Polkinghorne, 2014-07-14 Is it possible to think like a scientist and yet have the faith of a Christian Although many Westerners might say no there are also many critically minded individuals who entertain what John Polkinghorne calls a wistful wariness toward religion they feel unable to accept religion on rational grounds yet cannot

dismiss it completely Polkinghorne both a particle physicist and Anglican priest here explores just what rational grounds there could be for Christian beliefs maintaining that the quest for motivated understanding is a concern shared by scientists and religious thinkers alike Anyone who assumes that religion is based on unquestioning certainties or that it need not take into account empirical knowledge will be challenged by Polkinghorne's bottom up examination of Christian beliefs about events ranging from creation to the resurrection The author organizes his inquiry around the Nicene Creed an early statement that continues to summarize Christian beliefs He applies to each of its tenets the question What is the evidence that makes you think this might be true The evidence Polkinghorne weighs includes the Hebrew and Christian scriptures their historical contexts and the possible motivations for their having been written scientific theories and human self consciousness as revealed in literary philosophical and psychological works He begins with the words We believe and presents understandings of the nature of humanity showing for example that Cartesian theory evolution and natural selection do not tell the entire story of what humans are about especially in light of many sources that attest to our spirituality Moving through the Creed Polkinghorne considers the concept of divinity and God as creator in discussions that cover the Theory of Everything the Big Bang Theory and the possibility of divine presence within reality so that God is not simply an outside observer Chapters on Jesus analyze the different ways events are described in the Gospels and the way motivation for belief is conveyed for example how do these writings explain why a young man killed in public disgrace could inspire a following when other major world religious leaders lived to become highly revered elders in their communities Faith seeking understanding is according to Polkinghorne like the scientific quest Both are journeys of intellectual discovery in which those who survey experience from an initially chosen point of view must be open to correction in the light of further experience Religion he writes has long known that ultimately every human image of God proves to be an inadequate idol The Faith of a Physicist based on the prestigious 1993 Gifford Lectures delivers a powerful message to scientists and theologians theists and atheists alike Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Ecologies of Faith in a Digital Age Stephen D. Lowe, Mary E. Lowe, 2018-06-19 Many Christian institutions have embraced new technologies especially online education But is it possible for us to grow spiritually through our digital communities Steve Lowe and Mary Lowe longtime proponents of online education trace the motif of spiritual growth through Scripture and consider how students and professors alike might foster digital ecologies in which spiritual transformation can take place **Bad Faith** Carmen Callil, 2007-12-04 Bad Faith tells the story of one of history's most despicable villains and con men Louis Darquier de

Pellepoix Nazi collaborator and Commissioner for Jewish Affairs in France's Vichy government Darquier set about to eliminate Jews in France with brutal efficiency delivering 75 000 men women and children to the Nazis and confiscating Jewish property which he used for his own gain Carmen Callil's riveting and sometimes darkly comic narrative reveals Darquier as a self-obsessed fantasist who found his metier in propagating hatred a career he denied to his dying day and traces the heartrending consequences for his daughter Anne of her poisoned family legacy A brilliant meld of epic sweep and psychological insight *Bad Faith* is a startling history of our times

The Singing Heart of the World: Creation, Evolution, and Faith John Feehan, 2012 **Faith and the Presidency From George Washington to George W. Bush**

Gary Scott Smith, 2006-10-12 In the wake of the 2004 election pundits were shocked at exit polling that showed that 22% of voters thought moral values was the most important issue at stake People on both sides of the political divide believed this was the key to victory for George W. Bush who professes a deep and abiding faith in God While some fervent Bush supporters see him as a man chosen by God for the White House opponents see his overt commitment to Christianity as a dangerous and unprecedented bridging of the gap between church and state In fact Gary Scott Smith shows none of this is new Religion has been a major part of the presidency since George Washington's first inaugural address Despite the mounting interest in the role of religion in American public life we actually know remarkably little about the faith of our presidents Was Thomas Jefferson an atheist as his political opponents charged What role did Lincoln's religious views play in his handling of slavery and the Civil War How did born-again Southern Baptist Jimmy Carter lose the support of many evangelicals Was George W. Bush as his critics often claimed a captive of the religious right In this fascinating book Smith answers these questions and many more He takes a sweeping look at the role religion has played in presidential politics and policies Drawing on extensive archival research Smith paints compelling portraits of the religious lives and presidencies of eleven chief executives for whom religion was particularly important *Faith and the Presidency* meticulously examines what each of its subjects believed and how those beliefs shaped their presidencies and in turn the course of our history

Keeping Faith Jimmy Carter, 1995-07-01 Presents his personal view of life in the White House the crises he faced the people he worked with and the advice he received as president of the United States

Keeping Faith Cornel West, 2021-11-18 In this powerful collection by one of today's leading African American intellectuals *Keeping Faith* situates the current position of African Americans tracing the genealogy of the Afro American Rebellion from Martin Luther King to the rise of black revolutionary leftists In Cornel West's hands issues of race and freedom are inextricably tied to questions of philosophy and above all to a belief in the power of the human spirit

Emerging Faith Paul H. De Neui, 2020-01-05 Mistakes are inevitable but repeating them isn't In non-Western contexts Christianity has often been viewed as the religion of foreigners with a hidden political agenda Sharing the gospel in non-imperialistic ways can be challenging particularly in Asia Every location to which God calls his messengers has its own rich history that should be shared with gospel workers and local people Those desiring

to serve interculturally must learn as much as possible about the past before joining that history Are we learning from the past or are we simply repeating the same mistakes in our own times and places No culture in the world is a blank slate rather we can look for the initiating inviting work of the *missio Dei* already emerging from within every surprising source This book showcases the writings of sixteen reflective practitioners who offer insights based on their study and experience of history These women and men come from a wide variety of cultural and theological backgrounds Their stories include An American who brought Protestant Buddhism to Sri Lanka A Norwegian Lutheran who started a Christian monastic community in Hong Kong A local scholar who led a faith movement in China that nearly overthrew the government A Thai villager who became an evangelist and a silent film star Highlighting key people and places *Emerging Faith* surveys several Christian movements found in the mission history of Asia If you wish to challenge your thinking and respond to God's invitation to participate in the global context look here for encouragement and guidance

The Faith Brian Moynahan, 2007-12-18 Beginning with the birth of Jesus and tracing the religion established by his followers up to the present day *The Faith* is a comprehensive exploration of the history of Christianity Judiciously covering all the signal moments without bogging down in minutia author Brian Moynahan's superbly written and generously illustrated book is of central importance to Christians historians and anyone interested in a faith that shaped the modern world Moynahan's research uses little known sources to tell a magnificent story encompassing everything from the early tremulous years after Jesus' death to the horrors of persecution by Nero from the growth of monasteries to the bloody Crusades from the building of the great cathedrals to the cataclysm of the Reformation and the Catholic Counter Reformation from the flight of pilgrims from Europe in pursuit of religious freedom to the Salem Witch Trials from the advent of a traveling pope to the rise of televangelists Coming just in time for Jubilee 2000 this ambitious book reveals and commemorates the significance of the Christian faith

Peace and Faith Cary Nelson, Michael C. Gizzi, 2021-10-26 *PEACE AND FAITH* Christian Churches and the Israeli/Palestinian Conflict composed of new essays is the first collection to bring together writers from different faith communities to discuss the Boycott Divestment and Sanctions movement's impact on one of the more fractious topics addressed by Christian denominations the Israeli/Palestinian conflict In so doing it builds on interfaith projects under way for decades Theology and politics intermingle in debates taking place in local churches Christian NGOs and national church meetings that define official policy The debates revive and reframe the most basic values of Christianity and the questions church members seek to resolve How do Christians today hew to the principles Jesus articulated How can justice be pursued in the context of competing national narratives and historical understandings What bearing do or should centuries of Christian violence against Jews and Muslims have on contemporary theology and ethics Is it ethical or even possible to set aside millennia of Christian anti-Semitism in judging Israel's conduct What Christian values should be honored in pursuing Jesus's mission of reconciliation today How may the pursuit of truth be corrupted by passionate social witness Can advocacy cross the line into hatred These are among

the critical questions this collection poses and attempts to address **Defending Your Faith** Dan Story, 2019-03-26
