Faith Based Diplomacy Trumping Realpolitik:

Faith- Based Diplomacy Trumping Realpolitik Douglas Johnston, 2008-06-02 For most of the twentieth century the most critical concerns of national security have been balance of power politics and the global arms race The religious conflicts of this era and the motives behind them however demand a radical break with this tradition If the United States is to prevail in its long term contest with extremist Islam it will need to re examine old assumptions expand the scope of its thinking to include religion and other irrational factors and be willing to depart from past practice A purely military response in reaction to such attacks will simply not suffice What will be required is a long term strategy of cultural engagement backed by a deeper understanding of how others view the world and what is important to them In non Western cultures religion is a primary motivation for political actions Historically dismissed by Western policymakers as a divisive influence religion in fact has significant potential for overcoming the obstacles that lead to paralysis and stalemate The Incorporation of religion as part of the solution to such problems is as simple as it is profound It is long overdue This book looks at five intractable conflicts and explores the possibility of drawing on religion as a force for peace It builds upon the insights of Religion the Missing Dimension of Statecraft OUP 1994 which examined the role that religious or spiritual factors can play in preventing or resolving conflict while achieving social change based on justice and reconciliation The world class authors writing in this volume suggest how the peacemaking tenets of five major world religions can be strategically applied in ongoing conflicts in which those religions are involved Finally the commonalities and differences between these religions are examined with an eye toward further applications in peacemaking and conflict resolution

Pathways for Theology in Peacebuilding Sara Gehlin, 2020-06-02 The ambivalent role of religions in contemporary conflicts has generated an increasing call for faith based peacebuilding endeavours In *Pathways for Theology in Peacebuilding* Ecumenical Approaches to Just Peace Sara Gehlin discusses the ways theology can provide essential resources for such peacebuilding pursuits The pathways for theology in peacebuilding are investigated with regard to a recent faith based peace endeavour namely the creation of an international ecumenical declaration on just peace In the book Gehlin explores the meaning of a just peace from the perspectives of theological ethics biblical interpretation spirituality and

ecumenical vision On the basis of this exploration the book maps out theological resources for peace in our time The Complex Reality of Religious Peacebuilding Katrien Hertog,2010-08-20 This insightful book focuses on the multifaceted subject of sustainable religious peacebuilding Katrien Hertog discusses the ways in which religious actors can utilize resources to prevent violent conflict from occurring reduce conflict when it does happen and rebuild bridges between sides in after conflict has ceased She examines the emergence of the field of religious peacebuilding developing a conceptual framework that outlines how aspects of religious organizations can contribute to effectual peacebuilding and creating a screening model that allows readers to analyze the resources and obstacles to peacebuilding in depth Using the Russia and the Orthodox Church as a major case study Hertog clearly shows what the concrete resources for peace are how they are applied what obstacles are hindering their realization and how these resources can be better utilized and supported This book tackles the controversial issue of the place of religion and religious organizations in the peace process While recognizing that no simple answer exists in solving ethnic religious and tribal conflict Hertog presents the ways religion can be used to create lasting sustainable peace Religion and Conflict Resolution Megan Shore,2016-04-08 This book examines the ambiguous role that Christianity played in South Africa s Truth and Reconciliation Commission TRC It has two objectives to analyse the role Christianity played in the TRC and to highlight certain consequences that may be instructive to future international conflict resolution processes Religion and conflict resolution is an area of significant importance Ongoing conflicts involving Palestinians and Israelis Muslims and Hindus and even radical Islamic jihadists and Western countries have heightened the awareness of the potential power of religion to fuel conflict Yet these religious traditions also promote peace and respect for others as key components in doing justice Examining the potential role religion can play in generating peace and justice specifically Christianity in South Africa s TRC is of utmost importance as religiously inspired violence continues to occur This book highlights the importance of accounting for religion in international conflict resolution

Politics in a Religious World Eric Patterson,2011-09-29 Politics in a Religious World examines why US diplomacy often misunderstands if not ignores the role of religion in international conflicts After the Cold War it became evident that religion was a key factor in many conflicts including Bosnia Rwanda and Afghanistan However the US failed to correctly appreciate this role for example predicting the failure of the Iranian theocrats in 1979 Today most of the security and foreign relations challenges faced by the US are infused with religious factors from its relations with Iran to the Iraq war and jihadist terrorists Religion however can also play a transnational role when it comes to human rights conflict resolution and political mobilization Written by an expert in the field the book analyzes why the US deliberately avoids the religious dimension of international affairs and proposes a comprehensive approach to a religiously literate US foreign policy Politics in a Religious World addresses a needed area and will appeal to anyone studying US foreign policy as well as the interaction of religion and international affairs *Religion and International Security* Lee Marsden,2019-01-22 Religious violence is on the rise globally

Hardly a day passes without news of a vicious attack being carried out in the name of religion. Religion can of course bring security to many but its perversion leads to insecurity for all. Why is this? How and why do so many claim to act on God's behalf to inflict deliberate human suffering? In *Religion and International Security* Lee Marsden explores the return of religion as a major cause of insecurity in the contemporary world. He guides readers through the different theoretical perspectives surrounding the study of religion and security, arguing that the secular bias that marginalized the role played by religion in recent times must change to reflect the realities of the emerging post secular international order. Packed with examples from around the world, the book offers a thoughtful and nuanced exploration of religion and security through key themes such as religiously motivated and inspired terrorism and warfare, the human security of women and gay people in religiously dominated communities, and the capacity for religious communities and leaders to heal conflict through peacebuilding. For those who would rather deny a role for religion when considering security, the genie is truly out of the bottle. This book seeks to understand this phenomenon and how to come to terms with it. **The Era of Private Peacemakers** Marko

Lehti, 2018-07-07. The field of peacemaking is in turbulent change. There are more peacemaking actors than before but fewer success stories and an increasing number of violent conflicts tend to resist negotiated agreements. Tools and practices created for traditional inter and intra state conflicts have become ineffective and revision of old mediation practices is called for. This book examines how the private peacemaking organisations have faced this challenge. In the 21st century private peacemakers have become a central part of peace diplomacy and have appeared as flexible actors whose innovative thinking paves the way for reconsidering and reinventing old practices of mediation. Instead of emphasizing the act of resolution, a new emphasis is given to the transformation of violence into a peace system, the complexity of conflict and the inadequateness of rational management. Furthermore, this shift has brought civic society actors from the field of reconciliation to the field of peace mediation. This new pragmatic approach under development can be called dialogic mediation. *Theology after the Birth of God* F. Shults, 2014-08-07. Engaging recent developments within the bio cultural study of religion, Shults unveils the evolved cognitive and coalitional mechanisms by which god conceptions are engendered in minds and nurtured in societies. He discovers and attempts to liberate a radically atheist trajectory that has long been suppressed within the discipline of theology. Religion, Conflict, and Peacebuilding Stipe Odak, 2020-10-27. This book provides fresh insights into the role of religious leaders in conflict transformation and peacebuilding. Based on a large dataset of interviews with Christian and Muslim leaders in Bosnia and Herzegovina, it offers a contextually rich analysis of the main post conflict challenges: forgiveness, reconciliation, and tragic memories. Designed as an inductive qualitative research, it also develops an integrative theoretical model of religiously inspired engagement in conflict transformation. The work introduces a number of new concepts which are relevant for both theory and practice of peacebuilding, such as Residue of Forgiveness, Degree Zero of Reconciliation, Ecumene of Compassion, and Phantomic Memories. The book furthermore proposes two

correlated concepts theological dissonance and pastoral optimization as theoretical tools to describe the interplay between moral ideals and practical limitations The text is a valuable resource for religious and social scholars alike especially those interested in topics of peace conflict and justice From the methodological standpoint it is an original and audacious attempt at bringing together theological philosophical and political narratives on conflicts and peace through the innovative use of the Grounded Theory approach

Religion, Identity, and Global Governance Patrick James, 2011-01-01 This volume addresses essential themes in international relations today asking how we can establish when religious identity is a relevant factor in politics when and how religion can be applied to advance positive peace oriented agendas in global governance and how governments can reconsider their foreign and domestic policies

Chaplains as Liaisons with Religious Leaders George Adams, 2006

Strategies of Peace Daniel Philpott, Gerard Powers, 2010-03-24 This will be the first volume in the Studies in Strategic Peacebuilding series The editors have brought together fifteen leading scholars of peacebuilding to rethink the basic goals and methods of conflict resolution The prevailing approach the authors argue is far too narrow They argue instead for a holistic approach that they term strategic peacebuilding which aims not only for stability but for a comprehensive solution that incorporates apology forgiveness reconciliation and most crucially religion

Religion, Terror, and Error Douglas M. Johnston, 2011-01-04 This book describes how the United States can integrate religious considerations into its foreign policy moving towards a new leadership paradigm that effectively counters the challenge of Islamist extremism How should the United States deal with the jihadist challenge and other religious imperatives that permeate today's geopolitical landscape Religion Terror and Error U S Foreign Policy and the Challenge of Spiritual Engagement argues that what is required is a longer term strategy of cultural engagement backed by a deeper understanding of how others view the world and what is important to them The means by which that can be accomplished are the subject of this book This work achieves three important goals It shows how religious considerations can be incorporated into the practice of U S foreign policy offers a successor to the rational actor model of decision making that has heretofore excluded irrational factors like religion and suggests a new paradigm for U S leadership in anticipation of tomorrow's multipolar world In describing how the United States should realign itself to deal more effectively with the causal factors that underlying religious extremism this innovative treatise explains how existing capabilities can be redirected to respond to the challenge and identifies additional capabilities that will be needed to complete the task

The Oxford Handbook of Religion, Conflict, and Peacebuilding Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field

Intercultural and Interfaith Dialogues for Global Peacebuilding and Stability Peleg, Samuel, 2019-05-31 Communication is vital to the prosperity and survival of the community with the quality of communication amongst its members directly improving or worsening the value of the community

However with the increase in immigration and relocation of refugees the need to accommodate diverse cultural groups becomes imperative for the viability and survivability of a community while posing challenges to communication Intercultural and interfaith dialogue can be used constructively to cultivate manage and sustain diversity and wellbeing in particularly deeply divided communities Intercultural and Interfaith Dialogues for Global Peacebuilding and Stability is a critical research publication that explores the importance of conflict resolution strategies among populations that include a varied amalgamation of cultural and religious backgrounds With the increasing emphasis on intercultural understanding promoted by governments civil societies and international mediators this book offers relevant remedies for major afflictions in the world today such as exclusion marginalization xenophobia and racism It is ideal for government officials policymakers activists diplomats lawyers international trade and commerce agencies religious institutions academicians researchers and students working in a variety of disciplines including political science international relations law communication sociology and cultural studies

Religious Pluralism, Globalization, and World Politics Thomas Banchoff, 2008-11-26 Globalization has spawned more active transnational religious communities creating a powerful force in world affairs Religious Pluralism Globalization and World Politics an incisive new collection of essays explores the patterns of cooperation and conflict that mark this new religious pluralism Shifting religious identities have encouraged interreligious dialogue and greater political engagement around global challenges including international development conflict resolution transitional justice and bioethics At the same time interreligious competition has contributed to political conflict and running controversy over the meaning and scope of religious freedom In this volume leading scholars from a variety of disciplines examine how the forces of religious pluralism and globalization are playing out on the world stage

Christian Worldview and the Academic Disciplines Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the difference s that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their

particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful

Weapon of Peace Nilay Saiya, 2018-08-01 Religious terrorism poses a significant challenge for many countries around the world Extremists who justify violence in God's name can be found in every religious tradition and attacks perpetrated by faith based militants have increased dramatically over the past three decades Given the reality of religious terrorism today it would seem counterintuitive that the best weapon against violent religious extremism would be for countries and societies to allow for the free practice of religion yet this is precisely what this book argues *Weapon of Peace* investigates the link between terrorism and the repression of religion both from a historical perspective and against contemporary developments in the Middle East and elsewhere Drawing upon a range of different case studies and quantitative data Saiya makes the case that the suppression and not the expression of religion leads to violence and extremism and that safeguarding religious freedom is both a moral and strategic imperative

European Societies in Transition Dan Sandu, 2010 The contributions in this volume on social care and welfare disadvantaged groups or individuals are intended to be useful in the Eastern European social context to those who experienced or study the communist rule The transition in Eastern societies is fast paced sometimes people oppose it or refuse to be involved Rules are firm and imposed according to already established models in Western European countries Society tends to become more ferocious in content but more accessible through media and democratic liberties Changes are very swift and need greater attention because of the fundamental and structural nature of transformations in an age of transition
