peculiar to democracy becomes the instrumentum regni of mediatic power a fictitious majority earned from TV shares is presented according to the canons of democratic rhetoric and commercial logic takes over democratic rhetoric Consumption is democratic expression discourse is aristocratic privilege imaginary gratification and the resumption of illiteracy spurred on by spectacular society The only option available to augment democracy consists in reducing the asymmetry of knowledge among citizens until we allow democratic participation only to those who will have the necessary cultural qualifications Democratic form debased and turned clownish by business and populist folklore will be able to recover vital lymph through the work of its artists through the drafting of new forms of relationship between the proper and the common With a literary style that resembles both that of Heraclitus and Debord this book captivates draws enthusiasm demoralizes and destructures clichés in which we are immersed thus revealing at the same time new paths of enquiry so we can give meaning to our lives of individuals belonging to a community

Our Faith in Evil Gregory Desilet, 2005-12-02 Is violence in American cinema a reflection of life Or does life imitate the violence people see in cinema One of the pressing questions in today's society is whether fictional portrayals of violence have social or psychological consequences Studies have concluded with both yes and no verdicts Is America a culture of violence Why does violence horror and melodrama appeal to people This book explores these issues with primary focus on entertainment especially film through lenses of the media the consumer and the cultural backdrop The film *A Clockwork Orange* allegedly spawned so much violence in the United Kingdom that director Stanley Kubrick was rumored to have fled with his family to avoid a death threat From that classic case the author takes readers through a study of media and violence that examines the structure of horror the origin and nature of evil the Greek mythic tradition melodrama and catharsis fairy tales comic books video games and real horror In part two the author offers case studies in several genres westerns multi melodrama The Silence of the Lambs slasher films psycho drama serials such as Star Wars and Harry Potter apocalyptic melodrama modern and postmodern noir creature features and religious melodrama In text citations are included and two notes expand on a couple of issues in the text the perspectives of Plato and Aristotle on the effects of tragic drama and discussion of differences of opinion relating to methodological approach

The Habits of Race and Faith in a Religiously Diverse World Mara Brecht, 2024-07-08 Religious diversity cultural pluralism and interreligious encounter are widely viewed in modern life as socially and for many people of faith spiritually enriching One of the most significant but frequently overlooked benefits of

interreligious encounter is that it empowers us to see ourselves and particularly our racialized identities in new and revealing ways In *The Habits of Race and Faith in a Religiously Diverse World* Mara Brecht places whiteness under particular scrutiny its tangled and entwined relationship with religious identity as well as strategic associations with dominance and privilege The analysis of whiteness gives way to fresh perspectives on Christian ideas about salvation both in connection to religious faith and racial embodiment Putting Faith in Hate Richard Moon,2018-02-15 Explores the interplay between law and religion in the area of hate speech whether religion is the target or source **Living Catholic Faith in a Contentious Age** Raymond G. Helmick SJ,Raymond G. Helmick,2010-06-24 An exploration of the tension between two opposing views of the meaning of faith held by Catholics around the world Good Faith in International Law Robert Kolb,2017-07-13 There is a great degree of controversy on the proper complexion and role of general principles of law in the international legal order Opinions range from total rejection of some types of principles to the most enthusiastic endorsement of principles as the necessary oil for the many complex wheels of the legal order In this book one of the leading public lawyers of his generation explores the concept of good faith and its role in international law Rather than offer a detailed comprehensive examination Kolb aims to map the true points of gravity of the principle of good faith in the international legal order In so doing he illustrates how the various legal institutions who operate in the sphere of public international law allow the principle of good faith to unfold *Encountering Faith in the Classroom* Miriam R. Diamond,2023-07-03 When faculty unexpectedly encounter students religious ideologies in the classroom they may respond with apprehension frustration dread or concern Instructors may view this exchange as a confrontation that threatens the very heart of empirical study and worry that this will lead to a dead end in the learning process The purpose of this book is to explore what happens and what can happen in the higher education and even secondary school classroom when course content meets or collides with students religious beliefs It also considers the impact on learning in an environment where students may feel threatened angry misunderstood or in which they feel their convictions are being discredited This is a resource that offers ways of conceptualizing engaging with and responding to student beliefs This book is divided into three sections student views on the role of religion in the classroom general guidelines for responding to or actively engaging religious beliefs in courses such as legal and diversity considerations and specific examples from a number of disciplines including the sciences social sciences humanities and professional education Professors from public private and religious institutions share their findings and insights The resounding lessons of this book are the importance of creating a learning space in which students can express their beliefs dissonance and emotions constructively without fear of retribution and of establishing ground rules of respectful discussion for this process to be valuable and productive This is an inspirational and practical guide for faculty navigating the controversial sensitive yet illuminating lessons that can be learned when religion takes a seat in the classroom **The Triumph of Faith in Habakkuk** Donald E. Gowan,2009-09-01 Donald E Gowan offers new insights into what may be the

Old Testament's earliest treatment of the problem of suffering the book of Habakkuk That small obscure part of the Old Testament tucked away somewhere in the middle of the minor prophets as Gowan put it Habakkuk has been a middle child of too many Bible students non attention Yet Gowan makes no claim that this book should be more central than it has been Instead he shows his own personal pastoral and scholarly involvement with this powerful tract After an introductory chapter the author examines each of Habakkuk's three sections Gowan offers his own translation of the text applying a critical approach and providing a decisive commentary Gowan compares the first section's dialogue between the prophet and God Habakkuk 1:1-2:4 with other Old Testament dialogues about God's justice He also discusses God's response But the just shall live by faith as a meaningful answer to Habakkuk's questions While the woe oracles of the second section Habakkuk 2:5-20 have not seemed very important in the past Gowan shows how they form a mock funeral dirge sung in advance of a great tyrant's death He then applies this insight to the problems of tyranny and liberty today The psalm Habakkuk 3 which concludes the book is discussed in terms of Israelite traditions theophany faith and history The central focus is placed on Habakkuk's striking personal statement concerning the ability of the man of faith to live through suffering joyfully Recognizing the relationship of our suffering to that of Christ Gowan concludes The Triumph of Faith in Habakkuk by drawing together relevant themes from Habakkuk's time and Jesus's experience

Faith in Reading David Paul Nord, 2004-08-19 In the twenty first century mass media corporations are often seen as profit hungry money machines It was a different world in the early days of mass communication in America Faith in Reading tells the remarkable story of the noncommercial religious origins of our modern media culture In the early nineteenth century a few visionary entrepreneurs decided the time was right to reach everyone in America through the medium of print Though they were modern businessmen their publishing enterprises were not commercial businesses but nonprofit societies committed to the publication of traditional religious texts Drawing on organizational reports and archival sources David Paul Nord shows how the managers of Bible and religious tract societies made themselves into large scale manufacturers and distributors of print These organizations believed it was possible to place the same printed message into the hands of every man woman and child in America Employing modern printing technologies and business methods they were remarkably successful churning out millions of Bibles tracts religious books and periodicals They mounted massive campaigns to make books cheap and plentiful by turning them into modern mass produced consumer goods Nord demonstrates how religious publishers learned to work against the flow of ordinary commerce They believed that reading was too important to be left to the market revolution so they turned the market on its head seeking to deliver their product to everyone regardless of ability or even desire to buy Wedding modern technology and national organization to a traditional faith in reading these publishing societies imagined and then invented mass media in America
